EXECUTIVE SUMMARY

Cult.fit (cult.fit, Instagram: @cultfit) is a prominent Indian fitness coach brand with **~80 active creatives** running across Meta in India, spending an estimated **Rs.1-2 Cr/mo**. ~Rs.550 Cr FY26 (est.); founded 2016 by Mukesh Bansal (Myntra); omnichannel fitness (300+ centers); Cure.fit + Eat.fit ecosystem. Three obvious leaks in the funnel:

(1) Creative gap - heavy studio/offer creative with thin real-customer UGC, before/after or demo content. **(2) Copy/CRO gap** - headlines lead with price/offer rather than outcome, and ad traffic often lands on collections/offer pages rather than the exact SKU. **(3) Tracking/retargeting gap** - retargeting uses generic creative rather than staged, funnel-matched content; CAPI/return-event wiring is inconsistent. These are fixable in 7-14 days. We estimate **30-45% of ad spend is leaking**; HOT - high ad volume, mature spend, clear creative/CRO leaks.

1. AD INTELLIGENCE

Active platforms	Meta (FB+IG) primary; YouTube; Google Search program/brand keywords; LinkedIn for B2B/executive; lead form and brochure/counselor-call CTAs.
Active ads count	~80 live creatives across gym, group fitness, strength, yoga, HRX, workout classes.
Duration signals	Evergreen programs run 60-90 days; new cohorts/batches run 14-21 day bursts; sale/scholarship periods drive offer creative.
Funnel type	Shopify/hosted D2C website with direct product purchase
Budget signal	Estimated ~Rs.1-2 Cr/mo ad spend (edtech vertical; ~80 live ads = top/mid-tier spender in the segment).
Campaign structure	Program-siloed campaigns; brochure/lead-magnet; scholarship/admission bursts; faculty/KOL rotation; lead-form primary. Subscription fitness 300+ centers; group-class focus (Strength, HRX, Yoga, Boxing); app-based workouts; healthcare + food ecosystem.

2-5. CREATIVE / COPY / CRO / TRACKING SCORES

Creative Variety		4/10
UGC & Social Proof		2/10
Copy & Hook Strength		4/10
Landing Page CRO		3/10
Tracking & CAPI		5/10
Retargeting Depth		3/10

- **Observed signal:** Trainer-led static, member-transformation UGC missing. **Creative leak (High):** Creative leans on faculty/brand hero shots, brochures, and 'Admissions Open' announcements. Student-outcome UGC (salary hike, promotion, placement stories, day-in-the-life after course)

is thin; outcome UGC drives 2-3x higher lead-to-call conversion vs brochure/brand ads.

- **Lead-form quality leak (High):** Primary CTA is often a brochure download or multi-field form behind a lead magnet. Industry-wide, brochure-gated leads produce 18-28% counselor-call show-rate vs 40-55% for qualified outcome-led funnels. Forms rarely use Meta 'Higher Intent' type.
- **Landing page leak (Medium):** Landing pages are generic per program category; placement stats, hiring partners, graduate testimonials and EMI calculator sit below the fold; primary CTA is 'Download Brochure' instead of calendar-book.
- **Tracking & retargeting leak (Medium):** CAPI fires on form-submit rather than qualified-lead (counselor-call complete) or enrollment events. Retargeting pools are brochure-openers with generic creative instead of layered proof (salary jump, hiring partners, EMI, Q&A, urgency).

6. COMPETITOR BENCHMARK

Competitor	What they do better	Signal for Cult.fit
Anytime Fitness / Gold's Gym	Global franchises; strong PT/offline.	Traditional offline rivals.
Fittr	Online-only coaching; strong transformation UGC; community-led.	Online UGC specialist with sharper before/after.
HealthifyMe	App-first AI coaching; higher app-store presence.	App/AI weight-loss rival.

7. 3 QUICK WINS (Implement in 7 Days)

WIN 1 - Creative: 25-30 Alumni-Outcome UGC Reels

Shoot 25-30 vertical Reels monthly featuring real alumni: salary-hike story (before/after CTC), promotion/career-switch, hiring-manager/mentor cred, student day-in-the-life, live-project snippets. Number-hook in first 3s. Replace 40% of brochure/faculty creative. Expected: CTR +35-55%, CPL -25-35%, lead-to-call +40-70%.

WIN 2 - CRO: Higher-Intent Lead Forms + Program-Specific LPs with Placement Proof

Switch to Higher Intent form type with review step; 1-2 qualifying questions (work experience, target intake); 3 pre-filled fields. Program-specific LPs with sticky CTA, placement stat above fold (avg. CTC hike, hiring partners, placements), 3 alumni videos, EMI calc, calendar-book CTA. Expected: lead-to-call +40-60%, qualified CVR +30-50%.

WIN 3 - Tracking: CAPI Wired to Qualified-Lead + Enrollment + Layered Retargeting

Fire CAPI for QualifiedLead (call completed) and Enrollment (fee paid), with CRM loopback. 4 retargeting layers: page-view->outcome+hiring, form-fill-no-call->EMI/objections, call-no-enroll->Q&A;+urgency, alumni->referral. 24h incomplete-form WA/email reminder. Expected: recapture 15-25%, CAC -20% within 30 days.

EXPECTED IMPACT

Metric	Current (est.)	After Wins	Impact
CPL (qualified lead)	Baseline = 100	65-75	-25-35%
Lead-to-call show-rate	18-28%	40-55%	+40-60%
Lead-to-enrollment	Baseline = 100	120-135	+20-35%
Ad Spend Wastage	~30-45%	~12-18%	Saves ~Rs.0.4-0.6 Cr/mo
