01 METHOD

Dated public-evidence snapshot checked 04 October 2026. Meta evidence is cited by individual Library ID and advertiser/page ID; the selected cards are not an account-wide count. Public ad counts and rendered variants can change daily; recheck before relying on them. Meta search-type parameters can be ignored by the interface, so keyword results are not treated as page or advertiser proof. Bengaluru relevance is based only on explicit creative or first-party material; no audience targeting is inferred.

Contacts and offer details are taken from the brand's own website, help or corporate pages and remain routing contacts unless a buyer role is explicitly published. No private account, booking, order or analytics records were accessed. Spend, ROAS, CPA, conversion outcomes and event firing are marked unavailable or not measured. A public ad card or URL alone does not prove that tracking events fire.

02 THE AD ACCOUNT

Brand / website	Fish Mart · https://www.fishmart.online/
Local context	FishMart's own storefront describes the business as based in Bengaluru, Karnataka. The selected card promotes seafood and sends viewers to fishmart.online; its copy does not establish a service radius or ad targeting.
Selected Meta records	ID 530960299819710 (started 2025-04-15). Active on 04 Oct 2026; selected records only.
Google Ads	CHECKED — no domain-query results (not proof of no activity): India-region Google Ads Transparency domain view for fishmart.online returned zero results in this capture. This is a limited public query, not proof that the brand does not advertise or that no ads exist.
Published contact	holdingscitrine@gmail.com · Store contact mailbox shown in first-party indexed contact/structured data; verify before sending; no paid-media buyer is named. First-party Fish Mart homepage and categories-page indexed contact/structured-data snippets on 04 Oct 2026 list holdingscitrine@gmail.com and phone 7829857007. The static page extraction did not render the email, so this provenance is explicitly limited to the brand site's own indexed snippets; verify the route before sending.
Public-evidence fit	17 / 20 · 8.5 / 10 · Good public-signal fit. Triage of public paid, local, CTA, first-party and contact-route evidence only; not an effectiveness or revenue score.

03 FINDINGS

NOTE	01 The active seafood card links to the Fish Mart storefront under a different card label
source_ids: S1 observed: Library ID 530960299819710; page header Fish Mart; individual card label Quick Fish Shoppe links to facebook.com/fishmartindia; Active and Sponsored on 04 Oct 2026; started 15 Apr 2025; See Menu points to fishmart.online. checked: 04 OCT 2026	

The page link connects the card to the Fish Mart profile, while the card label differs. The card demonstrates a public seafood creative and route only, not an order or performance result.
NEXT CHECK · Re-open the card and confirm the page link and storefront path; with authorization, map the Library ID to the agreed order event and source-of-record.

NOTE	02 A first-party store contact is indexed but was not visible in static extraction
source_ids: S2, S3 observed: Fish Mart's own indexed homepage/categories contact block lists holdingscitrine@gmail.com, +91 7829857007 and a Jayanagar-area Bengaluru address; direct static extraction did not show the contact block. checked: 04 OCT 2026	

The source is the brand's own store site, but the contact provenance is weaker than a directly rendered email. The mailbox is not identified as a paid-media buyer.
NEXT CHECK · Open the first-party site/contact block in a normal browser and confirm the email before sending; ask for the measurement owner only if the route is appropriate.

NOTE	03 The Google domain query returned no result in this capture
source_ids: S4 observed: India-region domain view for fishmart.online returned zero results on 04 Oct 2026. checked: 04 OCT 2026	

A zero-result query does not prove that the brand does not advertise on Google.
NEXT CHECK · If revisited, check an individual creative and verify advertiser identity, brand content, destination and last-shown/status.

If access is authorized, align the event definition, date window, timezone, Library ID and the corresponding booking/order or CRM record. Do not infer an outcome from the public ad card.
