EXECUTIVE SUMMARY

Prestige Group (prestigegroup.com, Instagram: @prestigegroup) is a prominent Indian real estate brand with ~48 active creatives running across Meta in India, spending an estimated **Rs.30-60L/mo**. Mid-scale D2C brand in the Real Estate segment (est. from ad-spend ratios). Three obvious leaks in the funnel:

(1) Creative gap - heavy studio/offer creative with thin real-customer UGC, before/after or demo content. **(2) Copy/CRO gap** - headlines lead with price/offer rather than outcome, and ad traffic often lands on collections/offer pages rather than the exact SKU. **(3) Tracking/retargeting gap** - retargeting uses generic creative rather than staged, funnel-matched content; CAPI/return-event wiring is inconsistent. These are fixable in 7-14 days. We estimate **30-45% of ad spend is leaking**; HOT - smaller budget with high-ROI quick fixes.

1. AD INTELLIGENCE

Active platforms	Meta (FB+IG) primary with lead forms; Google Search; YouTube property tours; LinkedIn for premium.
Active ads count	~48 live creatives across hero SKUs across the catalog.
Duration signals	Project launches run 4-8 week bursts; ongoing inventory campaigns steady; festival/year-end offers 2-3 weeks.
Funnel type	Lead forms + WhatsApp / callback booking primary
Budget signal	Estimated ~Rs.30-60L/mo ad spend (real estate vertical; ~48 live ads = emerging spender in the segment).
Campaign structure	Project-siloed; launch bursts heavy on brochure/renderers; lead-form primary; CRM follow-up inconsistent.

2-5. CREATIVE / COPY / CRO / TRACKING SCORES

Creative Variety		4/10
UGC & Social Proof		2/10
Copy & Hook Strength		4/10
Landing Page CRO		3/10
Tracking & CAPI		4/10
Retargeting Depth		2/10

- **Observed signal:** Project launches heavy static, site-tour Reels thin. **Creative leak (High):** Ads are brochure/render-heavy - project hero shots, floor plans, discount headlines. Real resident/owner stories, drone site-progress, sample-flat walkthroughs (not polished renders), and neighborhood-lifestyle Reels are thin. Real-estate UGC typically drives 2x higher lead quality.

- **Lead form leak (High):** Forms ask name+phone+email with no qualifying questions (budget, possession timing, BHK). Sales teams chase tire-kickers; brochure downloads treated as leads. Site-visit-booking as CTA underused vs 'Download Brochure'.

- **Tracking leak (Medium):** CAPI rarely wired to site-visit-attended or booking; algorithm optimizes to brochure-download volume, not serious buyers. No CRM feedback loop on closed-won.

- **Retargeting leak (Medium):** Consideration 60-180 days; retargeting windows short, creative same as cold. Layered proof (lifestyle -> sample flat -> pricing/EMI -> urgency by tower) missing.

6. COMPETITOR BENCHMARK

Competitor	What they do better	Signal for Prestige Group
------------	---------------------	---------------------------

Key peer 1	Strong category D2C peer running heavy UGC and SKU-direct routing.	Creative/CTR gap is the main opening.
Key peer 2	Faster-growing challenger with rapid creative velocity.	Smaller budget winning on sharper creative.
Legacy/incumbent	Offline/incumbent brand with trust halo.	D2C incumbent under-serving online buyers.

7. 3 QUICK WINS (Implement in 7 Days)

WIN 1 - Creative: 15 Site-Progress + Resident-Story + Sample-Flat Walkthrough Reels

15 Reels/month: drone site-progress updates, raw sample-flat walkthrough (not just renders), neighborhood lifestyle (schools/metro/mall), resident testimonials, RERA/pricing explainer from sales head. Replace 40% brochure/render. Expected: CPL -20% but lead-to-site-visit +50%.

WIN 2 - CRO: Site-Visit-Book CTA + Qualifying Forms + Virtual Tour Landing Page

Primary CTA = 'Book Site Visit' / 'Book Virtual Tour'; 2 qualifiers (BHK preference, possession timeline); auto-WA with Maps link, sales rep name, sample-flat video instantly. Project-specific LPs with real walkthrough hero, pricing/EMI calc, RERA number - not brochure pages. Expected: lead-to-site-visit +40-60%.

WIN 3 - Tracking: CAPI to Site-Visit + Booking + 60/90/180-Day Retargeting

Fire CAPI for Lead/SiteVisitBooked/SiteVisitAttended/Token-Booking. 4 retargeting layers over 60/120/180d: 0-14d walkthrough, 14-45d lifestyle+neighborhood, 45-90d pricing-EMI+offer, 90-180d urgency (tower closing). LAL from actual bookers. Expected: cost-per-booking -30-45%.

EXPECTED IMPACT

Metric	Current (est.)	After Wins	Impact
CPL (qualified)	Baseline = 100	80-90	-10-20%
Lead-to-site-visit	15-25%	25-40%	+40-60%
Cost Per Booking	Baseline = 100	55-70	-30-45%
Ad Spend Wastage	~30-40%	~12-18%	Saves ~Rs.11-18 L/mo

READY TO PLUG THESE LEAKS?

Smart Pursuit will run a **14-day performance sprint** for Prestige Group: Creative refresh, CRO rebuild of top landing pages, CAPI + retargeting setup. We work on a **performance-fee model** tied to conversion-cost reduction.
