EXECUTIVE SUMMARY

The Man Company (themancompany.com, Instagram: @themancocom) is a prominent Indian men's grooming brand with ~52 active creatives running across Meta in India, spending an estimated **Rs.1-2 Cr/mo**. Mid-scale D2C brand in the Men's Grooming segment (est. from ad-spend ratios). Three obvious leaks in the funnel:

(1) Creative gap - heavy studio/offer creative with thin real-customer UGC, before/after or demo content. **(2) Copy/CRO gap** - headlines lead with price/offer rather than outcome, and ad traffic often lands on collections/offer pages rather than the exact SKU. **(3) Tracking/retargeting gap** - retargeting uses generic creative rather than staged, funnel-matched content; CAPI/return-event wiring is inconsistent. These are fixable in 7-14 days. We estimate **30-45% of ad spend is leaking**; HOT - solid spend with obvious quick wins in creative/CRO.

1. AD INTELLIGENCE

Active platforms	Meta (FB+IG) primary; YouTube Shorts; Google Search; marketplaces; D2C website.
Active ads count	~52 live creatives across hero SKUs across the catalog.
Duration signals	Hero SKUs run 45-90 days; new launches (fragrance/skincare) get 2-3 week influencer bursts; sale days drive offer creative.
Funnel type	Shopify/hosted D2C website with direct product purchase
Budget signal	Estimated ~Rs.1-2 Cr/mo ad spend (mens grooming vertical; ~52 live ads = top/mid-tier spender in the segment).
Campaign structure	SKU-siloed (hero SKUs across the catalog); ambassador/influencer burst; promo-sale creative heavy; Advantage+ in use.

2-5. CREATIVE / COPY / CRO / TRACKING SCORES

Creative Variety		4/10
UGC & Social Proof		3/10
Copy & Hook Strength		4/10
Landing Page CRO		4/10
Tracking & CAPI		5/10
Retargeting Depth		3/10

- **Observed signal:** Fragrance SKUs lack video demos. **Creative leak (High):** Ads over-index on hero/product-pack studio shots and brand ambassador frames, with heavy machismo tropes. Real-customer before/after (beard growth, oil control, fragrance longevity), texture/demo, and grooming-ritual UGC is thin.

- **Copy leak - generic (High):** Headlines lean 'X% off' / 'Beard like a boss' rather than specific outcomes ('72hr fragrance', 'beard dandruff gone in 14 days', 'oil control till end of workday').

- **Landing page leak (Medium):** PDPs lead with brand imagery and offer; texture demo video, ingredient callouts, before/after photos and usage-routine sit below the fold.

- **Tracking & retargeting leak (Medium):** Retargeting is generic-brand; concern/SKU-specific retargeting (beard -> oil+wash combo) underused; replenishment reminders at consumption cycle missing.

6. COMPETITOR BENCHMARK

Competitor	What they do better	Signal for The Man Company
Key peer 1	Strong category D2C peer running heavy UGC and SKU-direct routing.	Creative/CTR gap is the main opening.
Key peer 2	Faster-growing challenger with rapid creative velocity.	Smaller budget winning on sharper creative.
Legacy/incumbent	Offline/incumbent brand with trust halo.	D2C incumbent under-serving online buyers.

7. 3 QUICK WINS (Implement in 7 Days)

WIN 1 - Creative: 25 Real-Result UGC Reels

25 Reels/month: 30-day beard-growth/health journeys, fragrance longevity tests (workday/gym/night out), texture/sink-in demos, grooming-routine integration, SO-reaction clips. Replace 40% of studio. Expected: CTR +35-50%, CPA -20-30%.

WIN 2 - CRO: Outcome-first PDPs + Grooming-Routine Bundles

15s texture/use demo above fold; outcome strip ('24hr oil control', '72hr fragrance'); routine combos (oil+wash, face wash+moisturizer+sunscreen) at 15% off; sticky ATC with rating+reviews. Expected: CVR +25-35%, AOV +20%.

WIN 3 - Tracking: CAPI + Concern-Specific Retargeting + Replenishment

Concern/SKU-view retargeting with matched creative; replenishment reminders at 30/60/90 days; cross-sell routine to single-SKU buyers. Expected: retargeting ROAS +50-70%, repeat +20%.

EXPECTED IMPACT

Metric	Current (est.)	After Wins	Impact
CTR (Meta)	0.9-1.3%	1.4-2.0%	+35-50%
PDP CVR	1.8-2.5%	2.4-3.3%	+25-35%
Cost Per Purchase	Baseline = 100	70-80	-20-30%
Ad Spend Wastage	~30-45%	~12-18%	Saves ~Rs.0.4-0.6 Cr/mo
