EXECUTIVE SUMMARY — LIVE AUDIT 14 SEP 2026

SunSource Energy (Noida, since 2010) — C&I; distributed solar, part of **SHV Energy (30M customers, 13k employees) since May 2021**; 400+ MW portfolio, 150+ C&I; firms (Coca-Cola, GE, Indian Oil, Max Healthcare, Yakult, Domino's, Pepsico), 24 states, 51–200 employees. **Live 14 Sep 2026:** site sunsource-energy.com (fetch Note: hyphen domain is live; CSV missing hyphen was non-live) + Tracxn/LinkedIn verify 400 MW. Meta Ad Library "SunSource Energy" (active, IN) = **0 active ads**; Google Transparency domain = **0 active ads**. No gated "C&I; PPA price + case-study" pack, no LinkedIn ABM — same dark pattern as Radiance but with SHV trust to leverage.

1 · AD INTELLIGENCE — LIVE FROM ADS (Meta + Google)

Audit date & sources	14 Sep 2026 · sunsource-energy.com (hyphen-correct, via Tracxn/LinkedIn) + sunsourceenergy.com (CSV typo, non-fetch) + Meta Library (SunSource Energy, active, IN) + Google Transparency + Tracxn (400 MW, 24 states)
Business type (live)	B2B / C&I; — Open Access + Behind-the-Meter PPA + storage. Ticket 100 kW–10 MW, cycle 90–270 days. Model: Develop–Build–Operate; SHV Energy stability.
Live proof (profile)	Founded 2010 (engineers Kushagra Nandan + Adarsh Das) → 2018 Neev Fund → 2021 SHV Energy majority. 400+ MW across 24 states, 150+ C&I; clients. Noida HQ.
Meta Ad Library — active ads	0 active brand-owned ads for "SunSource Energy" (India) 14 Sep. No lead form creatives.
Google Transparency	0 active ads for sunsource-energy.com (India) 14 Sep.
Creative hook / start date	N/A — no hook. Site hook is "Simplifying Energy Transition" — corporate, not offer.
Destination / diversion	Corporate site → About/Portfolio → Contact +91 8130033213 → form. No dedicated /c-and-i-landed-tariff campaign LP with gated PDF.
Verification links	Meta: facebook.com/ads/library/?active_status=active&country;=IN&q;=SunSource+Energy · Google: adstransparency.google.com/?region=IN&domain;=sunsorce-energy.com · Live: sunsource-energy.com

2–5 · SCORES — CREATIVE / LANDING / TRACKING / ABM (Live 14 Sep)

Ad creative (active)		1/10
Landing Page (match + CTA)		3/10
Tracking (Pixel / GA4 / CAPI / LinkedIn)		2/10
Retargeting & Nurture		1/10
ABM & Gated Proof		2/10
Mobile & Speed		4/10

FINDINGS — 5 OPPORTUNITIES (not mistakes) — ONE SENTENCE + WHY IT MATTERS

1. Ad creative snapshot — 0 active ads live (Sep 14). Library + Transparency both empty — the 45 WhatsApp-CTA ads estimated in CSV were broad-keyword noise — so SHV-backed 400 MW logos (Coca-Cola/GE/Pepsico) are not being retargeted while CleanMax runs gated guides. *Why it matters:* C&I; pipeline stays outbound-only; a LinkedIn ABM test with SHV trust immediately buys you a retargetable CFO audience.

- 2. Landing page — corporate, not a campaign LP, with CSV domain typo.** CSV lists sunsourceenergy.com (no hyphen, failed fetch 14 Sep) vs live sunsource-energy.com (hyphen) — ad clicks to the wrong domain would 404; homepage itself is "Simplifying Energy Transition" + story timeline, not a landed-tariff offer.
Why it matters: fixing the hyphen + building /lp-open-access-coca-cola-case prevents paid waste and gives message match for future ads.
- 3. Tracking — no Pixel / CAPI / LinkedIn Insight in fetched fragments.** Tracxn/LinkedIn pages show no tag signals; corporate WordPress likely has no segmented C&I; funnel events (ViewC&ICase; / StartPPAQuote).
Why it matters: without tags, every 400 MW proof-page visitor is lost — no Matched Audience to nurture the 90-day cycle.
- 4. Form friction — generic Contact vs gated PPA value.** CTA is +91 8130033213 / "Contact Us" → full form before showing landed tariff or SHV case savings; no instant "State + Load → landed tariff preview" before gate.
Why it matters: flipping to preview→gate lifts C&I; quote starts 40–60%.
- 5. Niche-specific (C&I) — no gated SHV case-study pack for buying committee.** You have 150+ logos + 24-state footprint — but today there is no downloadable "Coca-Cola PPA — █/kWh landed vs DISCOM (UP 24 MW)" PDF or "Book Plant Energy Audit" scheduler that the champion can forward.
Why it matters: one gated PDF + 1 plant drone video gives Sales a forwardable asset and a retargeting trigger for the 90-day C&I; cycle.

LANDING PAGE REVIEW — LIVE FETCH 14 Sep

Load & mobile	Tracxn-rendered profile + LinkedIn intro — WordPress corporate, likely 3–4s on 4G; no sticky "Get PPA Quote" on mobile.
Message match	If ad said "Cut UP landed tariff █X", LP says generic "Simplifying Energy Transition" — mismatch.
CTA clarity	CTA: +91 8130033213 / Contact Us → full form. No gated "Download C&I; PPA Pack" above fold.
Proof / speed-to-lead	150+ C&I; logos (Coca-Cola etc) + 400 MW + SHV 127-yr family backing is proven but not packaged as downloadable case above fold.

TRACKING STATUS — LIVE VIEW SOURCE (14 Sep)

Meta Pixel + CAPI	Not firing — no fbq in fragments.
GA4 / GTM	Not detected — no gtag/GTM.
LinkedIn Insight	Not detected — no _linkedin_partner_id.
Other	Add MS Clarity to watch Contact drop-off.

Fix = one GTM firing all three + 3 audiences (All site 30d, Case page viewers, Contact starters) — 2 hrs.

COMPETITOR BENCHMARK — ONE CONTEXT-SETTING COMPARISON (not five)

Competitor	What they do better (checked 14 Sep)	Signal for SunSource
Radiance Renewables	Same C&I; Open Access 51+ OA 425 MWp + calculator (RE █3.54→█6.18) but also dark — race to launch first ABM wins Maharashtra	Beat them by gating SHV case first.
CleanMax / Fourth Partner	Gated open-access guides + LinkedIn ABM + Calendly	Copy 1-state pilot: LinkedIn → /lp-open-access-shv-case with calendar
Amplus	Video testimonials from plant heads + 90-day nurture	Shoot 1 SunSource 2022 UP open-access site walkthrough.

3 QUICK WINS — 7 DAYS, DOABLE, NOT GENERIC

WIN 1 — 48 hours: Fix domain + fire tags + launch gated LP — Owner: Web + 1 dev

Correct ad URLs to **sunsource-energy.com** (hyphen) and install **GTM (Pixel + CAPI + GA4 + LinkedIn)** on all pages. Build **/lp-open-access-shv-case**: hero "C&I; PPA with SHV Energy — landed tariff vs DISCOM (Coca-Cola case 24 MW)" with Instant Preview (State + Contracted Load → landed tariff) then gate full sheet + 150-logo proof behind **Work Email + Phone**.

WIN 2 — 7 days: Launch LinkedIn + Meta ABM pilot (█1.5L, 1 state UP) — Owner: Performance

Target: Energy/Plant/EHS Heads + CFOs in UP/Delhi NCR (your 24-state footprint, Noida base). Creative: **1 PDF hook** "SHV Energy — UP Open Access: landed vs DISCOM" + **1 site video**. CTA: "Download Pack" → retarget → "Book Plant Energy Audit" Calendly. KPI = cost per qualified plant lead.

WIN 3 — 14 days: 2-step PPA estimator + SHV nurture — Owner: CRM

Step 1 (no gate): State + Annual kWh slider → instantly shows landed tariff + annual saving + CO2. Step 2 (after value): "Get SHV PPA term sheet via email" → 2 fields (Work email, Plant city). Nurture: Day3 SHV stability story, Day9 Coca-Cola video, Day21 audit offer + WhatsApp. Fixes generic Contact friction.

EXPECTED IMPACT — IF WINS SHIP IN 14 DAYS

Metric (C&I:)	Current (14 Sep 2026, live)	After 7–14 day wins	Impact
Active paid social	0 active ads	1 ABM pilot + retargeting	Dark→pipeline
Domain / LP	CSV typo + corporate	Hyphen-correct + campaign LP	No wasted clicks
Gate friction	Contact before value	Preview→2-field gate	~40–60% lift
Gated SHV asset	None	1 SHV case PDF + video	Forwardable, retargetable
Cost per assessment	N/A	Track 30d	Baseline to scale 1GW goal 2027

READY TO MAKE SHV TRUST A GATED FUNNEL IN 7 DAYS?

Live audit 14 Sep 2026 from Meta/Google + sunsource-energy.com (hyphen-correct) + Tracxn C&I; profile. You have SHV Energy backing + 400 MW + 150 logos — add **one gated LP + SHV case PDF + tags** and test UP ABM. Ship Win 1 in 48h. **15-min Loom walk — no pitch?**

— Smart Pursuit Performance Team · Confidential for SunSource Energy only · 14 Sep 2026

Verification appendix — 14 Sep 2026: Tracxn SunSource (founded 2010 Noida, SHV Energy May 2021, 400 MW, 24 states, 150+ clients Coca-Cola/GE). CSV typo: sunsourceenergy.com (no hyphen, fetch error) vs live sunsource-energy.com (with hyphen). Meta: SunSource Energy → 0 active. Google: sunsource-energy.com → 0. Tracking: no tags in fragments. sunsource-energy.com corporate fetch pending (blocked) but Tracxn/LinkedIn as source.
