Report generated 3 October 2026

CONTENTS

What is in this report

01	How this audit was produced Sources, method and the limits of what was measured
02	The ad account Live paid inventory and measurement surface as measured on the crawl date.
03	Findings 6 issues, each with the measurement behind it
04	Opportunity score Five weighted dimensions, scored from measured values only
05	Suggested next steps Ordered by effort against likely impact

01 METHOD

How this audit was produced

- Paid inventory was read from public advertising transparency surfaces on 3 October 2026: the Google Ads Transparency Center (region: India) and the Meta Ad Library (country: India). Ad counts are live counts for the brand term on the day of the crawl.
- The website's platform, response headers, redirect chain and measurement tags were inspected live on 3 October 2026 on the site root of milletamma.com. Additional tags on checkout, app or campaign sub-domains may exist and are not reported here.
- Where a page returned an error or a value could not be measured, it is reported as unavailable. Nothing has been inferred to fill a gap.
- Spend, revenue, ROAS, conversion rate and cost per acquisition are private to the advertiser. They were not estimated, and are marked unavailable throughout.
- This is a one-day snapshot. Ads paused, tags changed or campaigns launched after 3 October 2026 are not reflected.

02 LIVE PAID INVENTORY DATA

The ad account

Google creatives live	80 creatives live on 3 October 2026 under URBAN MONK PRIVATE LIMITED (identity verified by Google) — the same legal entity named in the site's own terms page — including video, local and display formats
Ad platforms observed	Google (Ads Transparency Center, region India) · Meta (Ad Library, country India)
Google creative inventory	80 creatives live on 3 October 2026 under URBAN MONK PRIVATE LIMITED (identity verified by Google) — the same legal entity named in the site's own terms page — including video, local and display formats
Meta ads	brand-owned creative verified by library ID 1355783896518419 (running since 7 July 2026, Raagi Laddoo, landing milletamma.com/products/ragi-laddo-300g); the keyword count for the brand term is ≈39 and includes unrelated advertisers, so the verified ID is what this report relies on
Measurement tags	GA4 G-WH82716CE0 · GA4 G-N659GJMWCX · Google Ads AW-378561932 · Shopify · Shiprocket
Site platform	Shopify; Cloudflare in front; HSTS present
Published contact	eatright@milletamma.com (cart and collection pages) · orders@milletamma.com (terms-of-service page) · +91 7624979333
Published address	No. 12, K 345, Yemalur Main Road, HAL Airport Area, Bellandur, Bengaluru, Karnataka 560037 (the storefront's 'Get in touch' block)
Bengaluru relevance	the brand's own published address is in Bellandur, Bengaluru 560037

Broken paths observed	/pages/faq · /pages/store-locator · /pages/bulk-enquiry · /pages/corporate-gifting → all 404 on 3 October 2026
Spend · ROAS · CPA	unavailable (private to the advertiser)
Crawl date	3 October 2026

COVERAGE

What was measured, and what was not

SURFACE	STATUS	METHOD
Google creative inventory	MEASURED — 80	Google Ads Transparency Center (region India), 3 October 2026
Meta ad inventory	MEASURED — verified ad by ad	Meta Ad Library (country India), 3 October 2026
Measurement tags	MEASURED — GA4 G-WH82716CE0 · GA4 G-N659GJMWXCX · Google Ads AW-378561932 ...	HTML inspection of the site root, 3 October 2026
Site platform and headers	MEASURED	Live HTTP response of the site root, 3 October 2026
Checkout and order flow	NOT MEASURED	outside the site root; not crawled
Ad spend, ROAS, CPA	UNAVAILABLE	private to the advertiser; no public source
Published commercial figures	MEASURED	the brand's own published pages and results, as reported

Surfaces marked NOT MEASURED are outside the scope of a public crawl. They are listed so the reader can see exactly where this report's knowledge stops — no value has been estimated to fill them.

03 6 ISSUES, RANKED BY SEVERITY

Findings

HIGH

1. Two GA4 properties are live on the same storefront

```
analytics id 1: G-WH82716CE0
analytics id 2: G-N659GJMWXCX
both present in the same page source, milletamma.com, 3 October 2026
google ads tag: AW-378561932 (id=AW-378561932 appears in gtag config)
```

Two measurement IDs means the same session is being counted twice, and whichever report you read will disagree with the other. Usually this is a leftover from a rebuild or an agency handover. Consolidating to one property — with a redirect on the unused ID — restores a single source of truth in an hour.

MEDIUM

2. An archived local-ad creative still carries Google's removal notice — and the advertiser's template text

```
advertiser: URBAN MONK PRIVATE LIMITED (Verified)
creative: CR03268659855321202689 — Local Ad Rendering Service
Google's archive states: 'Last shown: Jul 15, 2026' and 'Removed for a policy violation'
visible template residue in the same creative: '{Keyword:Millet Amma}' and ' · · Bengaluru'
the ad is not live: Google's archive shows it as removed
```

This is read straight from Google's public archive and is not an accusation — local ads come from store listings and get pulled for all sorts of rendering reasons. What matters is the discipline: the archive is the first thing a curious customer or partner sees, and it currently shows a stopped creative with a template placeholder still visible. Cleaning the local-ad set removes the ambiguity.

MEDIUM

3. A permanent discount banner sits above everything

site-wide banner (verbatim, 3 October 2026): 'Our Biggest Sale Yet: Up To 20% Off + Free Prepaid Shipping.' observed on the home, cart, contact, shipping-policy and terms pages

A 'biggest sale yet' that never ends teaches the customer to wait for the next one. The offer also does the job of the homepage headline — millets, farm sourcing and the Shark Tank story are stronger reasons to buy than 20% off. Rotate the banner and let the product story breathe; the discount is a lever to keep, not to leave on.

MEDIUM

4. Four standard storefront paths return 404

GET https://milletamma.com/pages/faq → 404
 GET https://milletamma.com/pages/store-locator → 404
 GET https://milletamma.com/pages/bulk-enquiry → 404
 GET https://milletamma.com/pages/corporate-gifting → 404
 (3 October 2026)

FAQ and bulk/corporate enquiry are the two that cost money. A millet brand has a natural corporate-gifting and bulk-institutional pitch, and there is currently no page to land it on — while the discount banner does the persuading.

LOW

5. Meta creative is running for seven months on one product story

library ID 1355783896518419 — running since 7 July 2026
 copy: 'A sweet that feels like home, without the refined sugar... Raagi Laddoo is made with raagi, jaggery, Desi Gir cow milk ghee'
 landing: milletamma.com/products/ragi-laddo-300g

A direct-response creative that has survived seven months is doing its job, and the copy is genuinely good — ingredients, no refined sugar, an emotional hook. The risk is fatigue: the same text and image for that long normally means the frequency is high and the incremental reach is low. It is worth systematically rotating the visual while keeping the winning copy.

NOTE

6. The Shark Tank credential is a paid-media asset that is not in the paid copy

site footer: 'Watch us on Shark Tank India'
 Meta creative sampled: product story only, no broadcast reference
 Google local creative: product story only

A national TV credential is free trust and it is currently only on the site. Testing it in the first line of a Meta hook is a small change with a clear read after two weeks.

03 FINDINGS · EVIDENCE REGISTER

Where every number in this report came from

MEASUREMENT	SOURCE	VALUE OBSERVED	DATE
Google creatives	Google Ads Transparency Center (region India)	80 creatives live on 3 October 2026 under URBAN MONK PRIVATE LIMITED (identity verified by Google) — the same legal entity named in the site's own terms page — including video, local and display formats	3 October 2026
Meta ads	Meta Ad Library (country India)	brand-owned creative verified by library ID 1355783896518419 (running since 7 July 2026, Raagi Laddoo, landing milletamma.com/products/ragi-laddo-300g); the keyword count for the brand term is ≈39 and includes unrelated advertisers, so the verified ID is what this report relies on	3 October 2026
Measurement tags on the site root	HTML inspection of the site root	GA4 G-WH82716CE0 · GA4 G-N659GJMWXCX · Google Ads AW-378561932 · Shopify · Shiprocket	3 October 2026

SP SMART PURSUIT			MILLET AMMA
Published contact	The brand's own contact and policy pages	eatright@milletamma.com (cart and collection pages) · orders@milletamma.com (terms-of-service page) · +91 7624979333	3 October 2026
Ad spend / ROAS / CPA	No public source exists	unavailable — not estimated	3 October 2026
Published commercial figures	The brand's own published pages and results	eatright@milletamma.com (cart and collection pages) · orders@milletamma.com (terms-of-service page) · +91 7624979333	3 October 2026

Every row above is a readable public surface. Where a row reads unavailable or not measured, that is exactly what was found — the report does not substitute an estimate.

04 SCORED FROM MEASURED VALUES ONLY

Opportunity score

Measurement integrity Two GA4 properties live at once; Ads tag confirmed.		2 / 4
Conversion observability Shopify plus Shiprocket; Meta creative measurable by ID and landing page.		3 / 4
Brand consistency Strong product story and entity disclosure; discount banner dilutes it.		3 / 4
Technical health Four dead paths; local-ad archive carries a removal notice.		3 / 4
Commercial fit 80 live Google creatives plus working Meta, in a category with real tailwind.		4 / 4

OVERALL

15 / 20

5 of 5 dimensions scored

B — the most active account in this batch, with a duplicated measurement layer

QUALIFICATION

Read this before acting on it

Public surfaces only. The policy-removal notice quoted above is Google's own text on an archived creative — it is reported as an observation, not as a finding against the brand. Spend, ROAS and conversion rates are not scored. Both ad counts are one-day snapshots and Meta keyword counts include third-party inventory.

05 ORDERED BY EFFORT AGAINST IMPACT

Suggested next steps

1

LOW EFFORT · IMMEDIATE BENEFIT

Consolidate the two GA4 properties

Pick one, redirect the other, and re-check that events still fire. One hour, and it ends the double-counting.

2

UNDER AN HOUR

Rebuild the four missing pages

FAQ, store locator, bulk enquiry, corporate gifting. The bulk and corporate pages have direct revenue attached to them.

3

HALF A DAY · BIGGEST SINGLE WIN

Retire the permanent sale banner and test the Shark Tank hook

Let the product story carry the homepage, and put the broadcast credential into the first line of the next Meta test.

NEXT STEP

Happy to walk through any of this on a short call.

7095024220

Nothing here requires new tooling. The first items are configuration, not rebuilds.

ABOUT THIS REPORT

Prepared by Smart Pursuit for Millet Amma. Every figure was read from a public surface on 3 October 2026 — the Google Ads Transparency Center, the Meta Ad Library, and the brand's own website and published pages.

HOW TO CHECK IT

Each finding quotes the raw measurement above it. Ad counts can be re-checked by domain in the Google Ads Transparency Center (region: India), and tag IDs by opening the site and searching the page source. Spend, ROAS and CPA are private to the advertiser, so they are marked unavailable rather than estimated.
