01 METHOD

Dated public-evidence snapshot checked 04 October 2026. Meta evidence is cited by individual Library ID and advertiser/page ID; the selected cards are not an account-wide count. Public counts and rendered variants can change after capture; recheck before relying on them. Meta search-type parameters can be ignored by the interface, so keyword results are not treated as page or advertiser proof. Bengaluru relevance is based only on explicit creative or first-party material; no audience targeting is inferred.

Contacts and offer details are taken from the brand's own website, help or corporate pages and remain routing contacts unless a buyer role is explicitly published. No private account, booking, order or analytics records were accessed. Spend, ROAS, CPA, conversion outcomes and event firing are marked unavailable or not measured. A public ad card or URL alone does not prove that tracking events fire.

03 FINDINGS

NOTE	01 The live ₹99 creative names four cities, none of them Bengaluru
source_ids: S1 observed: Meta Library ID 2300405184049353; page Wow! Momo (165456736798479); Sponsored and Active on 04 Oct 2026, started 22 Sep; copy names Delhi, Siliguri, Jalpaiguri and Vadodara. checked: 04 OCT 2026	

The active card is a brand-page sponsored record, but its offer copy lists other cities. It is not evidence of Bengaluru targeting or a Bengaluru offer.

NEXT CHECK · Before using the creative as a Bengaluru example, confirm a separate Bengaluru card and inspect that individual card and destination.

NOTE	02 The official locator separately lists Bengaluru outlets and a general contact
source_ids: S2, S3 observed: The official restaurant locator lists Bengaluru entries; the privacy page identifies Wow! Momo Foods Private Limited and publishes info@wowmomo.co.in. checked: 04 OCT 2026	

This supports local service context and a published route only; no ad audience or buyer is inferred.

NEXT CHECK · Re-open the locator for current outlet status and ask the general contact to route measurement questions to the appropriate owner.

NOTE	03 A zero-result Google query is not evidence of no advertising
source_ids: S4 observed: The India-region domain query displayed 0 results for wowmomo.com on 04 Oct 2026. checked: 04 OCT 2026	

Domain-query coverage can be incomplete; no claim of no Google advertising is made.

NEXT CHECK · If revisited, search by verified advertiser and inspect individual creative details rather than relying on a zero-result domain view.

04 OPPORTUNITY SCORE

Dimension	Score	Basis

Bengaluru relevance	4 / 4	Official locator lists Bengaluru outlets, while the selected creative itself names other cities only.
Public CTA visibility	2 / 4	The captured card did not expose a CTA button or destination link.
First-party source coverage	4 / 4	Official privacy/contact and Bengaluru locator pages were checked alongside the direct Meta card and Google domain query.
Contact-route relevance	2 / 4	The published info@ address is a general contact route, not a named media owner.

SCORING KEY

Direct paid signal	A page-resolved active public ad record; not spend or outcome.
Bengaluru relevance	Explicit local creative or first-party context; not audience targeting.
Public CTA visibility	A visible public next step or destination; not a conversion.
First-party coverage	Breadth of official product, store, contact or corporate evidence reviewed.
Contact-route relevance	How suitable the published route is for a referral request; no buyer identity is inferred.

ACCOUNT-SIDE VALIDATION CHECKLIST

Outcome definition	Name the event or business outcome, its counting rule and any deduplication rule before comparing systems.
Time window	Use the same date range, timezone and attribution window across any records being reconciled.
Path mapping	Trace the selected Library ID through the visible click route to the brand's own booking, enquiry or order record where applicable.
Reconciliation	Keep platform, analytics and CRM/order data side by side until event definitions and windows are comparable; do not add incompatible totals.

05 NEXT STEPS

Suggested effort labels are planning aids only. First re-open the dated public sources; then use internal account/CRM/order records only if the company chooses to share them.

LOW EFFORT	Route the question Use info@wowmomo.co.in as a routing contact only; ask for the paid-media measurement owner. The published source does not identify this inbox as a buyer.
UNDER AN HOUR	Re-open the selected card Recheck Library ID(s) 2300405184049353; the selected records showed start date(s) 2026-09-22. Confirm today's status, page identity, copy, CTA and any currently exposed destination before reusing the observation.
UNDER AN HOUR	Complete the finding-specific public check Before using the creative as a Bengaluru example, confirm a separate Bengaluru card and inspect that individual card and destination. Re-open the locator for current outlet status and ask the general contact to route measurement questions to the appropriate owner.

HALF A DAY

Reconcile only with authorized private records

If revisited, search by verified advertiser and inspect individual creative details rather than relying on a zero-result domain view. If access is authorized, align the event definition, date window, timezone, Library ID and the corresponding booking/order or CRM record. Do not infer an outcome from the public ad card.
