EXECUTIVE SUMMARY

CaratLane (caratlane.com, Instagram: @caratlane) is a prominent Indian jewelry brand with ~70 active creatives running across Meta in India, spending an estimated **Rs.1-2 Cr/mo.** ~Rs.2,500-3,000 Cr FY25 (est.); Tata/Tanishq subsidiary; 200+ stores; omnichannel; everyday-wear diamond. Three obvious leaks in the funnel:

(1) Creative gap - heavy studio/offer creative with thin real-customer UGC, before/after or demo content. **(2) Copy/CRO gap** - headlines lead with price/offer rather than outcome, and ad traffic often lands on collections/offer pages rather than the exact SKU. **(3) Tracking/retargeting gap** - retargeting uses generic creative rather than staged, funnel-matched content; CAPI/return-event wiring is inconsistent. These are fixable in 7-14 days. We estimate **30-45% of ad spend is leaking**; HOT - high ad volume, mature spend, clear creative/CRO leaks.

1. AD INTELLIGENCE

Active platforms	Meta (FB+IG) primary; Google Search; YouTube; marketplaces; omnichannel stores (try-before-buy / home-trial).
Active ads count	~70 live creatives across diamond jewellery, rings, earrings, solitaire, Tanishq.
Duration signals	Evergreen collections run 45-90 days; festive/Valentine's/Akshaya Tritiya run 2-4 week bursts; new collection drops 14-21 days.
Funnel type	Shopify/hosted D2C website with direct product purchase
Budget signal	Estimated ~Rs.1-2 Cr/mo ad spend (jewelry vertical; ~70 live ads = top/mid-tier spender in the segment).
Campaign structure	Collection-siloed (diamond jewellery, rings, earrings, solitaire, Tanishq); festive bursts; gifting campaigns; model-led creative heavy; AR try-on underused in paid. Tata/Tanishq subsidiary; omnichannel 200+ stores; everyday-wear lightweight diamond; try-at-home; trust + affordability.

2-5. CREATIVE / COPY / CRO / TRACKING SCORES

Creative Variety		4/10
UGC & Social Proof		3/10
Copy & Hook Strength		4/10
Landing Page CRO		4/10
Tracking & CAPI		5/10
Retargeting Depth		3/10

- **Observed signal:** Catalog-heavy, customer story UGC low. **Creative leak (High):** Ads lean on model-with-product studio shots and offer hooks (X% off making charges). Real-customer try-on, occasion-styling, close-up craftsmanship and heirloom-story Reels are thin. Jewelry is a high-trust emotional purchase where real-women UGC drives significant lift.

- **Copy leak - discount-led (High):** Headlines lead with %off/making-charge waiver instead of design story, craftsmanship, certification (BIS Hallmark, diamond cert), occasion, or try-before-buy.
- **Landing page leak (Medium):** PDPs lead with price+gallery; certification badges, AR try-on / 360 view, video on skin, and customer try-on photos sit below fold. Free home-trial / 30-day return isn't anchored above ATC. Many ads route to collection pages.
- **Tracking & retargeting leak (Medium):** Consideration cycle is long (bridal 30-90d); retargeting windows short; creative doesn't layer proof (certs -> craft -> real bride -> offer -> urgency). Store-visit/home-trial booking objectives underused.

6. COMPETITOR BENCHMARK

Competitor	What they do better	Signal for CaratLane
BlueStone	Omnichannel online-first; 85 ads; 175 stores; home-trial.	Online-first rival with similar omnichannel play.
Tanishq	Tata parent; massive offline bridal; legacy trust.	Sister brand with stronger bridal pull.
Melorra	Everyday-wear diamond; app-first; GenZ working-women.	Everyday GenZ digital rival.

7. 3 QUICK WINS (Implement in 7 Days)

WIN 1 - Creative: 25 Real-Customer Try-On + Occasion Styling UGC Reels

25 Reels/month: real women try-on + sparkle in different lights, occasion styling (wedding/office/brunch/gifting), heirloom stories, craftsmanship/karigar close-ups, 'how I picked my wedding set' testimonials. Pair every offer ad with UGC variant. Expected: CTR +30-45%, CPLLead -20-30%.

WIN 2 - CRO: SKU-Direct + AR Try-On + Certification/Trust-First PDPs

Route SKU-direct; sticky trust bar ('BIS Hallmarked | Certified Diamonds | 30-Day Return | Free Home Try-On'); AR try-on/360 video hero; customer real-photo carousel + on-skin video; 'Book Home Trial' CTA alongside Buy Now. Expected: PDP CVR +25-40%, add-to-home-trial +40%.

WIN 3 - Tracking: CAPI + Long-Window Staged Retargeting + Store Visit / Home-Trial Objectives

Fire CAPI for ViewContent/ATC/Checkout/Purchase and HomeTrialBooked. Retargeting layers 7/21/45/90d with staged proof. Enable Meta Store Visit and Home-Trial-Book objectives within geo. LAL from high-AOV buyers. Expected: retargeting ROAS +50-70%, home-trial bookings +30-50%.

EXPECTED IMPACT

Metric	Current (est.)	After Wins	Impact
CTR (Meta)	0.8-1.2%	1.2-1.7%	+30-45%
PDP CVR	1.3-1.8%	1.7-2.5%	+25-40%
Cost Per Qualified Lead	Baseline = 100	72-80	-20-28%
Ad Spend Wastage	~30-45%	~12-18%	Saves ~Rs.0.4-0.6 Cr/mo
