EXECUTIVE SUMMARY

Okaya Power Pvt Ltd (CIN U74899HR1987PTC125247; D-8 Udyog Nagar, Rohtak Road, Delhi 110041) is a 1987/2002 Gupta-family power-backup manufacturer. CEO Akshay Gupta (Tracxn). Claims **110M+ customers, 32k dealers, 24+ years, 700+ sales/service, 4 plants / 17 lakh sq ft, 25 regional warehouses, 45+ export countries**. Tracxn FY25: **Rs.500-1,000 Cr** (Tofler ~Rs.750-1,000 Cr, -7% YoY); 1,210 staff (31 May 2026). Solar SKUs: GTI 1-6 kW 1-ph / 5-30 kW 3-ph (10-yr, BIS, up to 98.6%), 550 Wp Mono PERC bifacial DCR + non-DCR, 180 Wp TOPCon, off-grid PWM/MPPT PCUs, ST solar tubulars. Day-1 file 14 Sep 2026: **7/10 HOT**, ~36 ads, Website dest, Rs.20 L+/mo est., pitch_fit HIGH (D2C / CPL-ROAS).

Live check 14 Sep 2026: okaya.co.in did not load. Brand is okaya.in; cart is shop.okaya.in. Homepage carousel is shop / Power Pair combo / XBD / CBH / then solar (5th banner) / June shop / warranty. WhatsApp 9818909090 and care@okaya.in float on every page. Contact form is a country-code novel; counters on /contact-us/ render **0k+ / 0+** while /about-us/ has 110M+. IG live is @okayapowerofficial (24k / 1,369) - Day-1 @okayapower is stale. LinkedIn /company/okayapowergroup ~38k. YouTube UC6-AG5NH1wnXA7u56JE6Lgg ~7.8k.

Day-1 leak, confirmed on the SKU the ads should sell: /solar-solution hub FAQ Q6 names PM Surya Ghar (Rs.30k/kW, Rs.18k/kW, cap Rs.78,000) and hedges MNRE/DISCOM - good. The 3 kW GTI PDP (Rs.86,400, the subsidy sweet-spot inverter) has **zero subsidy copy**. Shop DCR 550 Wp (Rs.18,750) says 'tenders / government' not PM Surya Ghar. GTI listing FAQ is efficiency/warranty, not CFA. Plus: UPS homepage for solar spend, Enquire # not WhatsApp, shop warranty 30 months vs brand 144/12-year, TOPCon 28.8% claim vs 180 Wp FAQ, 3 kW and 3.4 kW same price, related products labelled '3kW (Ah)'. All fixable in 14 days. *Ad counts are Day-1 estimates. Never promise subsidy approval on a component sale.*

1. AD INTELLIGENCE

Active platforms	Meta primary. Day-1 dest = Website. Live: okaya.in (content) + shop.okaya.in (Magento cart, 33 solar SKUs). WA widget 9818909090 on every page, not the ad CTA. Amazon inverter/battery combos (ATSW 1175 combo ~4.4/165). LinkedIn posts amzn.to. IG @okayapowerofficial. FB/X @OkayaPowerGroup. YouTube Okaya Power Official ~7.8k.
Active ads (est.)	~36 creatives by Day-1 signature, spend Rs.20 L+/mo est. Verify Meta Ad Library India (active) + Google Ads Transparency for okaya.in (okaya.co.in is dead). Do not quote 36 as a hard number. Split UPS vs solar before quoting ROAS.
Offer / SKUs (14 Sep)	GTI 3 kW / 3.4 kW both Rs.86,400; 5 kW 1-ph Rs.1,34,400; 5 kW 3-ph Rs.1,56,000; 8 kW Rs.2,40,000; 10 kW Rs.2,59,200; 15 kW Rs.3,49,200. 10-yr / BIS / IP65. 550 Wp DCR Rs.18,750 vs non-DCR Rs.37,400 (shop). 180 Wp TOPCon Rs.10,000. Off-grid PCU 13 SKUs. ST solar batteries from Rs.5,690 (40 Ah). Shop: Fast & Free Delivery, Free Installation = No on DCR panel.
Funnel / CRO (14 Sep)	Solar ad -> UPS-first homepage (shop, combo, XBD, CBH). Solar hub /solar-solution is copy+FAQ. SKU listing has prices. PDP CTA = Enquire now (#, no form). Shop = Add to Cart + pincode gate + 0 reviews on DCR panel. Contact = General/Product/Distributor/Dealer + full country list. Load calculator lives on shop, UPS-style.
Subsidy (Day-1 confirmed on PDP) leak,	Hub Q6: full CFA table + DCR + 'confirm with MNRE/DISCOM'. Panel FAQ Q2: DCR required for PM Surya Ghar, no rupee. GTI 3 kW PDP: no scheme, no Rs.78,000, no DCR pairing (6 x 550 Wp). Shop DCR badge = tenders, not residential CFA. Honest line: 'DCR 550 Wp + 3 kW GTI can sit in a PM Surya Ghar system via an MNRE installer. Okaya does not approve subsidy.'
Copy / trust nicks	Contact 0k+ dealers vs About 32k. Shop DCR warranty 30 months vs brand 144 months / 12-yr product + 30-yr performance. TOPCon 'up to 28.8%' on category vs 180 Wp / 5-yr in FAQ. 'ost-effective', 'Experience', 'Okaya'sTOPCon'. Related GTI cards say '3kW (Ah)'. Homepage link /solar-solutions vs live /solar-solution. Catalogue Download Now = #.

2-5. CREATIVE / COPY / CRO / TRACKING SCORES

Subsidy & Scheme Clarity

4/10

WhatsApp / Speed-to-Lead		5/10
Social Proof (Installs)		4/10
Creative (Video/Reels)	Variety	4/10
Landing Page & Form CRO		3/10
Tracking & Retargeting		4/10

- **Subsidy leak on the actual product page (Day-1, confirmed 14 Sep 2026):** /solar-solution FAQ Q6 is one of the better CFA write-ups in this lead list (Rs.30,000/kW, Rs.18,000/kW, cap Rs.78,000, GHS/RWA, DCR, confirm MNRE/DISCOM). Nobody who clicked a 3 kW GTI ad sees it. okaya.in/product/solar-gti-3kw-p1 is Rs.86,400, 10-year, MPPT, Enquire # - zero scheme copy. Shop DCR 550 Wp (the panel that makes a 3 kW kit subsidy-eligible) says 'tenders and government projects', not PM Surya Ghar. Put a DCR + 'usable in a PM Surya Ghar system by an MNRE installer' badge on GTI 3 kW, GTI 3.4 kW and OP144MHB550W-DCR. Never print Rs.78,000 as an Okaya discount.

- **Wrong landing for solar spend:** okaya.co.in is dead. okaya.in hero is shop, inverter-battery combo, XBD, CBH, then solar. Shop featured grid is ST batteries and OPTT tubulars. Rs.20 L+/mo of 'Okaya Power' / solar clicks are buying UPS traffic. Destination = Website. WhatsApp 9818909090 already floats. Make /solar-solution or shop/solar-solution.html the ad URL; CTA = Send WhatsApp Message or Add to Cart, not Enquire #.

- **Shop vs brand is a return machine:** Brand listing: 550 Wp warranty 144 months. Shop DCR PDP: Warranty (In Months) = 30. Brand FAQ: 12-year product + 30-year performance. Shop 180 Wp TOPCon: 15 months. Free Installation = No. 3 kW and 3.4 kW GTI are the same Rs.86,400. Related products labelled capacity '3kW (Ah)'. Align one warranty table or the first Amazon/shop review will do it for you.

- **0+ counters and a 110M claim on the same domain:** /contact-us/ renders 0k+ dealer network, 0+ years of Experience (typo), 0+ sales team, 0+ warehouses. /about-us/ has 110M+, 32k dealers, 24+ years, 700+. Paid landings that show zeros read as a dead brand (same Fenice/Freyr leak). Hard-code the about numbers or drop the widgets.

- **WhatsApp is a chip, not the funnel:** Day-1 dest = Website. Widget is 'Chat with us' / wa.me/9818909090. PDP Enquire now is a hash. Contact is Product Enquiry + state + international dial codes. 9pm '3 kW kit kitna?' will WhatsApp a dealer. Ad CTA = sales WhatsApp; 3-field (pincode, phone, SKU); shop ATC for batteries/PCUs that actually ship.

- **Amazon and UGC unused on solar:** Inverter+battery combos already sell on Amazon at ~4.4. LinkedIn already dumps to amzn.to. Solar GTI/DCR panel on shop have 'Be the first to review'. Corporate video and CBH/XBD ads are UPS. 10 rooftop Reels (DCR 6-panel 3 kW kit, app monitoring, dealer install) + Buy-on-Amazon for SKUs that exist there. Split UPS budget from solar budget so solar ROAS is not diluted by OPTT clicks.

- **Spec / claim nicks:** Category copy 'TOPCon up to 28.8%' is cell-lab territory, not a 180 Wp module. FAQ contradicts itself (TOPCon = 180 Wp compact vs 550 Wp Mono PERC). 'ost-effective'. Catalogue buttons go to #. Homepage /solar-solutions vs /solar-solution. DCR Rs.18,750 vs non-DCR Rs.37,400 needs a one-line why or it looks like a pricing error.

6. COMPETITOR BENCHMARK

Competitor	What they do better	Signal for Okaya
Luminous / Microtek / Livguard	Solar is a first-class Amazon + dealer category. Microtek's leak was no marketplace CTA; they still out-rank you on 'solar inverter' search. Luminous wins service-network comparisons.	You already have shop.okaya.in and Amazon combos. Put Buy-on-Amazon + DCR badge on the 3 kW GTI ad. Stop sending solar to a UPS homepage.
Growatt / Solis / Sungrow	Solar-native. 'Best 3 kW inverter 2026' lists are subsidy + warranty + monitoring. Okaya is not on those lists.	Your 3 kW GTI is priced (Rs.86,400) and 10-year. That is the list. Lead the ad with 3 kW + DCR 550 Wp kit, not XBD tubular.
Waaree / Tata Power Solar	Brand-level DCR + PM Surya Ghar in the nav. City installers. Buyers who fear 'inverter company doing solar' default here.	Lead with DCR OP144MHB550W + MNRE-installer pairing. Do not pretend Okaya approves CFA.
Okaya vs Okaya (shop)	Brand site says 12-year / 144 months. Shop says 30 months. Zero reviews. Pincode gate. That PDP is the competitor.	One warranty number. One DCR story. Reviews on the 3 kW and 550 Wp SKUs before you scale the 36 ads.

7. 3 QUICK WINS (Implement in 7 Days)

WIN 1 - 48 hours: DCR + Rs.78,000 module on 3 kW GTI / 550 Wp PDPs, solar landing, WhatsApp CTA

On solar-gti-3kw-p1, 3.4 kW, and OP144MHB550W-DCR: 'DCR panel + 3 kW GTI can sit in a PM Surya Ghar system (eligible for up to Rs.78,000 via an MNRE installer). Okaya does not approve subsidy.' Hero of solar ads = that kit, not XBD. Ad URL = /solar-solution or shop/solar-solution.html. CTA = WhatsApp 9818909090 or Add to Cart. Fix contact 0+ counters. Expected: stop FAQ-only subsidy; 20-35% more qualified solar chats at the same spend.

WIN 2 - 7 days: One warranty table, kit SKU, split UPS vs solar

Align shop 30-month vs brand 144-month / 12+30 year. Explain DCR Rs.18,750 vs non-DCR Rs.37,400 in one line. Bundle: 6 x 550 Wp DCR + 3 kW GTI as a 3 kW residential kit with EMI. Kill 3 kW (Ah), ost-effective, Experience, 28.8% TOPCon, /solar-solutions 404, catalogue #. Separate Meta campaigns: Power Pair/UPS vs Solar. Expected: fewer returns; solar ROAS you can actually read.

WIN 3 - 14 days: Amazon + rooftop UGC + 60-day DPA

Syndicate Amazon 4.4 combo proof; get first reviews on shop GTI/DCR (login-wall is killing them). 10 Reels: 6-panel DCR roof, GTI app, dealer install, CBH is UPS-only so do not mix. Audiences: (i) solar LP no ATC/WA, (ii) 3 kW PDP no enquire, (iii) cart no buy - 60 days, DPA of live solar SKUs. Dealer ads to the 32k network for PM Surya Ghar installs (they close CFA, you sell the box). Expected: cheaper solar CPL; shop conversion; stop 110M claim being the only social proof on a 0-review PDP.

EXPECTED IMPACT

Metric	Current (est.)	After Wins	Impact
3 kW PDP names CFA/DCR	No (FAQ on hub only)	Badge on GTI + DCR SKU	Day-1 leak closed
Solar click landing	UPS homepage	/solar-solution + shop	Stop wasted solar spend
Ad CTA	Website / Enquire #	WhatsApp + ATC	Speed-to-lead
Shop vs brand warranty	30 mo vs 144 mo	One table	Fewer returns
Cost per solar lead	Diluted by UPS	Solar-only + DPA	ROAS you can defend

READY TO PLUG THESE LEAKS?

Smart Pursuit will run a **14-day solar D2C sprint** for Okaya: Rs.78,000 + DCR badge on the 3 kW GTI and 550 Wp PDPs (never as a product discount), solar landing not UPS homepage, WhatsApp 9818909090 as ad CTA, shop vs brand warranty fix, Amazon/DPA. Priced against **CPL and ROAS**, not impressions.
