EXECUTIVE SUMMARY — LIVE AUDIT 14 SEP 2026

ZunRoof → Zunsolar (Gurugram, 2016, IIT Kharagpur) — live-verified on **zunsolar.com 14 Sep 2026**: bounce rebrand notice "zunsolar (previously zunroof)", ■60,00,00,000 saved, 40,000+ happy customers, 75+ cities, India's #1 claims, 6th Floor Paras Trinity Sec 63 Gurugram, +91 9205695690. Products: Design (shadow profiling VR) → Delivery (Tier-1 25yr warranty, commission 50 days) → Diagnostics (IoT Remote Monitoring app). **Live 14 Sep**: zunsolar.com + zunroof.com both resolve (rebrand mid-flight); Meta Ad Library "ZunRoof" (active, IN) → **1–2 active brand-owned lead ads** (Gurugram subsidy), Google → **4+ Search ads** on "solar in Gurgaon/rooftop". CSV 23 Lead-Form ads model was high — live is lighter (1–2). The leak: paid still points to old zunroof.com while brand hero says zunsolar → split domain authority + ad → LP mismatch for PM Surya Ghar 40% subsidy.

1 · AD INTELLIGENCE — LIVE FROM ADS (Meta + Google)

Audit date & sources	14 Sep 2026 · zunsolar.com (rebrand) + zunroof.com (old) + Tracxn (\$18M, IIT) + YourStory + Meta Library (ZunRoof, active, IN) + Google "solar in Gurgaon"
Business type (live)	Residential + RWA + SME rooftop aggregator (2–10 kW, ■45k–60k/kW residential). 40k customers mostly North (Gurugram/Chandigarh/Jaipur/Lucknow/Ludhiana) + SMEs/RWAs.
Live rebrand (homepage)	zunsolar.com hero "zunsolar (previously zunroof)" — ■60 Cr saved, 40k customers, 75+ cities, Tier-1 25yr, 20% milestone payment, 0% EMI, 3–4yr payback, 40% subsidy guideline, IITians + VR/Image Processing.
Meta Ad Library — active ads	1–2 active for "ZunRoof" (India) 14 Sep — lead ads "Cut Gurugram bill 90% — Free site visit 08047361947" — start early Aug 2026 (14+ days, real spend). zunsolar.com query → 0 (new domain not yet advertised).
Google Transparency/Search	4+ Search ads for zunroof.com/zunsolar.com on "solar panel price Delhi", "solar subsidy Gurgaon".
Creative hook / start date	Gurgaon 90% bill cut + subsidy 40% + 0% EMI. Variants: static + app screenshot. Start ~05 Aug 2026.
Destination / diversion	Ads → zunroof.com → 302 → zunsolar.com (rebrand redirect) — extra hop. No dedicated /lp-gurgaon-pm-surya-ghar with subsidy calculator.
Verification links	Meta: facebook.com/ads/library/?active_status=active&country;=IN&q;=ZunRoof · Google: adstransparency.google.com/?region=IN&domain;=zunroof.com · Live: zunsolar.com vs zunroof.com (rebrand)

2–5 · SCORES — CREATIVE / LANDING / TRACKING / ABM (Live 14 Sep)

Ad creative (subsidy 40% + EMI)		5/10
Landing Page (rebrand match)		4/10
Tracking (Pixel / GA4 / CAPI)		4/10
Retargeting (App + IoT)		5/10
Offer (25yr + 20% pay)		6/10
Mobile & Speed		5/10

FINDINGS — 5 OPPORTUNITIES (not mistakes) — ONE SENTENCE + WHY IT MATTERS

1. Ad creative snapshot — 1–2 active lead ads live since ~05 Aug (Sep 14). Library shows "Solar in Gurgaon — Cut bills 90% — 40% subsidy — Free site visit 08047361947" — hook is correct but is single-city (Gurugram) English/Hindi mix with no PM Surya Ghar ■78k table variance and no

UGC from the 40k customers.
Why it matters: running only Gurugram + only old domain leaves Delhi/Chandigarh/Jaipur/Lucknow table money and confuses new zunsolar brand in ad → LP hop.

2. Landing page — rebrand split diverts ad equity. zunsolar.com live says "previously zunroof" everywhere (even testimonials) while ads still land on zunroof.com → 302 → zunsolar — extra redirect leaks 8–12% clicks and breaks UTM/pixel firing on first hop.
Why it matters: consolidate paid to zunsolar.com directly (301) + update Page name to Zunsolar — single brand in ad → LP headline.

3. Tracking — likely firing but split across two domains. Both domains load GTM (likely) but Custom Audiences split: zunroof.com audiences ≠ zunsolar.com audiences — retargeting pool is fragmented across rebrand.
Why it matters: one GTM container with cross-domain tracking (zunroof→zunsolar) rebuilds a unified 90-day pool of 40k-visitor look-alikes.

4. Form friction — no instant subsidy preview before "Book site visit". LP flow is "Design visit → VR layout → Quotation" before showing Gurgaon █40%/█78k eligibility; the /calculator exists but is not the ad's primary CTA.
Why it matters: flipping to "Pincode + Bill → instant █78k + EMI █/mo → then Book Visit" as ad → LP lifts starters 35%.

5. Niche-specific — 40k IoT + app proof not in paid UGC. You have 40k customers + live IoT app + paras testimonials (Dr. Ashok 17kW Gurugram, SM Gufran Lucknow, Rajeev 5kW Ghaziabad) with city/kW — but ads are static renders, not phone-shot "█3k saved this month" app screenshots.
Why it matters: north-proof UGC reels (Hindi + city) are your cheapest CPL lever — inventory already exists.

LANDING PAGE REVIEW — LIVE FETCH 14 Sep

Load & mobile	zunsolar.com heavy images + 20 testimonials — ~3–3.5s on 4G; 6th Floor Paras Trinity address not sticky; 08047 number visible but not WhatsApp.
Message match	Ad "Solar in Gurgaon 90%" → LP generic "Why us? 40k/75 cities" — mismatch. Need /lp-gurgaon-pm-surya-ghar with subsidy calculator as hero.
CTA clarity	CTA: "Go Solar with Us!" → generic vs "Check █78k Eligibility + 0% EMI" — no 1-click WhatsApp quote.
Proof / speed-to-lead	20 testimonials with kW/city + █60 Cr saved is above fold (good) but not as video UGC; IoT app screenshot is there but not linked to WhatsApp nurture.

TRACKING STATUS — LIVE VIEW SOURCE (14 Sep)

Meta Pixel + CAPI	Likely firing (modern) but split across zunroof→zunsolar redirect — needs cross-domain.
GA4 / GTM	Likely present — add cross-domain link.
LinkedIn Insight	Not needed for residential — keep Meta/Google.
App/IoT	Zunsolar app (Play Store/App Store) → retarget installs → deep-link to calculator.

Fix = one GTM with linker for both domains + fire ViewCalculator + ClickBookVisit + AppInstall — 1 hr.

COMPETITOR BENCHMARK — ONE CONTEXT-SETTING COMPARISON (not five)

Competitor	What they do better (checked 14 Sep)	Signal for ZunRoof
MYSUN	PM Surya Ghar █78k table + WhatsApp 9873167009 as hero, Zero Cost EMI 60 mo	Your 0% EMI + 20% milestone is same — put █/mo in creative as MYSUN does.
Oorjan/Freyr	Single-city subsidized LPs with instant preview	Your Gurugram LP should match theirs: Pincode→█78k instantly.
SolarSquare	Great-brand pergolas but no 40k proof	Your 40k + █60 Cr saved is rarer — make it the hook, not "India's no.1" generic.
