EXECUTIVE SUMMARY

Microtek International Pvt Ltd (H-57 Udyog Nagar, Rohtak Road, Delhi 110041) is India's #1 Home UPS brand (founded 1986, N.K. Aggarwal). Claims **15 crore customers, 4 plants, 29+ countries, 2,000+ staff, 150 own service centres / 355+ points**. EasyLeadz (Feb 2025): revenue Rs.250-500 Cr. Solar SKU range: hybrid inverters, Mono PERC / TOPCon bifacial panels (BIS+IEC, 25-yr), PCU, SMU (turns a home UPS into solar), GTI 1-5 kW single-phase / 5.5-250 kW three-phase (10-yr, BIS, live app), solar batteries. Day-1 file 14 Sep 2026: **7/10 HOT**, ~27 ads, WhatsApp dest, Rs.20 L+/mo est., pitch_fit HIGH (D2C / CPL-ROAS).

Live check 14 Sep 2026: microtekdirect.com 301s to microtek.in. Homepage carousel is Bajaj Finance, I-Lithium UPS, lithium combo, line-interactive, next-gen inverters - **not solar**. Solar is a nav category. Enquire Now is 7 fields (name, mobile, email*, pincode, state, city, category). WhatsApp 7283838383 exists - positioned as warranty/AMC ('Hi' to register), not sales (9711666444). IG live is @microtekofficial (36k / 1,812 posts) - Day-1 handle @microtek_india is stale. Hybrid inverter hero files are named **ChatGPT-Image-Jun-23-2026**. Bajaj Finance filter = Battery / Inverter / Combo only - **no Solar category**. E-shop 'Solar Solution' banner points to /product/product/enquire-now (broken).

This is not an EPC audit. Microtek sells boxes. The Day-1 leak is still live: Amazon and Flipkart already stock Microtek solar (M-SUN, GTI, Hybrid) and the ads/PDPs do not send the click there. Plus: UPS homepage for solar spend, 7-field form vs WhatsApp, subsidy only on a Jan 2026 blog, ChatGPT art, Bajaj EMI not on solar. All fixable in 14 days. *Ad counts are Day-1 estimates - verify in Meta Ad Library before quoting. Never promise subsidy approval on a component sale.*

1. AD INTELLIGENCE

Active platforms	Meta primary. Day-1 dest = WhatsApp. Live site: Enquire Now form + WA widget 7283838383 (customer care, not sales). FB facebook.com/MicrotekOfficial. IG @microtekofficial (36k). X @MicrotekOfcl. LinkedIn /company/microtekofficial. YouTube @microtekinternationalp.ltd9753. E-shop on microtek.in (cart). Amazon + Flipkart + Moglix + IndiaMART listings exist independently.
Active ads (est.)	~27 creatives by Day-1 signature, spend Rs.20 L+/mo est. Verify Meta Ad Library India (active) + Google Ads Transparency (microtekdirect.com and microtek.in) before pitching. Do not quote 27 as a hard number.
Offer / SKUs (14 Sep)	Hybrid inverter: 5-yr, digital, 'Battery Capacity: KVA' (copy unfinished). GTI 1-5 kW / 5.5-250 kW, 10-yr, BIS, IEC, live monitoring. Panels: poly 50-165 W and Mono PERC / TOPCon bifacial, 25-yr, BIS+IEC. PCU (solar mode vs normal). SMU converts existing Microtek UPS to solar. Solar tubular batteries (C10/C20). Bajaj EMI live on UPS/battery combos only.
Funnel / CRO (14 Sep)	Solar ad -> UPS homepage (Bajaj / lithium / inverter banners). Solar 'Buy Now' on category pages goes to JS listings that scrape empty (no SKU/price in HTML). E-shop solar banner = broken /product/product/enquire-now. Enquire Now: 7 required fields including email. Load calculator = UPS watt backup for 1-4 BHK, not kW + subsidy. No Amazon/Flipkart button on solar PDPs.
Marketplace (Day-1 leak, confirmed)	Amazon.in: Microtek Hybrid 1875 ~3.6/137; SMU ~3.3/42; NXG/solar SKUs live. Flipkart: M-SUN-1235/12V ~3.8/20, Jan 2026 review 'Auto triping'. Moglix: GTI 5.5-50 kW and PCU price list. IndiaMART dealer mesh. None of these URLs sit on the ad or the PDP. Buyer who wants marketplace checkout + reviews has to Google the SKU.
Subsidy / compliance	PM Surya Ghar lives on blogs (16 Jan 2026 'Muft Bijli'; Dec 2025 subsidy guide) not on GTI/panel PDPs. GTI FAQ says 'eligible for government incentives' with no rupee. Subsidy is on a rooftop *system* via an MNRE vendor, not on buying an inverter off Amazon. BIS/IEC on panels + GTI is the honest hook. Never promise Rs.78,000 as a product discount.

2-5. CREATIVE / COPY / CRO / TRACKING SCORES

Subsidy & Scheme Clarity	3/10
--------------------------	------

WhatsApp / Speed-to-Lead		5/10
Social Proof (Installs)		4/10
Creative (Video/Reels)	Variety	3/10
Landing Page & Form CRO		3/10
Tracking & Retargeting		4/10

- **Marketplace leak (Day-1, confirmed 14 Sep 2026):** Amazon, Flipkart, Moglix and IndiaMART already sell Microtek solar. Solar ads and PDPs do not link them. Own e-shop is UPS-first; the solar banner 404s to /product/product/enquire-now. D2C buyers compare reviews and checkout on Amazon. Sending them to a 7-field Enquire form is a trust and conversion leak. Put official Buy-on-Amazon / Buy-on-Flipkart on every solar ad and PDP. Syndicate 4-star reviews back onto microtek.in.
- **Wrong landing for solar spend:** microtekdirect.com 301s to microtek.in. Hero carousel = Bajaj, I-Lithium UPS, lithium combo, line-interactive, next-gen home inverter. Solar is buried in the nav. Rs.20 L+/mo of 'Microtek Solar' clicks are paying for a UPS homepage. Ship /solar/ as the ad destination: hybrid vs GTI vs SMU vs panel, price, BIS/IEC, 3-field WhatsApp.
- **WhatsApp is service, not sales:** Day-1 dest = WhatsApp. Widget 7283838383 is 'send Hi to register warranty/AMC'. Sales number is 9711666444. Enquire Now asks name, mobile, email*, pincode, state, city, category. 9pm 'hybrid vs GTI?' will not finish that. Ad CTA = Send WhatsApp Message to a *sales* line; collapse Enquire to 3 fields (pincode, phone, SKU).
- **Bajaj EMI excludes solar:** Homepage leads with Bajaj Finance. Eligible categories on /bajaj-finance = Battery Combo / Inverter / Battery / Inverter Battery Combo. No Solar. A Rs.70k GTI or panel set is an EMI product. Add solar SKUs to Bajaj (or a solar NBFC) and put 'EMI from Rs.X' on the solar landing. Load calculator is a UPS watt tool - add a solar kW + bill widget (phone before the number).
- **Creative / proof:** Hybrid inverter heroes are filename ChatGPT-Image-Jun-23-2026. Studio product shots, no unboxing, no roof, no net-meter. MouthShut Microtek inverter 2.95 / 5,416. Amazon solar SKUs sit at ~3.3-3.6. Claim is 15 crore customers. The ad still looks like a UPS catalogue. 10 UGC Reels (install + app + SMU retrofit) replace the ChatGPT art.
- **Subsidy copy is a blog, not a PDP:** Jan 2026 blog explains PM Surya Ghar; GTI page only says 'government incentives'. Do not print Rs.78,000 as a Microtek discount - CFA is on the installed system via an MNRE vendor. Honest line: 'BIS/IEC GTI + panels that an empanelled installer can put in a PM Surya Ghar system. We do not approve subsidy.' About-page counters look like dummy JS (3456 patents / 6789 copyrights) - same trust leak as Fenice/Freyr zeros.

6. COMPETITOR BENCHMARK

Competitor	What they do better	Signal for Microtek
Luminous Solar	Amazon/Flipkart brand stores with review volume. Wider service (3,000-4,000+ points). Stronger ALMM/hybrid-lithium story (Jul-Aug 2026 comparisons). Solar is a first-class category, not a UPS afterthought.	You win on price (Rs.1-3k cheaper / Rs.10-15k on 3 kW). You lose on marketplace CTA and solar-first landing. Link Amazon. Make /solar/ the ad URL.
Livguard / Okaya / Smarten	D2C solar+inverter brands with SKU ads to marketplace or 3-field forms. Lithium + app as the hook.	Match their ATC path. Your SMU (UPS -> solar) is a unique SKU - it is not in the ads.
Growatt / Solis / Loom	Solar-native brands. Efficiency and monitoring as the ad. Loom runs UGC unboxing. Growatt/Solis win the 'best inverter 2026' lists Microtek is filed under 'budget / off-grid'.	GTI 10-yr + BIS + live app is the on-grid answer. Put it on the creative. Stop leading solar ads with Home UPS.
Amazon itself	The default checkout. 3.6 stars on Hybrid 1875 is the review the buyer will read even if your ad is beautiful.	Official brand store + review replies + 'Buy on Amazon' in the ad. Own the PDP you already pay for.

7. 3 QUICK WINS (Implement in 7 Days)

WIN 1 - 48 hours: Marketplace CTA + solar landing + sales WhatsApp

Every solar ad and PDP: Buy on Amazon + Buy on Flipkart (official listings) + WhatsApp sales (9711666444), not only Enquire. New /solar/ landing (hybrid vs GTI vs SMU vs panel) as the Meta destination - stop dumping solar clicks on the UPS homepage. Fix the e-shop solar banner (/product/product/enquire-now). Collapse Enquire to pincode + phone + SKU; email optional. Expected: recapture marketplace-intent clicks; 20-35% more ATC / chat at the same Rs.20 L+ spend.

WIN 2 - 7 days: Bajaj/EMI on solar SKUs + honest subsidy module + kill ChatGPT art

Add Solar to /bajaj-finance (or a solar NBFC) and print EMI from Rs.X on GTI/panel PDPs. PDP module: 'BIS/IEC - usable in a PM Surya Ghar system by an MNRE installer. Microtek does not approve subsidy.' Pull the Jan 2026 blog rupee onto GTI, not as a product discount. Replace ChatGPT-Image-Jun-23-2026 heroes with product + roof photos. Load calculator: add solar kW + monthly bill, phone before the number. Expected: higher AOV via EMI; fewer subsidy-confused returns.

WIN 3 - 14 days: UGC + SMU retrofit ads + 60-day DPA retargeting

10 Reels: unboxing, SMU-on-existing-UPS (unique to Microtek), GTI app screenshot, dealer install. Reply to Amazon 3-star threads (tripping / service). Audiences: (i) solar LP no ATC, (ii) Amazon click no purchase, (iii) Enquire no order - 60 days, DPA of live SKUs. Split UPS ads vs solar ads so solar budget cannot buy inverter-only traffic. Expected: cheaper solar CPL; ROAS up from marketplace + DPA; stop MouthShut/Amazon 3.x from being the only review the buyer sees.

EXPECTED IMPACT

Metric	Current (est.)	After Wins	Impact
Ad -> Amazon/Flipkart	No (Enquire / UPS home)	Buy buttons on ad + PDP	Trust + checkout
Solar click landing	UPS homepage	/solar/ SKU landing	Stop wasted solar spend
Enquire fields	7 (email required)	3 + WhatsApp sales	CVR up
Cost per lead (Meta)	Rs.150-350	Rs.90-180	~40% cheaper
Solar ROAS (Meta+mktplace)	Diluted by UPS traffic	Solar-only + DPA	Spend on SKUs that sell

READY TO PLUG THESE LEAKS?

Smart Pursuit will run a **14-day solar D2C sprint** for Microtek: Amazon/Flipkart buy buttons on ads and PDPs, a solar landing (not the UPS homepage), WhatsApp sales CTA, Bajaj EMI on solar SKUs, and UGC instead of ChatGPT product art. Priced against **CPL and ROAS**, not impressions.
