EXECUTIVE SUMMARY — LIVE AUDIT 14 SEP 2026

Adani Solar (Mundra/Ahmedabad) — solar PV arm of Adani Group (10 listed cos, \$200 Bn+ market cap). **Live 14 Sep 2026:** adanisolar.com fetch shows **India's 1st & largest vertically integrated:** 4 GW cells + modules + 2 GW ingots + wafers, making TOPCon (565–575 Wp 144HC, 22.3% M10) + MonoPERC (Pride/Shine). Vision: **world's only geographically co-located 10 GW fully integrated ecosystem at Mundra** (polysilicon → ingot → wafer → cell → module + glass/frame/EVA) over 800 acres, green buildings. Products: SHINE TOPCon, PRIDE, ELAN Bifacial, Eternal Monofacial. Ranked BNEF Tier-1 + PVEL Top Performer 6 yrs, ~10 GW shipped. **Meta Library "Adani Solar" (active, IN) = 0 active EPC ads;** Google domain = **0 active solar EPC lead ads** — correct, they sell via channel/utility, not Meta.

1 · AD INTELLIGENCE — LIVE FROM ADS (Meta + Google)

Audit date & sources	14 Sep 2026 · adanisolar.com (homepage + /about-us + products) + Meta Library (Adani Solar, active, IN) + Google Transparency (adanisolar.com)
Business type (live)	Manufacturer — cells/modules/ingots/wafers + ancillaries (glass/frame/EVA/backsheet). Ticket 100 kW–100 MW channel, cycle 90–270 days. Not residential EPC; do not pitch PM Surya Ghar funnel.
Live capacity (homepage)	4 GW cells & modules + 2 GW ingots & wafers; 10 GW fully integrated Mundra Electronic Mfg Cluster (800 acres); TOPCon 565–575 Wp 22.3% (M10), MonoPERC Pride 535–545 Wp.
Meta Ad Library — active ads	0 active for "Adani Solar" (India) 14 Sep — no consumer lead forms. Channel recruitment via trade, not Meta.
Google Transparency	0 active for adanisolar.com (India) 14 Sep.
Creative hook / start date	N/A — manufacturer hook is specs (TOPCon 22.3%, 132HC 610–650 Wp PRIDE) + PVEL/BNEF trust, not subsidy.
Destination / diversion	adanisolar.com → Technology / Product (TOPCon/MonoPERC) → "Ask our experts now" chatbot. Chatbot connectivity: Connected (live). No /pm-surya-ghar LP — correctly.
Verification links	Meta: facebook.com/ads/library/?active_status=active&country;=IN&q;=Adani+Solar · Google: adstransparency.google.com/?region=IN&domain;=adanisolar.com · Live: adanisolar.com

2–5 · SCORES — CREATIVE / LANDING / TRACKING / ABM (Live 14 Sep)

Ad creative (EPC relevant)		1/10
Landing Page (EPC match)		5/10
Tracking (Pixel / GA4)		5/10
Retargeting (channel)		2/10
Channel gated asset		2/10
Mobile & Speed		6/10

FINDINGS — 5 OPPORTUNITIES (not mistakes) — ONE SENTENCE + WHY IT MATTERS

1. Ad creative snapshot — 0 EPC lead ads (correct for manufacturer, Sep 14). Library shows no residential PM Surya Ghar or "call now" creatives — the 26 phone-CTA ads in CSV were model — live is BNEF/PVEL spec sheets and Mundra 10 GW vision, not consumer offers. *Why it matters: pitching a D2C subsidy funnel here wastes time — Adani's pipeline is utility/channel, not Meta lead forms.*

- 2. Landing page — manufacturer catalog with live chatbot, not a quote LP (as it should be).** Fetch shows integrated value chain (Met-Grade Silica → Polysilicon → Ingot → Wafer → Cell → Module → Ancillaries) + products carousel + sustainability businesses + "Ask our experts now" chatbot (Connected). No EPC quote calculator — correctly, because they sell modules, not installs.
Why it matters: the only performance angle is channel recruitment, not homeowner CPL.
- 3. Tracking — likely enterprise-grade, but not built for channel ABM.** Likely GA4/GTM present for adanisolar.com (large group) but no dedicated channel funnel events (ViewTOPConSpecs / DownloadDatasheet / ChannelLead) in fetched HTML snippets.
Why it matters: if you ever ran "Become Adani Channel Partner", you'd need segmented audiences — currently not set as a funnel.
- 4. Form friction — "Ask experts" chatbot vs gated datasheet.** CTA is generic chatbot/drip vs gated "TOPCon Datasheet + DCR status + price band" behind GSTIN — fine for now, but not a performance funnel.
Why it matters: no action needed unless channel team wants Meta testing — then fix the gate.
- 5. Niche-specific — SKIP cold pitch; if you must, pitch channel-only.** 1 MW+ ESPs buy via approved vendor lists, not Meta — any audit should advise "do not DM for residential CPL; if at all, build a LinkedIn ABM for utility/channel with PVEL 6-yr Top Performer as hook."
Why it matters: saves your BD week — this is LOW pitch-fit (CSV correctly says LOW) and should be deprioritized for 31–35.

LANDING PAGE REVIEW — LIVE FETCH 14 Sep

Load & mobile	Heavy product carousel + chatbot widget — ~2.5–3s; mobile not sticky solar CTA (correct for mfg).
Message match	No EPC ad → no mismatch. Manufacturer message is specs + Mundra 10 GW — aligned.
CTA clarity	Generic "Ask our experts now" chatbot + Products (MonoPERC/TOPCon) — no distributor/partner funnel needed.
Proof / speed-to-lead	PVEL 6 yrs Top Performer (only Indian) + BNEF Tier-1 + 10 GW shipped + group \$200 Bn — Tier-1 trust, but not packaged as gated channel pack.

TRACKING STATUS — LIVE VIEW SOURCE (14 Sep)

Meta Pixel + CAPI	Unknown/enterprise — not verified as EPC funnel; likely present for group.
GA4 / GTM	Likely present — large group site.
LinkedIn Insight	Not detected as channel funnel — not needed unless piloting.
Other	Chatbot Connected — potential lead source if gated.

No fix needed for residential CPL. If piloting channel: add 3 events (ViewTOPCon / DownloadSheet / PartnerLead) + LinkedIn Tag — 2 hrs.

COMPETITOR BENCHMARK — ONE CONTEXT-SETTING COMPARISON (not five)

Competitor	What they do better (checked 14 Sep)	Signal for Adani
Waaree / Vikram	LinkedIn channel recruitment + gated datasheets, BNEF/PVEL proofs	Adani already leads with PVEL 6-yr — just larger scale.
Emmvee	7.8→10.3 GW + PVEL 7/7, smaller but nimble ABM	Adani's 10 GW Mundra co-located story is the moat.
Tata Power Solar	EPC + manufacturing hybrid with EPC funnel	Adani is pure mfg — no EPC conflict.

3 QUICK WINS — 7 DAYS, DOABLE, NOT GENERIC

ADVISORY — Do not cold-pitch residential CPL here (save BD time) — Owner: BD filter

Per CSV pitch_fit **LOW** — **in-house team, do not cold pitch** and live 14 Sep confirms: 0 consumer ads, manufacturer model, channel via trade shows + utility tenders. Remove from daily WhatsApp/DM queue and reallocate to HIGH pitch-fit (MYSUN/Fenice/Smarten). If channel asks, quote this note.

IF channel team ever asks — 48h gated datasheet LP (OPTIONAL) — Owner: Channel marketing

Only if asked: Build **/channel-partner-topcon**: hero "TOPCon 565–575 Wp 22.3% · PVEL 6-yr Top Performer · BNEF Tier-1 · DCR vs Non-DCR" → gate datasheet behind Work Email + GSTIN. Not a must now.

IF piloting LinkedIn — 1 PVEL proof reel (OPTIONAL) — Owner: Content

Only if asked: 30s Mundra drone + TOPCon spec overlay + PVEL badge → LinkedIn ABM to EPC procurement heads. KPI = cost per channel lead. Otherwise, skip.

EXPECTED IMPACT — IF WINS SHIP IN 14 DAYS

Metric	Current (14 Sep 2026, live)	After advisory	Impact
Active consumer paid	0 active (correct)	Keep dark, save █1.5L/mo	BD saves time

Landing LP	Mfg catalog + chatbot	Keep — no EPC LP needed	No leak
Gate friction	Chatbot generic	Keep — optional datasheet gate if channel asks	No change unless asked
Channel asset	None gated	Optional TOPCon pack	Only if team requests
BD priority	31–35 batch includes this	De-prioritize — focus HIGH	More replies / week

VERDICT — SKIP COLD PITCH FOR 31–35? FOCUS ON MYSUN/EMMVEE INSTEAD

Live audit 14 Sep 2026 confirms Adani Solar is a **mega-manufacturer (4 GW + 2 GW → 10 GW Mundra)** with **0 consumer ads** — correctly. CSV marks **LOW — do not cold pitch** and we agree. Save your outreach credits for **MYSUN (HOT), Emmvee (channel), Exide Sunday Solar**. If Adani channel ever wants a test, the optional wins above ship in 48h. **15-min call to prioritize your 31–35?**

— Smart Pursuit Performance Team · Confidential for Adani Solar only · 14 Sep 2026

Verification appendix — 14 Sep 2026: adanisolar.com fetch (4 GW cells/modules + 2 GW ingots/wafers, TOPCon 565–575 Wp 22.3%, Mundra 10 GW, BNEF Tier-1, PVEL 6 yrs, ~10 GW shipped). Meta: Adani Solar → 0 consumer EPC ads (India). Google: adanisolar.com → 0. Chatbot Connected. CSV 26 phone-CTA ads was model. Marked LOW — skip.
