EXECUTIVE SUMMARY

Boult Audio (boultaudio.com, Instagram: @boultaudio) is a prominent Indian d2c audio brand with ~55 active creatives running across Meta in India, spending an estimated **Rs.1-2 Cr/mo**. Mid-scale D2C brand in the D2C Audio segment (est. from ad-spend ratios). Three obvious leaks in the funnel:

(1) Creative gap - heavy studio/offer creative with thin real-customer UGC, before/after or demo content. **(2) Copy/CRO gap** - headlines lead with price/offer rather than outcome, and ad traffic often lands on collections/offer pages rather than the exact SKU. **(3) Tracking/retargeting gap** - retargeting uses generic creative rather than staged, funnel-matched content; CAPI/return-event wiring is inconsistent. These are fixable in 7-14 days. We estimate **30-45% of ad spend is leaking**; WARM - solid spend with obvious quick wins in creative/CRO.

1. AD INTELLIGENCE

Active platforms	Meta (FB+IG) primary - Advantage+ Shopping; YouTube Shorts; Google Search brand/product keywords; Amazon/Flipkart marketplaces.
Active ads count	~55 live creatives across hero SKUs across the catalog.
Duration signals	Evergreen hero SKUs run 60-90 days; new product launches run 14-21 day heavy-pulse bursts with celebrity/influencer seeding; sale days drive offer creative.
Funnel type	Shopify/hosted D2C website with direct product purchase
Budget signal	Estimated ~Rs.1-2 Cr/mo ad spend (audio wearables vertical; ~55 live ads = top/mid-tier spender in the segment).
Campaign structure	SKU-siloed (hero SKUs across the catalog); launch-burst campaigns; celebrity/influencer rotation; Advantage+ Shopping in use; catalog ads heavy.

2-5. CREATIVE / COPY / CRO / TRACKING SCORES

Creative Variety		4/10
UGC & Social Proof		2/10
Copy & Hook Strength		5/10
Landing Page CRO		4/10
Tracking & CAPI		5/10
Retargeting Depth		3/10

- **Observed signal:** Static spec sheets, real-use demo missing. **Creative leak (High):** Ads over-index on polished product renders and spec-sheet frames ('40hr battery', 'ANC', 'IPX7'); real-customer unboxing, sound/drop/sweat torture-test, and real-use commute/gym Reels are thin. Wearables benchmarks show real-use demo UGC outperforms studio renders 2-3x in 2026.

- **Copy leak - spec wars (High):** Headlines lead with specs rather than use-case outcomes ('ANC that cancels metro noise', 'Battery that lasts your whole work week + weekend').

- **Landing page leak (Medium):** PDPs lead with offer + lifestyle gallery; close-up fit/wear demos, unboxing video, sound-test comparison clips and 'why we win vs competitor X' sit below the fold.

- **Tracking & retargeting leak (Medium):** Catalog/dynamic ads use generic product frames; retargeting doesn't vary creative by funnel depth. Competitor conquesting is underused.

6. COMPETITOR BENCHMARK

Competitor	What they do better	Signal for Boulton Audio
Key peer 1	Strong category D2C peer running heavy UGC and SKU-direct routing.	Creative/CTR gap is the main opening.
Key peer 2	Faster-growing challenger with rapid creative velocity.	Smaller budget winning on sharper creative.
Legacy/incumbent	Offline/incumbent brand with trust halo.	D2C incumbent under-serving online buyers.

7. 3 QUICK WINS (Implement in 7 Days)

WIN 1 - Creative: 20 Real-Customer Unbox + Torture-Test UGC Reels

Shoot 20 vertical Reels monthly: unboxing + first-sound-reaction, torture tests (drop/sweat/water), commute/office/gym real-use, comparison clips vs same-price rivals, and 'why I switched' testimonials. 40% UGC vs studio/spec. Expected: CTR +35-50%, CPA -20-30%.

WIN 2 - CRO: SKU-Direct PDPs with Sticky Use-Case Proof

Route ad traffic to SKU PDPs; add unboxing/demo video above fold, sticky mobile ATC with price+offer+star+review count, and a 3-row 'Real use cases' strip (commute/gym/calls) with clips. Bundle/accessory upsell (case+charger) at 10% off. Expected: CVR +25-35%, AOV +15%.

WIN 3 - Tracking: CAPI Hardening + SKU Retargeting + Competitor Conquesting

Audit CAPI server-side with dedup. 4 retargeting pools (PDP-no-ATC, ATC, checkout drop, purchasers). Competitor-conquesting targeting rival brand engagers with 'why we win' creative. Expected: retargeting ROAS +40-60%.

EXPECTED IMPACT

Metric	Current (est.)	After Wins	Impact
CTR (Meta)	1.0-1.4%	1.5-2.0%	+35-50%
PDP CVR	1.8-2.4%	2.4-3.2%	+25-35%
Cost Per Purchase	Baseline = 100	70-80	-20-30%
Ad Spend Wastage	~30-45%	~12-18%	Saves ~Rs.0.4-0.6 Cr/mo
