01 METHOD

Dated public-evidence snapshot checked 04 October 2026. Meta evidence is cited by individual Library ID and advertiser/page ID; the selected cards are not an account-wide count. Public ad counts and rendered variants can change daily; recheck before relying on them. Meta search-type parameters can be ignored by the interface, so keyword results are not treated as page or advertiser proof. Bengaluru relevance is based only on explicit creative or first-party material; no audience targeting is inferred.

Contacts and offer details are taken from the brand's own website, help or corporate pages and remain routing contacts unless a buyer role is explicitly published. No private account, booking, order or analytics records were accessed. Spend, ROAS, CPA, conversion outcomes and event firing are marked unavailable or not measured. A public ad card or URL alone does not prove that tracking events fire.

03 FINDINGS

NOTE	01 The active Koramangala card exposes a Maps route, not a measured visit
source_ids: S1 observed: Library ID 1976436179706369; page NATUF (293220663873617); Active and Sponsored on 04 Oct 2026; started 24 Jul 2026; copy names Natuf Cafe, Koramangala, Bengaluru; See Details links to a Maps short URL. checked: 04 OCT 2026	

The individual card supports a public placement and a visible Maps next step only. It does not establish audience geography, store visits, online orders or event firing.

NEXT CHECK · Re-open the individual card and short link; if authorized, map the card ID to a defined store-visit or order event and its source-of-record.

NOTE	02 First-party contact and D2C context are available
source_ids: S2, S3 observed: NATUF's Contact page publishes hello@natuf.in and an Electronic City, Bengaluru address; the first-party shop shows Bangalore-only product availability labels. checked: 04 OCT 2026	

These pages establish a published routing contact and local business context, not paid-media ownership or sales performance.

NEXT CHECK · Recheck the contact route and current product availability before outreach; ask the recipient to forward the note to the measurement owner.

NOTE	03 The Google domain result is not attributable to NATUF
source_ids: S4, S5 observed: The natuf.com query returned one result under verified Ardelle Foods Private Limited; the opened creative was last shown 10 Sep 2026 and marked removed, without NATUF-identifying content. checked: 04 OCT 2026	

A domain match or mixed advertiser result does not establish a NATUF creative. No Google activity is attributed to the brand.

NEXT CHECK · If revisited, open a specific current creative and confirm its named advertiser, brand-identifying content, destination and last-shown/status fields.
