01 METHOD

Dated public-evidence snapshot checked 04 October 2026. Meta evidence is cited by individual Library ID and advertiser/page ID; the selected cards are not an account-wide count. Meta search-type parameters can be ignored by the interface, so keyword results are not treated as page or advertiser proof. Bengaluru relevance is based only on explicit creative or first-party material; no audience targeting is inferred.

Contacts and offer details are taken from the brand's own website, help or corporate pages and remain routing contacts unless a buyer role is explicitly published. No private account, booking, order or analytics records were accessed. Spend, ROAS, CPA, conversion outcomes and event firing are marked unavailable or not measured. A public ad card or URL alone does not prove that tracking events fire.

03 FINDINGS

MEDIUM

checked: 04 OCT 2026

The public handoff is product-specific. The existence of a code does not show how many orders used it or whether purchase events are attributed.
NEXT CHECK · Inside the account, compare the campaign source, code application and completed-order record without inferring results from the public card.

NOTE

02 The official site publishes an additional first-order threshold

source_ids: S1, S2, S3
observed: The site banner reads ‘Flat 5% OFF on Your First Order Above 1000 | Use Code: WELCOME5’; the ad says 5% off with WELCOME5.
checked: 04 OCT 2026

The threshold and first-order condition are published by the brand. This audit does not report a checkout test or claim a mismatch.
NEXT CHECK · Keep the same eligibility wording visible on the product page and at checkout, then verify redemption in first-party order data.

NOTE

03 The published email is a general contact route

source_ids: S2
observed: Hatti Kaapi's contact-information page lists info@hattikaapi.in and a Bengaluru physical address.
checked: 04 OCT 2026

The route is brand-owned and checkable, but no paid-media buyer is named on that page.
