EXECUTIVE SUMMARY — LIVE AUDIT 14 SEP 2026

Sunlit Future (Auroville, since 1999) — integrated solar provider: 7 MW on-grid across 1000+ rooftops + 800 solar pumps (Odisha/MH/MP/UP/Jharkhand/HP) for 1 lakh people; specialties On-Grid + Solar Water Pumps; LinkedIn 537 followers, Enfsolar Sellers+Installers. **Live fetch 14 Sep 2026: sunlitfuture.in → "Congratulations! You have successfully set up your website!" Plesk default page** — domain is parked/broken, not your site. Meta Ad Library "Sunlit Future" (active, IN) → **0 active ads**; Google Transparency → **0 active**. CSV claim 16 lead-form ads was modelled. The business proof is real (LinkedIn, auroville.org page) but the domain is diverting to hosting default — every future ad click would 404. Fix domain first, then funnel.

1 · AD INTELLIGENCE — LIVE FROM ADS (Meta + Google)

Audit date & sources	14 Sep 2026 · sunlitfuture.in (direct fetch = Plesk default) + auroville.org/page/sunlit-future + enfsolar.com/sunlit-future + linkedin.com/company/sunlitfuture + Meta Library (active, IN) + Google Transparency
Business type (live)	R + SWH — Auroville partnership: 7 MW rooftop (industrie/commercial/residential/edu/hospitals) + solar pumps; flat/tiled/corrugated/elevated roofs; 11-50 emp. Founded 1999 (offgrid 10yrs → ongrid from 2010).
Meta Ad Library — active ads	0 active for "Sunlit Future" (India) 14 Sep. No creatives to screenshot.
Google Transparency	0 active for sunlitfuture.in (India) 14 Sep.
Creative hook / start date	N/A — no hook. If it ran, it should be "Auroville 7MW 1000 roofs + 800 pumps" — but domain is down so hook has nowhere to land.
Destination / diversion	sunlitfuture.in → Plesk default page ("Congratulations! You have successfully set up your website!") — not homepage. No CTA, no phone, no WA. Last correct address: Auroshilpam, Auroville 605101, +91 413 2622992 (from enfsolar/linkedin).
Verification links	Meta: facebook.com/ads/library/?active_status=active&country;=IN&q;=Sunlit+Future · Google: adstransparency.google.com/?region=IN&domain;=sunlitfuture.in · Live: sunlitfuture.in (Plesk) vs auroville.org/page/sunlit-future (proof)

2–5 · SCORES — CREATIVE / LANDING / TRACKING / ABM (Live 14 Sep)

Ad creative (active)		0/10
Landing Page (live)		0/10
Tracking (Pixel / GA4)		0/10
Retargeting & Nurture		1/10
Local Proof (GBP / reviews)		2/10
Mobile / Speed (site live)		0/10

FINDINGS — 5 OPPORTUNITIES (not mistakes) — ONE SENTENCE + WHY IT MATTERS

1. Ad creative snapshot — 0 active ads and no destination live (Sep 14). Library empty is expected for a 11–50 person Auroville niche EPC — but the homepage fetch shows Plesk default, so even if you launched a PM Surya Ghar ₹78k ad today, the click diverts to a hosting park page, not your 7MW proof.

Why it matters: fix domain first — every day parked = direct traffic + referral + any future paid is lost and looks abandoned to prospects.

- 2. Landing page — default server page, not a conversion page.** Fetch shows only "Congratulations! You have successfully set up your website!" + 4 Plesk help lines + img.png — no headline, no solar pump/rooftop CTA, no phone, no map. The real proof lives on auroville.org and Enfsolar, not your domain.
Why it matters: DNS/hosting misconfig outranks any CPL fix — restore the WordPress/LP at auroshilpam address before spending █1.
- 3. Tracking — cannot fire on a parked domain.** A Plesk default has no head to place Pixel/CAPI/GA4/LinkedIn — so there is no audience pool even from organic/direct visits.
Why it matters: after DNS fix, a single GTM with 3 events (ViewRoofs, ViewPumps, ClickCall) is 30 mins and immediately builds retargeting.
- 4. Form friction — no form at all right now.** There is no quote form to measure friction — restoration should ship a 3-field Auroville-first flow: Pincode + Monthly Bill + Roof type → █78k eligibility preview.
Why it matters: starting fresh lets you build Value-first from day one, not retrofit a 6-field legacy form.
- 5. Niche-specific — Auroville trust not packaged for paid.** You have 7MW/1000 roofs + 800 village pumps (Odisha/HP) + 1999 trust + AuroRE lineage — but today there is no gated "Auroville 7MW Portfolio PDF" or pump case (Majhora MP, Turla Odisha) to run as a retargeting asset.
Why it matters: once domain is live, one portfolio PDF + 1 pump story reel is the asset that turns Auroville trust into inquiries from Puducherry/Chennai/Tamil Nadu.

LANDING PAGE REVIEW — LIVE FETCH 14 Sep

Load & mobile	Plesk default ~0.5s but 100% bounce — no content to load; mobile also default.
Message match	No message — default vs Auroville solar would be mismatch. Need restored hero "Auroville 7MW on 1000 roofs — On-Grid + Solar Pumps since 1999".
CTA clarity	None. After restore: "Get Free Roof Assessment (Auroville/Puducherry)" + WhatsApp + 3-field quote above fold.
Proof / speed-to-lead	Proof still exists on auroville.org (7MW, 800 pumps) but not on own domain — migrate proof + remote monitoring + maintenance promise above fold.

TRACKING STATUS — LIVE VIEW SOURCE (14 Sep)

Meta Pixel + CAPI	Not firing — parked domain, no head.
GA4 / GTM	Not present — no code.
LinkedIn Insight	Not present — parked.
Other	After restore: add MS Clarity to watch restored LP drop-off.

Fix = restore DNS → install GTM firing Pixel/CAPI/GA4 + 3 audiences (All visitors, Roof viewers, Pump viewers) — 1 hr after hosting fix.

COMPETITOR BENCHMARK — ONE CONTEXT-SETTING COMPARISON (not five)

Competitor	What they do better (checked 14 Sep)	Signal for Sunlit
Oorjan / MYSUN	Rooftop calculators with █78k + EMI + WhatsApp, gated savings reports	Your 7MW/800 pumps is rarer — gate it as "Auroville Portfolio" PDF once live.
Shakti Pumps (solar pumps)	PM-KUSUM 1HP-100HP + stainless steel + Auroville case shows no direct competitor for 60%	Your pump story is village drinking water — 1 lakh people — more emotive than HP specs.
ZunRoof/Zunsolar	Gurugram 40k customers + IoT app + subsidy 40% — but north-focused	Your south/Auroville cluster is your geo-moat — own Puducherry/Tamil Nadu paid.

3 QUICK WINS — 7 DAYS, DOABLE, NOT GENERIC

WIN 1 — 24 hours: Restore domain (BLOCKER) + ship 1-hr GTM — Owner: Hosting admin + dev

Fix Plesk/DNS for sunlitfuture.in (restore WordPress or temporary one-pager at auroshilpam, +91 413 2622992). Put a **one-pager**: hero "Auroville Since 1999 — 7MW on 1000 Roofs + 800 Solar Pumps" + 3-field quote (**Pincode + Bill + Pump/Roof**). Install **GTM (Pixel+CAPI+GA4)** before any traffic.

WIN 2 — 7 days: Launch gated Auroville proof pack (zero ad spend) — Owner: Content

Package existing proof into "**Sunlit Future — Auroville 7MW Portfolio (1000 Roofs) + 800 Village Pumps (Odisha/MP)**" PDF (from auroville.org). Gate behind **Work Email + District** on /lp-auroville-portfolio, email nurture Day3 pump story, Day7 site video. Builds pool without paid.

WIN 3 — 14 days: Test █30k local lead ads (Puducherry/TN) + WhatsApp — Owner: Performance

After site is live, run **█30k pilot: Meta Lead Ads "Sunlit Future — Auroville 7MW: Free Roof Assessment"** → 3-field form → WhatsApp 413-2622992 fallback. Target Puducherry + Cuddalore + Chennai. KPI = cost per site visit, not CPL. Skip if domain still parked — spend zero till fix.

EXPECTED IMPACT — IF WINS SHIP IN 14 DAYS

Metric	Current (14 Sep 2026, live)	After 7–14 day wins	Impact
Domain live	Plesk default (parked)	Restored + one-pager live	No 404 waste
Tracking / audiences	None (parked)	GTM+Pixel+CAPI+GA4	Every visit retargetable
Gated proof	None on own domain	1 Auroville 7MW PDF	Lead quality ↑
Paid funnel	0 ads (correct till fix)	■30k local test after live	Low-risk pilot
Enquiries	Lost to parked	3-field quote → WA	Pipeline from zero

BLOCKER FIRST — RESTORE DOMAIN, THEN FUNNEL IN 7 DAYS

Live audit 14 Sep 2026 confirms sunlitfuture.in is on a **Plesk default page** — correctly 0 active ads, but also 0 conversions. Fix is DNS/hosting (often 1 hour with host support at Auroshilpam). After that, **one-pager + gated 7MW PDF + ■30k Puducherry test** puts you back in 7 days. **15-min call to hand the one-pager copy + GTM tags?**

Ph/WhatsApp: **7095024220** | Email: **smartpursuit3@gmail.com** · Reply "Send Loom" and I'll WhatsApp the 2-min walkthrough

— Smart Pursuit Performance Team · Confidential for Sunlit Future only · 14 Sep 2026

Verification appendix — 14 Sep 2026: sunlitfuture.in fetch = Plesk "Congratulations! You have successfully set up your website!" (default). Proof: auroville.org/page/sunlit-future (7MW 1000 roofs + 800 pumps 1999) + enfsolar.com/sunlit-future (Auroshilpam 605101, +91 413 2622992) + linkedin Sunlit Future 537 followers. Meta: Sunlit Future → 0 active. Google: sunlitfuture.in → 0. DNS/hosting is the leak.
