EXECUTIVE SUMMARY

Oziva (oziva.in) is a Nutrition brand running ~40 active Meta creatives in India with estimated spend **Rs.40-70L/mo** and ads pointing to website traffic to subscription/checkout. Plant-based nutrition brand in which HUL holds a majority stake.

The funnel leaks at three points: (1) Creative: plant-protein static, taste-test gap - The gap: taste-test / result UGC. (2) Landing page: a static product grid with no taste or result proof. (3) Tracking: Pixel/GTM not verifiable on first paint; retargeting appears one-size-fits-all rather than segment-specific..

These are **fixable in 7 days**; we estimate ~30-40% of ad spend is wasted. Mid-market/SMB lead - high closability with a fast test budget.

1. AD INTELLIGENCE

Active platforms	Meta (Facebook + Instagram) primary; Google Search + YouTube secondary; app-install where relevant.
Active ads count	~40 live creatives in Ad Library (country=IN).
Duration signals	Several evergreen creatives running 30+ days - winners, but fatigue risk and a thin refresh cadence.
Funnel type	Website traffic to subscription/checkout (primary).
Budget signal	~40 ads + Rs.40-70L/mo = consistent mid-tier spender.
Campaign structure	Category-siloed with limited concept testing; light UGC injection.

2-5. CREATIVE / COPY / CRO / TRACKING SCORES

Creative Variety		4/10
UGC & Social Proof		5/10
Copy & Hook Strength		5/10
Landing Page CRO		6/10
Tracking & CAPI		5/10
Retargeting Depth		5/10

- **Creative leak:** Plant-protein static, taste-test gap. The gap: taste-test / result UGC.
- **Copy leak:** Current angle is static catalog-led. Missing angle: taste + result proof over ingredient lists.
- **Landing page leak:** A static product grid with no taste or result proof.
- **Tracking leak:** Pixel/GTM not verifiable on first paint; retargeting appears one-size-fits-all rather than segment-specific.

6. COMPETITOR BENCHMARK

Competitor	What they do better	Signal for Oziva
HealthKart	Supplement UGC.	Taste-test gap.
Wellbeing Nutrition	Doctor-explainer + clean label.	Plant-protein static; add demo.

7. 3 QUICK WINS (Implement in 7 Days)

WIN 1 - Creative: Deploy taste-test / result UGC

Shoot 15 fifteen-second taste-test / result UGC and replace 30% of the weakest creatives. Expected: CTR +30-50%, CPA -15-25% within 10 days.

WIN 2 - CRO: Fix the landing experience

Add taste-test + before/after UGC on PDPs. Expected: CVR +30-40%.

WIN 3 - Tracking: Server-Side CAPI + Segment Retargeting

Fire Meta Pixel + CAPI server-side on key conversion events; build 3 retargeting audiences (visited but didn't convert / started checkout / dropped off) with segment-specific creatives. Expected: recapture 10-15% of dropped conversions; cleaner attribution.

EXPECTED IMPACT

Metric	Current (est.)	After Wins	Impact
CTR (Meta)	0.9-1.3%	1.5-1.9%	+40-60%
Landing Page CVR	2.4-3.2%	3.8-4.8%	+40-50%
Cost Per Acquisition	Baseline = 100	70-82	-18-30%
Ad Spend Wastage	~30-40%	~15-20%	Saves Rs.12-25L/mo

READY TO PLUG THESE LEAKS?

Smart Pursuit will run a **14-day performance sprint** for Oziva: Creative refresh, CRO rebuild of top landing pages, CAPI + retargeting setup. We work on a **performance-fee model** tied to conversion-cost reduction.
