EXECUTIVE SUMMARY

Freyr Energy Services Pvt Ltd (KKR Square, Kavuri Hills, Hyderabad) is one of India's best-run residential rooftop brands. Founded 2014 by Saurabh Marda and Radhika Choudary. Series B, ~\$13.8M across 7 rounds (Schneider, C4D, DOEN; venture debt Jun 2026). ~497 staff (Jul 2026). Tracxn FY25 revenue band Rs.100-500 Cr. Claims **20,000-21,000+ customers, 150+ MW, 12 years, top-3 organised residential rooftop (Jun 2026)**, #1 Telangana. MNRE-empanelled (vendor code HYB2405060804). Day-1 file 14 Sep 2026: **7/10 HOT**, ~23 ads, WhatsApp destination, Rs.3-8 L/mo est., pitch_fit HIGH.

Live check 14 Sep 2026: freyrenergy.com is up and, unlike Fenice / Sunlit / Arka, the hero already does the hard thing: **'Save Rs.1 Lakh' = Rs.78,000 government subsidy + Rs.22,000 Freyr discount**, 4.7 Google / 4,473-4,628 reviews, EMI from Rs.1,466, self-cleaning sprinklers, app, 1-year insurance to Rs.3 L. Hyderabad city page prices 3 kW at Rs.2.30-2.40 L before subsidy. Phone +91 90008 28333, info@freyrenergy.com. WhatsApp plugin exists on /contact-us/.

This is not a 'you forgot Rs.78,000' audit. The leaks are downstream of a working offer: (1) the mid-page calculator gives price, subsidy and EMI with no phone capture - Day-1 leak confirmed; (2) the quote is an 8-field 3-step form (name, mobile, property, bill, email, state, city, financing) while Day-1 ads are WhatsApp; (3) homepage counters render **0+** on a brand that claims 21,000 customers; (4) the form only serves 6 states (TS, AP, MH, MP, UP, Kerala) so India-wide Meta buys unservable clicks; (5) 235 one-star Google reviews (~5%) in Jul 2026 cite DISCOM feasibility after 100% payment (Kerala/KSEB) and delivery/cash issues (Anantapur) - ads are winning the click, ops is taxing the 4.7. All five are fixable in 14 days. *Ad counts are Day-1 estimates - verify in Meta Ad Library before quoting.*

1. AD INTELLIGENCE

Active platforms	Meta primary. Day-1 destination = WhatsApp. Live site is form-first (hero 3-step quote + contact form). IG @freyr_energy. FB facebook.com/FREYRSOLAR. LinkedIn /company/freyr-energy-services. YouTube channel UC-QaO6foJa_WzztM6DF1bCw. X @FreyrEnergy ~259 followers, quiet. App: Play Store com.sunpro.freyrenergycx + iOS Freyr Energy App.
Active ads (est.)	~23 creatives by Day-1 signature, spend Rs.3-8 L/mo est. (likely low for Series B + 23 ads - verify). Check Meta Ad Library India (active) + Google Ads Transparency (freyrenergy.com) before pitching. Do not quote 23 as a hard number.
Offer (this is working)	Hero: Save Rs.1 Lakh = Rs.78,000 CFA + Rs.22,000 Freyr discount on 3 kW+. EMI from Rs.1,466, tenure 6-120 months. Self-cleaning sprinklers. App + AI optimiser. 1-year insurance to Rs.3 L. 4.7 / 4,473+ Google. '1 in 3 customers is a referral.' Experience centres: Karimnagar, Vizag, Bhopal, Nellore, Khammam, Rajahmundry, Aurangabad, Vijayawada, Tirupati, Indore.
Funnel / calculator (14 Sep)	HERO form: name + 10-digit mobile first, then property type, bill band, email, state, city, financing (8 fields). MID-PAGE calculator: bill or kW -> Calculate Now with NO phone. Default 1 kW shows Rs.98,769 list, Rs.30,000+Rs.22,000 off, effective Rs.46,769, down payment Rs.9,354, EMI Rs.604 / 120 mo. Then 'Get a Free Quote Now'. That is the Day-1 leak: number without a lead.
Geo / serviceable	Quote form states: Telangana, Andhra Pradesh, Maharashtra, Madhya Pradesh, Uttar Pradesh, Kerala (contact form also lists Odisha). No Karnataka, Tamil Nadu, Gujarat. Official comparison page (11 Sep 2026) admits the 6-state footprint. India-wide Meta will buy KA/TN/GJ clicks they cannot install.
Proof + 2026 delivery	Allu Cinemas Kokapet 727 kW (May 2026) with sprinklers. CHIREC International School 550+ kWp. IOCL Varanasi + Guwahati 275 kW (Jul 2026). Trusted-by strip: REC, SECI, NHPC, Axis Bank, HP, Indian Oil, Shree Cement, APEPDCL. None of this is the residential ad. Hyderabad page copy error: 'Subsidy for solar panels in Andhra Pradesh' under Hyderabad price factors.

2-5. CREATIVE / COPY / CRO / TRACKING SCORES

Subsidy & Scheme Clarity		8/10
WhatsApp / Speed-to-Lead		5/10

Social Proof (Installs)		6/10
Creative (Video/Reels)	Variety 	5/10
Landing Page & Form CRO		4/10
Tracking & Retargeting		5/10

- **Calculator leak (Day-1, confirmed 14 Sep 2026):** The hero quote captures name+mobile. The mid-page 'Calculate Your Savings' widget does not. A user can see list price, subsidy+discount, effective cost and a 120-month EMI without giving a phone number, then leave. In rooftop solar that is the highest-intent moment ('kitna padega?'). Gate the result: 3 fields (city, phone, monthly bill) THEN the number. Keep the hero form; stop the ungated widget from being a self-serve bounce.

- **WhatsApp vs 8-field form:** Day-1 lists destination = WhatsApp. Live primary path is a 3-step quote (name, mobile, property, bill, email*, state, city, financing). Email is required. Contact page repeats it and adds Odisha. A click-to-WhatsApp chip exists only on /contact-us/ (9000828333 / 7032541991). 9pm TSSPDCL questions will not finish an 8-field form. Make Send WhatsApp Message the ad CTA; keep the form as a secondary capture.

- **0+ counters on a 21,000-customer homepage:** Happy Customers / Projects Executed / MW / years / Rs. Cr saved all render 0+ (JS counters not firing). Same bug Fenice has. On a paid landing this reads as a dead brand. Hard-code 20,000+ / 150+ MW / 12 years or fix the script. The 4.7 badge is above; the zeros are below - they cancel each other.

- **Geo waste:** Serviceable form = TS, AP, MH, MP, UP, Kerala. India-wide Meta (23 creatives est.) will pay for Bangalore / Chennai / Ahmedabad clicks that the form cannot even select. Geo-split campaigns to the 6 states + exclude the rest. Experience-centre cities (Karimnagar, Vizag, Bhopal, Nellore, Khammam, Rajahmundry, Aurangabad, Vijayawada, Tirupati, Indore) should each have a city landing, not one homepage.

- **Ops / review leak (this is the expensive one):** 4.7 from 4,473-4,628 reviews is an asset. 235 one-stars (~5%) are a campaign. Jul 2026 Google: (a) Kerala - KSEB transformer full, site 'not feasible' AFTER 100% payment and install; (b) Anantapur - Rs.15k token 11 May, Rs.1,59,599 cash 3 Jun, material 15 Jul vs promised 10 days, incomplete install photographed as complete; (c) app hid payment history after pay-in-full. You claim 1-in-3 is referral. One-stars kill that. Feasibility with DISCOM before collecting 100% is a process fix that also becomes a trust ad ('we confirm TSSPDCL/KSEB slot before you pay').

- **Copy / compliance nicks:** 'Save Rs.1 Lakh' stacks Rs.78,000 CFA with a Rs.22,000 Freyr discount - say which is government. Never promise subsidy approval/timeline. Hyderabad city page lists 'Subsidy for solar panels in Andhra Pradesh' as a price factor - TSSPDCL buyers will bounce. Homepage duplicates 'Why Choose Us' three times and typos 'quotaions' / 'Anantapu'. Insurance hero is 1 year / Rs.3 L on a 25-year plant - fine if labelled, misleading if not.

6. COMPETITOR BENCHMARK

Competitor	What they do better	Signal for Freyr
SolarSquare	4.8 Google / 15,000+ ratings. Savings-guarantee (GoodZero). City pages including markets Freyr does not serve (KA, TN, GJ). PM Surya Ghar in the nav. 1,092 Bangalore properties on the national portal (21 Apr 2026).	You already beat them on the Rs.1 Lakh hero. They beat you on review volume, city pages and a guarantee. Gate the calculator and add city landings in the 6 states before they take TS/AP.
Tata Power Solar / Solarroof	Brand-level DISCOM trust. Pan-India. Buyers who fear 'startup installer' default here after a 1-star Google thread.	Lead with MNRE code HYB2405060804 + TSSPDCL feasibility-before-pay. That is the Tata objection.
Local TS/AP EPCs	WhatsApp in <5 min, 3-field quote, owner on the survey. They lose on brand and lose on EMI; they win the 9pm 'kitna kharcha' that your 8-field form drops.	Ad CTA = WhatsApp. Form = 3 fields. Calculator result behind the phone.
Freyr vs Freyr (ops)	Your own Jul 2026 1-stars are the competitor. Ads promise 4 weeks roof-to-solar (Hindu/AP interview). Delivery and DISCOM slots are the gap.	A 'feasibility confirmed before 100% pay' creative is both a fix and a moat.

7. 3 QUICK WINS (Implement in 7 Days)

WIN 1 - 48 hours: Gate the calculator, WhatsApp as ad CTA, 3-field quote

Lock Calculate Now behind city + phone + monthly bill, then show subsidy + EMI (the number is the magnet - do not give it away). Hero stays 'Save Rs.1 Lakh' but spell out Rs.78,000 CFA + Rs.22,000 Freyr discount. Ad primary CTA = Send WhatsApp Message to 9000828333, not the 8-field form. Collapse the quote to 3 fields; email optional. Hard-code 20,000+ / 150+ MW so the 0+ counters die. Expected: recapture calculator bounces; 25-40% more qualified chats at the same spend.

WIN 2 - 7 days: Geo-split + city landings + Hyderabad copy fix

Restrict Meta to TS, AP, MH, MP, UP, Kerala (plus Odisha if you actually install). Exclude KA/TN/GJ. Ship landings for Hyderabad, Karimnagar, Vizag, Vijayawada, Pune, Lucknow, Kochi using the experience-centre photos you already shot. Fix the Hyderabad page line that cites Andhra subsidy. Kill the triplicated Why Choose Us block and the 'quotaions' typo. Expected: cheaper CPL from unservable geos; higher quote-to-survey in centre cities.

WIN 3 - 14 days: DISCOM-first ops creative + UGC + 60-day retargeting

Process: confirm TSSPDCL / APSPDCL / MSEDCL / KSEB feasibility before 100% collection (the Jul 2026 Kerala 1-star). Creative: 15 UGC Reels from the 4.7 pool + Allu Cinemas 727 kW / CHIREC 550 kWp as commercial proof. Audiences: (i) calculator start no phone, (ii) quote no survey, (iii) survey no order - 60 days. Never promise subsidy approval or DISCOM timeline. Expected: lead->survey 15-20% to 28-35%; stop the 4.7 from drifting; protect the 1-in-3 referral engine.

EXPECTED IMPACT

Metric	Current (est.)	After Wins	Impact
Calculator -> lead	Low (ungated result)	Phone before number	Stop self-serve bounce
Unservable geo clicks	IN-wide Meta	6-state only	CPL down, junk leads out
Cost per lead (Meta)	Rs.250-450	Rs.150-250	~40% cheaper
Lead -> site survey	15-20%	28-35%	WhatsApp in <5 min
Google 1-star rate	~5% (235/4.6k)	Process + reply	Protect 4.7 and referrals

READY TO PLUG THESE LEAKS?

Smart Pursuit will run a **14-day solar sprint** for Freyr Energy: gate the calculator, WhatsApp-first CTA, geo-split the 6-state footprint, fix the 0+ counters, and a review/ops retargeting layer. Priced against **cost per site survey and cost per install**, not impressions.
