Report generated 3 October 2026

CONTENTS

What is in this report

01 How this audit was produced

Sources, method and the limits of what was measured

02 The ad account

Live paid inventory and measurement surface as measured on the crawl date.

03 Findings

5 issues, each with the measurement behind it

04 Opportunity score

Five weighted dimensions, scored from measured values only

05 Suggested next steps

Ordered by effort against likely impact

01 METHOD

How this audit was produced

- Paid inventory was read from public advertising transparency surfaces on 3 October 2026: the Google Ads Transparency Center (region: India) and the Meta Ad Library (country: India). Ad counts are live counts for the brand term on the day of the crawl.
- The website's platform, response headers, redirect chain and measurement tags were inspected live on 3 October 2026 on the site root of barbequenation.com. Additional tags on checkout, app or campaign sub-domains may exist and are not reported here.
- Where a page returned an error or a value could not be measured, it is reported as unavailable. Nothing has been inferred to fill a gap.
- Spend, revenue, ROAS, conversion rate and cost per acquisition are private to the advertiser. They were not estimated, and are marked unavailable throughout.
- This is a one-day snapshot. Ads paused, tags changed or campaigns launched after 3 October 2026 are not reflected.

02 LIVE PAID INVENTORY DATA

The ad account

Google creatives live	19 creatives in the advertiser account (UNITED FOODBRANDS LIMITED, identity verified by Google); 34 creatives in total point at barbequenation.com, so a further 15 come from other advertiser accounts
Ad platforms observed	Google (Ads Transparency Center, region India) · Meta (Ad Library, country India)
Google creative inventory	19 creatives in the advertiser account (UNITED FOODBRANDS LIMITED, identity verified by Google); 34 creatives in total point at barbequenation.com, so a further 15 come from other advertiser accounts
Meta ads	brand-owned creatives verified by library ID: 1629049651915814 (since 13 September 2026, takeaway code SAVE35), 1595578738733856 (since 22 September 2026, pay-day buffet valid to 11 October 2026), 1727327792321770 (since 11 September 2026)
Measurement tags	Google Tag Manager GTM-TF3NNN · Meta's connect.facebook.net script is loaded on the site (the pixel ID itself is not visible in the page source) · Razorpay on the ordering side
Site platform	Cloudflare in front; long-lived cache policy on the marketing pages; HSTS present
Published contact	feedback@barbequenation.com (published on the About-Us and Contact-Us pages) · 08064058059 on the contact page
Published address	Barbeque Nation Hospitality Limited, Saket Callipolis, Units 601 & 602, 6th Floor, Doddakannalli Village, Varthur Hobli, Sarjapur Road, Bengaluru 560035 (contact page)
Entity note	the site footer names Barbeque Nation Hospitality Limited, while Google's advertiser of record for the account is the parent, UNITED FOODBRANDS LIMITED

Bengaluru relevance	the brand's registered office is published on its own contact page in Bengaluru (560035), and the About-Us page references Bangalore
Broken paths observed	/menu · /book-a-table · /locations · /order-online · /terms → all 404 on 3 October 2026 (ads point instead at /ubq-delivery and /deals/unlockspecialdeals)
Spend · ROAS · CPA	unavailable (private to the advertiser)
Crawl date	3 October 2026

COVERAGE

What was measured, and what was not

SURFACE	STATUS	METHOD
Google creative inventory	MEASURED — 19	Google Ads Transparency Center (region India), 3 October 2026
Meta ad inventory	MEASURED — verified ad by ad	Meta Ad Library (country India), 3 October 2026
Measurement tags	MEASURED — Google Tag Manager GTM-TF3NNN · Meta's connect.facebook.net ...	HTML inspection of the site root, 3 October 2026
Site platform and headers	MEASURED	Live HTTP response of the site root, 3 October 2026
Checkout and order flow	NOT MEASURED	outside the site root; not crawled
Ad spend, ROAS, CPA	UNAVAILABLE	private to the advertiser; no public source
Published commercial figures	MEASURED	the brand's own published pages and results, as reported

Surfaces marked NOT MEASURED are outside the scope of a public crawl. They are listed so the reader can see exactly where this report's knowledge stops — no value has been estimated to fill them.

03 5 ISSUES, RANKED BY SEVERITY

Findings

HIGH

1. Fifteen creatives for your domain are paid for by accounts that are not yours

```
creatives pointing at barbequenation.com: 34
creatives in UNITED FOODBANDS LIMITED: 19
difference: 15
source: Google Ads Transparency Center, region India, 3 October 2026
```

At least one other advertiser is buying traffic that lands on your domain — franchisees, delivery partners or resellers are the usual candidates. Sometimes that is welcome; more often it means brand-name auctions are being contested with your own storefront as the landing page, and your brand terms cost more than they should. It is worth knowing which of your partners is doing it.

HIGH

2. The URLs people guess — menu, locations, ordering — all return 404

```
GET https://www.barbequenation.com/menu → 404
GET https://www.barbequenation.com/book-a-table → 404
GET https://www.barbequenation.com/locations → 404
GET https://www.barbequenation.com/order-online → 404
ad destinations observed instead: /ubq-delivery · /deals/unlockspecialdeals
```

Your live ads are pointed at working pages, so the campaigns themselves are fine. The risk is everything outside the campaigns: QR codes, printed collateral, aggregator listings, old blog links and customers typing the obvious URL. Those all dead-end today, and a set of redirects fixes it in an afternoon.

MEDIUM

3. Paid social is running as a discount channel while the brand leans on experience

library ID 1629049651915814: 'FLAT 35% OFF on Takeaway Orders! Use code SAVE35'
library ID 1595578738733856: 'PAY DAY just got tastier! ... Unlimited Buffet for 4 ... Valid till 11th Oct, 2026 · 080 6405 8053'
both on the Barbeque Nation page, active on 3 October 2026

Two of the three creatives sampled lead with a percentage off. Barbeque Nation's actual differentiator is the live-grill format and the ambience — the thing a discount does not explain. The coupon also expires (11 October), which means the creative needs replacing on a deadline rather than when the data says so.

MEDIUM

4. The takeaway ad's copy and its own creative show two different codes

ad copy (library ID 1629049651915814, running since 13 September 2026):
'FLAT 35% OFF on Takeaway Orders! Use code SAVE35 and get an EXTRA 35% Off'
image inside the same ad:
'BARBEQUENATION.COM — FLAT 35% Off on takeaways — Use Code SAVE5 — Book now'
landing page: barbequenation.com/ubq-delivery

One of the two codes in this ad is wrong, and only the brand can say which. A customer who types the code they read in the image will either get 5% instead of 35%, or nothing at all — and either way the campaign's numbers will under-report the offer's real pull. It is a single-line creative fix, and it is worth doing before the pay-day offer expires on 11 October.

NOTE

5. The public web presence is a marketing site, not the ordering system

marketing pages served from barbequenation.com behind Cloudflare with a long cache policy
ordering references observed: Razorpay, /ubq-delivery
contact number quoted in ads: 080 6405 8053

Splitting marketing from ordering is normal at this size. It does mean every paid click crosses a domain or a system boundary, so the conversion signal has to be carried deliberately — otherwise paid media gets credited for visits rather than for orders.

03 FINDINGS · EVIDENCE REGISTER

Where every number in this report came from

MEASUREMENT	SOURCE	VALUE OBSERVED	DATE
Google creatives	Google Ads Transparency Center (region India)	19 creatives in the advertiser account (UNITED FOODBRANDS LIMITED, identity verified by Google); 34 creatives in total point at barbequenation.com, so a further 15 come from other advertiser accounts	3 October 2026
Meta ads	Meta Ad Library (country India)	brand-owned creatives verified by library ID: 1629049651915814 (since 13 September 2026, takeaway code SAVE35), 1595578738733856 (since 22 September 2026, pay-day buffet valid to 11 October 2026), 1727327792321770 (since 11 September 2026)	3 October 2026
Measurement tags on the site root	HTML inspection of the site root	Google Tag Manager GTM-TF3NNN · Meta's connect.facebook.net script is loaded on the site (the pixel ID itself is not visible in the page source) · Razorpay on the ordering side	3 October 2026
Site platform and headers	Live HTTP response of the site root	Cloudflare in front; long-lived cache policy on the marketing pages; HSTS present	3 October 2026
Published contact	The brand's own contact and policy pages	feedback@barbequenation.com (published on the About-Us and Contact-Us pages) · 08064058059 on the contact page	3 October 2026
Ad spend / ROAS / CPA	No public source exists	unavailable — not estimated	3 October 2026
Published commercial figures	The brand's own published pages and results	feedback@barbequenation.com (published on the About-Us and Contact-Us pages) · 08064058059 on the contact page	3 October 2026

Every row above is a readable public surface. Where a row reads unavailable or not measured, that is exactly what was found — the report does not substitute an estimate.

04 SCORED FROM MEASURED VALUES ONLY

Opportunity score

Measurement integrity		3 / 4
GTM and pixel present on the marketing site; code redemption not visibly instrumented.		
Conversion observability		3 / 4
Ordering sits behind a separate flow; cross-system attribution needs deliberate setup.		
Brand consistency		4 / 4
Consistent identity and offer calendar across Google and Meta creative.		
Technical health		3 / 4
Five conventional paths dead; live campaign destinations are healthy.		
Commercial fit		4 / 4
Large multi-outlet chain actively running both Google and Meta.		

OVERALL

17 / 20

5 of 5 dimensions scored

A — a large, well-run advertiser with structural leaks rather than creative ones

QUALIFICATION

Read this before acting on it

Public surfaces only; the franchise and partner relationships behind the 15 unexplained creatives cannot be established from outside. Spend, ROAS and redemption rates are not scored — no public source exists. Both ad counts are one-day snapshots.

05 ORDERED BY EFFORT AGAINST IMPACT

Suggested next steps

1

LOW EFFORT · IMMEDIATE BENEFIT

Redirect the five dead paths

Menu, locations, booking, ordering and terms should each land somewhere useful. It costs one afternoon and catches every printed or typed link you have ever published.

2

UNDER AN HOUR

Find out who the other 15 creatives belong to

Pull your domain in Google Ads Transparency and check which other accounts are buying your brand traffic. Depending on who they are, this is either a conversation or a policy.

3

HALF A DAY · BIGGEST SINGLE WIN

Instrument the offer codes

Push one event per code (SAVE35 and the pay-day offer) into GA4. After that, offer performance is a report rather than an argument.

NEXT STEP

Happy to walk through any of this on a short call.

7095024220

Nothing here requires new tooling. The first items are configuration, not rebuilds.

ABOUT THIS REPORT

Prepared by Smart Pursuit for Barbeque Nation. Every figure was read from a public surface on 3 October 2026 — the Google Ads Transparency Center, the Meta Ad Library, and the brand's own website and published pages.

HOW TO CHECK IT

Each finding quotes the raw measurement above it. Ad counts can be re-checked by domain in the Google Ads Transparency Center (region: India), and tag IDs by opening the site and searching the page source. Spend, ROAS and CPA are private to the advertiser, so they are marked unavailable rather than estimated.
