EXECUTIVE SUMMARY

DaMENSCH (damensch.com, Instagram: @damensch) is a prominent Indian d2c fashion brand with ~45 active creatives running across Meta in India, spending an estimated **Rs.50-80L/mo**. Mid-scale D2C brand in the D2C Fashion segment (est. from ad-spend ratios). Three obvious leaks in the funnel:

(1) Creative gap - heavy studio/offer creative with thin real-customer UGC, before/after or demo content. **(2) Copy/CRO gap** - headlines lead with price/offer rather than outcome, and ad traffic often lands on collections/offer pages rather than the exact SKU. **(3) Tracking/retargeting gap** - retargeting uses generic creative rather than staged, funnel-matched content; CAPI/return-event wiring is inconsistent. These are fixable in 7-14 days. We estimate **30-45% of ad spend is leaking**; HOT - smaller budget with high-ROI quick fixes.

1. AD INTELLIGENCE

Active platforms	Meta (FB+IG) primary with heavy Reels; Google Shopping; Myntra/Ajio/Flipkart; own Shopify/custom D2C.
Active ads count	~45 live creatives across hero SKUs across the catalog.
Duration signals	Evergreen hero categories run 30-60 days; merch/drop culture runs 7-14 day launch bursts; seasonal collections rotate creative monthly.
Funnel type	Shopify/hosted D2C website with direct product purchase
Budget signal	Estimated ~Rs.50-80L/mo ad spend (fashion vertical; ~45 live ads = emerging spender in the segment).
Campaign structure	Category-siloed (hero SKUs across the catalog); drop/launch campaigns; influencer seeding; Advantage+ Shopping in use but creative refresh is studio-heavy.

2-5. CREATIVE / COPY / CRO / TRACKING SCORES

Creative Variety		4/10
UGC & Social Proof		2/10
Copy & Hook Strength		4/10
Landing Page CRO		4/10
Tracking & CAPI		5/10
Retargeting Depth		3/10

- **Observed signal:** Innerwear lacks fit-test videos. **Creative leak (High):** Ad mix is heavy on flat product-on-model studio shots and offer hooks ('up to X% off', 'from Rs.Y'). Real-customer try-on, day-in-the-life outfit, fit-test and 'how I styled it' UGC is thin. Try-on + 'real body' Reels consistently outperform studio creative 1.6-2x on Meta.

- **Copy leak - generic (High):** Headlines lead with price/drop rather than outfit outcomes, fabric-story or occasion ('Brunch look in 2 minutes', 'Stain-proof shirt for work'). Drop-chasers have lower LTV than outfit/category lovers.

- **Landing page leak (Medium):** PDPs lead with product-on-model hero; fabric close-up video, fit guide on the product page, size-chart inline on ATC, and 'customers also wore' outfit-builder sit below the fold. Size-related returns are the #1 P&L; leak in fashion, worsened when fit info isn't above ATC.

- **Tracking & retargeting leak (Medium):** Retargeting uses generic collection ads; browse-abandonment pools aren't segmented by category viewed so retargeting creative is mismatched. Return/refund events are rarely sent via CAPI to suppress high-return audiences.

6. COMPETITOR BENCHMARK

Competitor	What they do better	Signal for DaMENSCH
Key peer 1	Strong category D2C peer running heavy UGC and SKU-direct routing.	Creative/CTR gap is the main opening.
Key peer 2	Faster-growing challenger with rapid creative velocity.	Smaller budget winning on sharper creative.
Legacy/incumbent	Offline/incumbent brand with trust halo.	D2C incumbent under-serving online buyers.

7. 3 QUICK WINS (Implement in 7 Days)

WIN 1 - Creative: 25 Real-Customer Try-On + Styling UGC Reels

Shoot 25 vertical Reels monthly: real-body try-on in 3 sizes, day-in-the-life styling (office, brunch, date, college), fabric close-up demos ('stretches 2x', 'breathable in 40C'), wash/wear durability tests, and creator 'how I styled it' OOTDs. Micro-creators (10K-100K) over macro. Expected: CTR +35-50%, CPAddToCart -20-30%.

WIN 2 - CRO: Fit-Info-First PDPs + Size Inline on ATC + Outfit Builder

On top SKUs add fit-model stats (height, size worn) and fabric stretch/wash video above the fold; inline size-chart + 'fits TTS/large/small' customer votes inside ATC; sticky mobile ATC with size + review count + 'X bought today'; 'Complete the look' outfit builder with tiered discount (15% off 1, 20% off 2, 25% off 3). Expected: PDP CVR +25-35%, return rate -10-15%, AOV +15-20%.

WIN 3 - Tracking: CAPI with Return-Event Suppression + Category-Staged Retargeting

Upgrade CAPI server-side for ViewContent/ATC/InitiateCheckout/Purchase AND Refund/Return events to suppress high-return cohorts. Build 5 retargeting pools by category viewed with matched creative; VIP 3+ order early-access + referral. Expected: retargeting ROAS +50-70%, repeat +15-20%.

EXPECTED IMPACT

Metric	Current (est.)	After Wins	Impact
CTR (Meta)	0.9-1.3%	1.4-2.0%	+35-50%
PDP CVR	2.0-2.8%	2.6-3.6%	+25-35%
Return Rate	Baseline = 100	85-90	-10-15% (fit info)
Cost Per Purchase	Baseline = 100	68-80	-20-32%
Ad Spend Wastage	~30-40%	~12-18%	Saves ~Rs.16-26 L/mo

READY TO PLUG THESE LEAKS?

Smart Pursuit will run a **14-day performance sprint** for DaMENSCH: Creative refresh, CRO rebuild of top landing pages, CAPI + retargeting setup. We work on a **performance-fee model** tied to conversion-cost reduction.
