EXECUTIVE SUMMARY

Wooden Street (woodenstreet.com, Instagram: @woodenstreet) is a prominent Indian home/furniture brand with ~42 active creatives running across Meta in India, spending an estimated **Rs.40-70L/mo**. Mid-scale D2C brand in the Home/Furniture segment (est. from ad-spend ratios). Three obvious leaks in the funnel:

(1) Creative gap - heavy studio/offer creative with thin real-customer UGC, before/after or demo content. **(2) Copy/CRO gap** - headlines lead with price/offer rather than outcome, and ad traffic often lands on collections/offer pages rather than the exact SKU. **(3) Tracking/retargeting gap** - retargeting uses generic creative rather than staged, funnel-matched content; CAPI/return-event wiring is inconsistent. These are fixable in 7-14 days. We estimate **30-45% of ad spend is leaking**; NURTURE - smaller budget with high-ROI quick fixes.

1. AD INTELLIGENCE

Active platforms	Meta (FB+IG) primary; Google Search; YouTube unboxing/assembly; marketplaces; company-owned stores for omnichannel.
Active ads count	~42 live creatives across hero SKUs across the catalog.
Duration signals	Sale-period creative runs in 7-14 day bursts; evergreen hero SKUs run 60-90 days; new launches get 2-3 week windows.
Funnel type	Lead forms + WhatsApp / callback booking primary
Budget signal	Estimated ~Rs.40-70L/mo ad spend (home furniture vertical; ~42 live ads = emerging spender in the segment).
Campaign structure	Category-siloed (hero SKUs across the catalog); sale burst campaigns; product-lifestyle hero shots; omnichannel creative underutilized.

2-5. CREATIVE / COPY / CRO / TRACKING SCORES

Creative Variety		4/10
UGC & Social Proof		3/10
Copy & Hook Strength		4/10
Landing Page CRO		4/10
Tracking & CAPI		5/10
Retargeting Depth		3/10

- **Observed signal:** Lead-form heavy, AR/3D demo missing. **Creative leak (High):** Ads lean on studio product beauty-shots and offer banners ('up to X% off'). Customer unboxing, assembly-day, room-before/after makeover, and durability-test Reels are thin. High-ticket once-in-5-10-years purchases convert best on real-customer proof (1.6-2.2x CVR lift from UGC).

- **Copy leak - offer first (High):** Headlines lead with %off rather than trust signals that close high-ticket purchases (free returns, warranty, trial, free installation, no-cost EMI).

- **Landing page leak (Medium):** PDPs lead with price + gallery; assembly video, 360/AR view, in-room real-customer photos, warranty/trial explainer and delivery/install timelines sit below the fold. Sale traffic often routes to generic collections/aloffers pages.

- **Tracking & retargeting leak (Medium):** Furniture consideration is 14-60 days; retargeting windows are too short (7 days) and creative stays sale/generic instead of layering proof. Omnichannel store visits from Meta ads are underutilized.

6. COMPETITOR BENCHMARK

Competitor	What they do better	Signal for Wooden Street
Key peer 1	Strong category D2C peer running heavy UGC and SKU-direct routing.	Creative/CTR gap is the main opening.
Key peer 2	Faster-growing challenger with rapid creative velocity.	Smaller budget winning on sharper creative.
Legacy/incumbent	Offline/incumbent brand with trust halo.	D2C incumbent under-serving online buyers.

7. 3 QUICK WINS (Implement in 7 Days)

WIN 1 - Creative: 20 Customer Unboxing + Makeover UGC Reels

Shoot 20 vertical Reels monthly: unboxing+assembly vlog, room-makeover before/after, durability tests, family reactions, and 6/12-month owner updates. 30 home-decor micro-creators/month. Expected: CTR +35-50%, CPA -20-30%.

WIN 2 - CRO: SKU-Direct PDPs with Sticky Trust Bar + AR/360 + Nearest-Store Try

Route 80%+ of ad traffic to SKU PDPs; sticky bar 'Free Delivery & Install | Trial/Warranty | No Cost EMI'; 30s unboxing/assembly hero video + 360 view; customer room-photo carousel above ATC; 'try at nearest store' by pincode; AR 'view in room' where available. Expected: PDP CVR +25-40%, bounce -15%.

WIN 3 - Tracking: CAPI + 14/30/60-Day Staged Retargeting + Omnichannel Store Visits

Audit CAPI; 5 retargeting layers (1-7d unboxing+price, 7-21d reviews+warranty, 21-45d offer+chat, cart abandoners install reminder, past buyers cross-sell). Meta Store Visit objective within 25km; LAL from >Rs.30K AOV buyers. Expected: retargeting ROAS +50-80%, store visits +30-50%.

EXPECTED IMPACT

Metric	Current (est.)	After Wins	Impact
CTR (Meta)	0.8-1.2%	1.2-1.8%	+35-50%
PDP CVR	1.4-2.0%	1.9-2.8%	+25-40%
Cost Per Order	Baseline = 100	72-82	-18-28%
Ad Spend Wastage	~30-40%	~12-18%	Saves ~Rs.14-22 L/mo
