01 METHOD

Dated public-evidence snapshot checked 04 October 2026. Meta evidence is cited by individual Library ID and advertiser/page ID; the selected cards are not an account-wide count. Public ad counts and rendered variants can change daily; recheck before relying on them. Meta search-type parameters can be ignored by the interface, so keyword results are not treated as page or advertiser proof. Bengaluru relevance is based only on explicit creative or first-party material; no audience targeting is inferred.

Contacts and offer details are taken from the brand's own website, help or corporate pages and remain routing contacts unless a buyer role is explicitly published. No private account, booking, order or analytics records were accessed. Spend, ROAS, CPA, conversion outcomes and event firing are marked unavailable or not measured. A public ad card or URL alone does not prove that tracking events fire.

03 FINDINGS

NOTE	01 The selected card's delivery line is creative copy, not a measured outcome
source_ids: S1 observed: Library ID 1471457201452711; page Swish Now (376986995505672); Active and Sponsored on 04 Oct 2026; started 12 Aug 2026; copy says 'serving fresh food in 10 minutes (or less)'. checked: 04 OCT 2026	

The card establishes a public sponsored placement and the exact wording shown. It does not validate delivery times, conversions, audience, spend or ROAS.

NEXT CHECK · If the team wants a measurement review, compare the approved delivery-time definition with internal order timestamps only if authorized; do not use the ad copy as a measurement.

NOTE	02 The captured Learn more CTA has no public order destination
source_ids: S1, S2 observed: The selected card shows a Learn more label; the static capture did not expose a brand/app/order destination. The official homepage publishes support@justswish.in and a Bengaluru origin statement. checked: 04 OCT 2026	

No order flow or event can be inferred from a label whose final destination is not visible. The contact route is not identified as a paid-media owner.

NEXT CHECK · Re-open the current card in a normal browser and confirm the destination; ask support to route the note to the paid-media measurement owner.

NOTE	03 The Google domain query returned no result in this capture
source_ids: S3 observed: India-region domain view for justswish.in returned zero results on 04 Oct 2026. checked: 04 OCT 2026	

Zero results in one public view are not evidence that the brand does not advertise on Google.

Public CTA visibility	A visible public next step or destination; not a conversion.
First-party coverage	Breadth of official product, store, contact or corporate evidence reviewed.

ACCOUNT-SIDE VALIDATION CHECKLIST

Outcome definition	Name the event or business outcome, its counting rule and any deduplication rule before comparing systems.

Path mapping	Trace the selected Library ID through the visible click route to the brand's own booking, enquiry or order record where applicable.
Reconciliation	Keep platform, analytics and CRM/order data side by side until event definitions and windows are comparable; do not add incompatible totals.

05 NEXT STEPS

Suggested effort labels are planning aids only. First re-open the dated public sources; then use internal account/CRM/order records only if the company chooses to share them.
