01 METHOD

Dated public-evidence snapshot checked 04 October 2026. Meta evidence is cited by individual Library ID and advertiser/page ID; the selected cards are not an account-wide count. Meta search-type parameters can be ignored by the interface, so keyword results are not treated as page or advertiser proof. Bengaluru relevance is based only on explicit creative or first-party material; no audience targeting is inferred.

Contacts and offer details are taken from the brand's own website, help or corporate pages and remain routing contacts unless a buyer role is explicitly published. No private account, booking, order or analytics records were accessed. Spend, ROAS, CPA, conversion outcomes and event firing are marked unavailable or not measured. A public ad card or URL alone does not prove that tracking events fire.

03 FINDINGS

MEDIUM

01 The active creative is a founder story with an Instagram handoff

source_ids: S1

observed: Meta Ad Library ID 4610923952560301 was marked Active and started 30 Sep 2026. Copy: 'Before the queues, the branches, and the buzz ... Nandhana Palace wasn't launched. It was earned.' CTA: Visit Instagram profile.

checked: 04 OCT 2026

The visible route is social-profile engagement, not a direct booking or order link. The card does not establish the campaign's objective or its results.
NEXT CHECK · If orders or store visits are an objective, compare Instagram click activity with the relevant booking/order records inside the business systems.

NOTE

02 The official contact page confirms a local Koramangala address

source_ids: S2

observed: The page lists #7, 4th B block, near BDA Complex, Koramangala, Bangalore 560034, and names Nandhana Foods Private Limited.

checked: 04 OCT 2026

This is a first-party local presence signal; no claim about the ad's geographic audience is made.
NEXT CHECK · Route the audit to the team that owns digital campaigns or local-store acquisition.

NOTE

03 Published emails are customer-support routes

source_ids: S2

observed: customerservices@nandhanahotels.com is labeled Email Support; customercare@nandhana.in appears in the same page footer.

checked: 04 OCT 2026

Neither address is identified as a marketing buyer or campaign owner.
NEXT CHECK · Ask for the appropriate marketing or digital contact before discussing account-specific changes.

Bengaluru relevance	Explicit local creative or first-party context; not audience targeting.
Public CTA visibility	A visible public next step or destination; not a conversion.
First-party coverage	Breadth of official product, store, contact or corporate evidence reviewed.
Contact-route relevance	How suitable the published route is for a referral request; no buyer identity is inferred.

ACCOUNT-SIDE VALIDATION CHECKLIST

Outcome definition	Name the event or business outcome, its counting rule and any deduplication rule before comparing systems.
Time window	Use the same date range, timezone and attribution window across any records being reconciled.
Path mapping	Trace the selected Library ID through the visible click route to the brand's own booking, enquiry or order record where applicable.
Reconciliation	Keep platform, analytics and CRM/order data side by side until event definitions and windows are comparable; do not add incompatible totals.

05 NEXT STEPS

Suggested effort labels are planning aids only. First re-open the dated public sources; then use internal account/CRM/order records only if the company chooses to share them.

LOW EFFORT	Route the question Use customerservices@nandhanahotels.com as a routing contact only; ask for the paid-media measurement owner. The published source does not identify this inbox as a buyer.
UNDER AN HOUR	Re-open the selected card Recheck Library ID(s) 4610923952560301; the selected records showed start date(s) 2026-09-30. Confirm today's status, page identity, copy, CTA and any currently exposed destination before reusing the observation.
UNDER AN HOUR	Complete the finding-specific public check If orders or store visits are an objective, compare Instagram click activity with the relevant booking/order records inside the business systems. Route the audit to the team that owns digital campaigns or local-store acquisition.

HALF A DAY

Reconcile only with authorized private records
Ask for the appropriate marketing or digital contact before discussing account-specific changes. If access is authorized, align the event definition, date window, timezone, Library ID and the corresponding booking/order or CRM record. Do not infer an outcome from the public ad card.

OUTREACH CHECK BEFORE SENDING

DATE	Re-open each cited Library ID and update the status/date if the public card has changed.
CLAIM	Use only the cited copy or first-party terms; do not infer audience geography, tracking events or private outcomes.
ROUTE	Use the published first-party email as a routing contact and ask for the right owner if needed.

BEFORE CONCLUDING · Recheck active status and dated copy; do not infer audience targeting from a city name, URL tag or keyword result; treat unmeasured private outcomes as unavailable; treat a published inbox as a route, not proof of the media owner.
