Sourdoughs baked

EXECUTIVE SUMMARY

The Baker's Dozen is a rare case in Indian bakery: a brand that scaled sourdough from a Bengaluru kitchen to 300+ cities and 2,000+ retail touchpoints, bakes 1M+ sourdoughs, and still runs paid media properly - 35 live Google creatives under Mimansa Industries Pvt Ltd. The opportunity is that the paid traffic is buying a brand that sells in 300+ cities and on quick-commerce apps, so the destination must answer 'where is my nearest loaf?' in one tap. It currently does not.

1. AD INTELLIGENCE

Google Ads (verified)	35 live creatives; advertiser Mimansa Industries Pvt Ltd.
Distribution reality	300+ cities, 2,000+ touchpoints and quick-commerce channels (Blinkit / Zepto / Instamart class), plus own D2C storefront - meaning a large share of demand is 'buy now, nearest place'.
Brand assets	13+ years of sourdough credibility, 1M+ sourdoughs baked - exceptional trust proof that no competitor can copy quickly.
Contact path on site	fresh@thebakersdozen.in / +91 9082857741; grievance officer Neel Shah (registered entity Mimansa Industries Pvt Ltd, Ellisbridge, Ahmedabad 380006).
Category context	Indian bakery + sourdough is in a premiumisation wave driven by quick-commerce. Shelf 2.0 brands win by owning search for 'sourdough near me' and 'fresh bread delivery' in their cities.

2-5. CREATIVE / COPY / CRO / TRACKING SCORES

Creative Variety		6/10
UGC & Social Proof		5/10
Copy & Hook Strength		6/10
Landing Page CRO		4/10
Tracking & CAPI		5/10
Retargeting Depth		4/10

- **No 'nearest loaf' destination:** the paid click does not land on a store/availability page for the searcher's city. For a brand in 300+ cities, that is the single biggest conversion leak - the buyer's question is 'where do I get it today', and the answer takes too many taps.

- **Quick-commerce traffic is not captured:** shoppers search 'sourdough Blinkit / bread delivery near me'. Unless you own those search results and route them to the right channel with tracking, the aggregator keeps the customer relationship - and the repeat purchase.

- **1M+ sourdoughs is an unused ad asset:** that is a decade of trust compressed into one line. It should be in the ad hook, the landing page hero, and the retargeting creative - it is the strongest proof point in the entire Indian sourdough market.

- **Retargeting and email capture:** no visible retargeting for product viewers or store-locator users; bakery is a weekly-repeat category where a 3-touch flow is cheap and effective.

6. COMPETITOR BENCHMARK

Le 15 Patisserie / premium bakery chains	Cafe experience + strong Instagram brand.	BD has national distribution - own 'delivered fresh' against cafe-only brands.
Quick-commerce labels	private	Cheapest price, fastest delivery, top of app search.
		Own the brand search and the 'sourdough near me' query so buyers ask for you by name.

Local artisanal bakeries per city	Hyperlocal freshness and price.	Win with 'baked in Bengaluru, shipped 300+ cities' proof and consistency.
-----------------------------------	---------------------------------	---

7. 3 QUICK WINS (Implement in 7 Days)

WIN 1 - Availability-first landing

Build a 'Find your loaf' page: enter pin code -> shows nearest store + quick-commerce options + home delivery ETA. Route all paid traffic there with city/pin pre-set from the ad. This is the single highest-leverage change.

WIN 2 - Prove 1M+ sourdoughs everywhere

Turn the 1M+ milestone into the ad hook, landing hero, and retargeting creative (counter, customer reviews, bake-day photos). Add a 20-second 'inside the bake' Reel as the top-of-funnel creative.

WIN 3 - Weekly repeat engine

Bakery is a weekly habit: retarget every product viewer and store-locator user with a 3-touch flow (taste proof -> bundle offer -> subscription), and capture email/WhatsApp at the availability page.

EXPECTED IMPACT

Metric	Current (live)	After Wins (est.)	Impact
Ad-to-availability steps	Multiple taps to check stock	Pin-code availability page	Higher conversion on same traffic
Brand search capture	Partial	Own 'sourdough near me' per city	Cheaper, higher-intent traffic
Repeat purchase	No visible flow	3-touch repeat + subscription	Higher LTV per customer
Proof usage	1M+ sourdoughs under-used	In hook, hero and retargeting	Higher CTR and trust at equal spend

AUDIT BASIS - LIVE DATA CHECKED ON 02 OCT 2026

- Google Ads Transparency (region IN): 35 live creatives; advertiser Mimansa Industries Pvt Ltd.
- thebakersdozen.in + /contact-us: fresh@thebakersdozen.in, +91 9082857741, grievance officer Neel Shah; brand stats 13+ years, 300+ cities, 2,000+ touchpoints, 1M+ sourdoughs; quick-commerce channels live.

READY TO PLUG THESE LEAKS?

Smart Pursuit will run a **14-day performance sprint** for The Baker's Dozen: Creative refresh, CRO rebuild of top landing pages, CAPI + retargeting setup. We work on a **performance-fee model** tied to conversion-cost reduction.
