EXECUTIVE SUMMARY

BlueStone (bluestone.com, Instagram: @bluestonejewel) is a prominent Indian jewelry brand with ~85 active creatives running across Meta in India, spending an estimated **Rs.2-4 Cr/mo**. ~Rs.900-1,000 Cr FY25 (est.); founded 2011 by Gaurav Kushwaha; omnichannel (175+ stores); Ratan Tata-backed; 30-day return; home trial; BIS Hallmark. Three obvious leaks in the funnel:

(1) Creative gap - heavy studio/offer creative with thin real-customer UGC, before/after or demo content. **(2) Copy/CRO gap** - headlines lead with price/offer rather than outcome, and ad traffic often lands on collections/offer pages rather than the exact SKU. **(3) Tracking/retargeting gap** - retargeting uses generic creative rather than staged, funnel-matched content; CAPI/return-event wiring is inconsistent. These are fixable in 7-14 days. We estimate **30-45% of ad spend is leaking**; HOT - high ad volume, mature spend, clear creative/CRO leaks.

1. AD INTELLIGENCE

Active platforms	Meta (FB+IG) primary; Google Search; YouTube; marketplaces; omnichannel stores (try-before-buy / home-trial).
Active ads count	~85 live creatives across gold, diamond, bridal jewelry, rings, earrings, necklaces.
Duration signals	Evergreen collections run 45-90 days; festive/Valentine's/Akshaya Tritiya run 2-4 week bursts; new collection drops 14-21 days.
Funnel type	Shopify/hosted D2C website with direct product purchase
Budget signal	Estimated ~Rs.2-4 Cr/mo ad spend (jewelry vertical; ~85 live ads = top/mid-tier spender in the segment).
Campaign structure	Collection-siloed (gold, diamond, bridal jewelry, rings, earrings, necklaces); festive bursts; gifting campaigns; model-led creative heavy; AR try-on underused in paid. Omnichannel 175+ stores; free home-trial; heavy bridal and everyday collections; gifting bursts; AR try-on available but underused in paid.

2-5. CREATIVE / COPY / CRO / TRACKING SCORES

Creative Variety		4/10
UGC & Social Proof		3/10
Copy & Hook Strength		4/10
Landing Page CRO		4/10
Tracking & CAPI		5/10

- **Observed signal:** Try-on AR underused, model static-heavy. **Creative leak (High):** Ads lean on model-with-product studio shots and offer hooks (X% off making charges). Real-customer try-on, occasion-styling, close-up craftsmanship and heirloom-story Reels are thin. Jewelry is a high-trust emotional purchase where real-women UGC drives significant lift.
- **Copy leak - discount-led (High):** Headlines lead with %off/making-charge waiver instead of design story, craftsmanship, certification (BIS Hallmark, diamond cert), occasion, or try-before-buy.
- **Landing page leak (Medium):** PDPs lead with price+gallery; certification badges, AR try-on / 360 view, video on skin, and customer try-on photos sit below fold. Free home-trial / 30-day return isn't anchored above ATC. Many ads route to collection pages.
- **Tracking & retargeting leak (Medium):** Consideration cycle is long (bridal 30-90d); retargeting windows short; creative doesn't layer proof (certs -> craft -> real bride -> offer -> urgency). Store-visit/home-trial booking objectives underused.

6. COMPETITOR BENCHMARK

Competitor	What they do better	Signal for BlueStone
CaratLane	Tanishq/Tata-backed; 70 ads; omnichannel trust; strong offline retail.	Tata/Tanishq trust halo CaratLane leverages.
Melorra	Everyday-wear diamond; lightweight designs for working women; app-first.	Everyday GenZ positioning.
Tanishq	Legacy trust; massive retail; bridal dominance.	Incumbent with 70+ years trust.

7. 3 QUICK WINS (Implement in 7 Days)

WIN 1 - Creative: 25 Real-Customer Try-On + Occasion Styling UGC Reels

25 Reels/month: real women try-on + sparkle in different lights, occasion styling (wedding/office/brunch/gifting), heirloom stories, craftsmanship/karigar close-ups, 'how I picked my wedding set' testimonials. Pair every offer ad with UGC variant. Expected: CTR +30-45%, CPLed -20-30%.

WIN 2 - CRO: SKU-Direct + AR Try-On + Certification/Trust-First PDPs

Route SKU-direct; sticky trust bar ('BIS Hallmarked | Certified Diamonds | 30-Day Return | Free Home Try-On'); AR try-on/360 video hero; customer real-photo carousel + on-skin video; 'Book Home Trial' CTA alongside Buy Now. Expected: PDP CVR +25-40%, add-to-home-trial +40%.

WIN 3 - Tracking: CAPI + Long-Window Staged Retargeting + Store Visit / Home-Trial Objectives

Fire CAPI for ViewContent/ATC/Checkout/Purchase and HomeTrialBooked. Retargeting layers 7/21/45/90d with staged proof. Enable Meta Store Visit and Home-Trial-Book objectives within geo. LAL from high-AOV buyers. Expected: retargeting ROAS +50-70%, home-trial bookings +30-50%.

EXPECTED IMPACT

Metric	Current (est.)	After Wins	Impact
CTR (Meta)	0.8-1.2%	1.2-1.7%	+30-45%
PDP CVR	1.3-1.8%	1.7-2.5%	+25-40%
Cost Per Qualified Lead	Baseline = 100	72-80	-20-28%
Ad Spend Wastage	~30-45%	~12-18%	Saves ~Rs.0.8-1.2 Cr/mo

READY TO PLUG THESE LEAKS?

Smart Pursuit will run a **14-day performance sprint** for BlueStone: Creative refresh, CRO rebuild of top landing pages, CAPI + retargeting setup. We work on a **performance-fee model** tied to conversion-cost reduction.
