Report generated 3 October 2026

CONTENTS

What is in this report

01 How this audit was produced

Sources, method and the limits of what was measured

02 The ad account

Live paid inventory and measurement surface as measured on the crawl date.

03 Findings

6 issues, each with the measurement behind it

04 Opportunity score

Five weighted dimensions, scored from measured values only

05 Suggested next steps

Ordered by effort against likely impact

01 METHOD

How this audit was produced

- Paid inventory was read from public advertising transparency surfaces on 3 October 2026: the Google Ads Transparency Center (region: India) and the Meta Ad Library (country: India). Ad counts are live counts for the brand term on the day of the crawl.
- The website's platform, response headers, redirect chain and measurement tags were inspected live on 3 October 2026 on the site root of eatbetterco.com. Additional tags on checkout, app or campaign sub-domains may exist and are not reported here.
- Where a page returned an error or a value could not be measured, it is reported as unavailable. Nothing has been inferred to fill a gap.
- Spend, revenue, ROAS, conversion rate and cost per acquisition are private to the advertiser. They were not estimated, and are marked unavailable throughout.
- This is a one-day snapshot. Ads paused, tags changed or campaigns launched after 3 October 2026 are not reflected.

02 LIVE PAID INVENTORY DATA

The ad account

Google creatives live	29 creatives live on 3 October 2026 for eatbetterco.com under EAT BETTER VENTURES PRIVATE LIMITED (identity verified by Google); the advertiser account holds 27, and the sampled set is dominated by Product Listing Ads
Ad platforms observed	Google (Ads Transparency Center, region India) · Meta (Ad Library, country India)
Google creative inventory	29 creatives live on 3 October 2026 for eatbetterco.com under EAT BETTER VENTURES PRIVATE LIMITED (identity verified by Google); the advertiser account holds 27, and the sampled set is dominated by Product Listing Ads
Meta ads	NOT MEASURED — the phrase is built from generic words and the keyword search returns ~1,200 unrelated results, so no brand-specific inventory is reported here; the enquiry form does carry Meta pixel 3182482251838473 with a custom Lead event (page source, 3 October 2026)
Measurement tags	GA4 G-90QE4TSKTH · Google Ads AW-610414449 · Shopify · a Meta pixel ID (3182482251838473) is configured inside an embedded form on the storefront, with a custom Lead event on submit, and Judge.me is installed
Site platform	Shopify; Cloudflare in front; HSTS present
Published contact	care@eatbetterco.com (contact-us and refund-policy pages) · connect@gottaeatbetter.com (privacy and shipping-policy pages) · +91 9829188706
Published address	Eat Better Ventures Pvt Ltd, A1/A2, Vastushree Colony, 100 Feet Road, Manyawas, Mansarovar, Jaipur, Rajasthan 302020 (contact page)

Paths that work	/pages/contact-us → 200 · /pages/corporate-gifting → 200 · /policies/shipping-policy → 200
Published shipping terms	free above ■500 · prepaid shipping ■49 · cash-on-delivery ■79 · 'Most orders are delivered within 3 working days'
Corporate-gifting page (the brand's own published figures)	'10 LAKH+ hampers delivered pan-India · 500+ corporates & organizations · 25 hamper designs this Diwali', with hampers from ■249 to ■2,499
Bengaluru relevance	not claimed by the brand: the site publishes a Jaipur registered address and a national corporate-gifting page ('send to one office or a thousand people across the country'); no Bengaluru-specific statement appears in the 3 October 2026 capture. Listed and labelled honestly rather than presented as a Bengaluru brand.
Broken paths observed	/pages/contact → 404 · /pages/faq → 404 · /pages/about-us → 404 · /pages/store-locator → 404 · /pages/bulk-enquiry → 404
Spend · ROAS · CPA	unavailable (private to the advertiser)
Crawl date	3 October 2026

COVERAGE

What was measured, and what was not

SURFACE	STATUS	METHOD
Google creative inventory	MEASURED — 29	Google Ads Transparency Center (region India), 3 October 2026
Meta ad inventory	NOT MEASURED	Meta Ad Library (country India), 3 October 2026
Measurement tags	MEASURED — GA4 G-90QE4TSKTH · Google Ads AW-610414449 · Shopify · a Meta ...	HTML inspection of the site root, 3 October 2026
Site platform and headers	MEASURED	Live HTTP response of the site root, 3 October 2026
Checkout and order flow	NOT MEASURED	outside the site root; not crawled
Ad spend, ROAS, CPA	UNAVAILABLE	private to the advertiser; no public source
Published commercial figures	MEASURED	the brand's own published pages and results, as reported

Surfaces marked NOT MEASURED are outside the scope of a public crawl. They are listed so the reader can see exactly where this report's knowledge stops — no value has been estimated to fill them.

03 6 ISSUES, RANKED BY SEVERITY

Findings

HIGH

1. Your Shopping feed is advertising discounts of 1%, 2% and 6%

PLA badges captured from the ad archive (verbatim): '[-1%]' (quinoa chilli lime namkeen), '[-6%]' (better trail mix 100g), '[-2%]' (sweet crunchy nut mix 100g), '[-2%]' (ragi chips bundle)
landing URLs (verbatim, a Google ad click):
https://eatbetterco.com/products/quinoa-chilli-lime-healthy-namkeen?...&utm_medium=product_sync&utm_source=google&utm_content=sag_organic&utm_campaign=sag_organic
advertiser: EAT BETTER VENTURES PRIVATE LIMITED (Verified) · 27 creatives in the account, 29 pointing at the domain
source: Google Ads Transparency Center, region India, 3 October 2026

A '1% off' badge in a discovery feed does active harm: it reads as a discount and delivers a rounding error, which trains shoppers to scroll past the listing. Either the feed should show no discount at that level, or the price should be repositioned so the badge is meaningful. This is a feed-level change and it affects every Shopping impression.

HIGH

2. The support email on your policy pages belongs to a different domain

contact-us and refund-policy pages: care@eatbetterco.com
 privacy-policy and shipping-policy pages: connect@gottaeatbetter.com
 storefront: eatbetterco.com ('Eat Better Co - As seen on Shark Tank')

A customer who checks your refund policy and then writes to connect@gottaeatbetter.com has been sent to a domain they have never heard of — and if that domain's SPF/DKIM records are not aligned, some of those replies will land in spam. Standard practice is one support address on the store's own domain, with the second as a forwarding alias.

MEDIUM

3. Cash on delivery costs the customer ₹30 more than prepaid — and the ads do not say so

published terms (verbatim): 'Shipping is free for orders above Rs 500. Pre-paid shipping is Rs 49. Cash On Delivery shipping is Rs 79.'
 ad inventory sampled: product and price messaging only; no shipping or COD terms observed in the captured creatives

COD is the bigger margin risk (returns-to-origin) and the higher fee is a sensible nudge — but a nudge only works if the buyer sees it before they choose. Putting 'free shipping over ₹500' into the ad copy does two things at once: it raises average order value and it moves the payment choice in your favour.

MEDIUM

4. Five standard paths return 404 on a Shark Tank-credentialed store

```
GET https://eatbetterco.com/pages/faq → 404
GET https://eatbetterco.com/pages/about-us → 404
GET https://eatbetterco.com/pages/contact → 404
GET https://eatbetterco.com/pages/store-locator → 404
GET https://eatbetterco.com/pages/bulk-enquiry → 404
(3 October 2026)
```

National-TV exposure sends people looking for the brand's story and its people. Right now the two obvious URLs for that — about-us and faq — do not exist. The contact page that does work is the only one of the set, so at least support can be reached.

MEDIUM

5. Two measurement details decide what the paid data can actually tell you

feed tagging (verbatim from a Google ad click):
 ..quinoa-chilli-lime-healthy-namkeen?...&utm_medium=product_sync&utm_source=google&utm_content=sag_organic&utm_campaign=sag_organic
 embedded form configuration in the storefront source (verbatim):
 "facebook_pixel_id":"3182482251838473"
 after_submit_script: "if (typeof fbq !== 'undefined') { fbq('trackCustom', 'Lead'); } else { console.warn('Meta Pixel not loaded on this page'); }"
 after_submit_url: "https://eatbetterco.com/collections/diwali-gift-hampers-2026-collection"

Two separate things. First, the Shopping feed is writing 'sag_organic' into the campaign field, so every paid Shopping click is filed as organic traffic in GA4 — the channel comparison cannot be right while that is true. Second, a Meta pixel and a Lead event exist, but inside one embedded form rather than across the store: the form redirects to your Diwali hampers collection, which strongly suggests it is the enquiry form for that campaign. It works — but a Lead event that fires only from one form is a single point of failure, and it means the pixel cannot see any other page of the store.

NOTE

6. 'As seen on Shark Tank' is doing the positioning work on the storefront only

site title tag (verbatim): 'Eat Better Co - As seen on Shark Tank'
 PLA titles sampled: product-led, no broadcast reference

The credential is the strongest short trust signal available to a snack brand entering a crowded healthy-snacking category. It appears in the browser tab and nowhere in the advertising captured here. That is a cheap A/B test with a clear hypothesis behind it.

03 FINDINGS · EVIDENCE REGISTER

Where every number in this report came from

MEASUREMENT	SOURCE	VALUE OBSERVED	DATE
Google creatives	Google Ads Transparency Center (region India)	29 creatives live on 3 October 2026 for eatbetterco.com under EAT BETTER VENTURES PRIVATE LIMITED (identity verified by Google); the advertiser account holds 27, and the sampled set is dominated by Product Listing Ads	3 October 2026
Meta ads	Meta Ad Library (country India)	NOT MEASURED — the phrase is built from generic words and the keyword search returns ~1,200 unrelated results, so no brand-specific inventory is reported here; the enquiry form does carry Meta pixel 3182482251838473 with a custom Lead event (page source, 3 October 2026)	3 October 2026
Measurement tags on the site root	HTML inspection of the site root	GA4 G-90QE4TSKTH · Google Ads AW-610414449 · Shopify · a Meta pixel ID (3182482251838473) is configured inside an embedded form on the storefront, with a custom Lead event on submit, and Judge.me is installed	3 October 2026
Site platform and headers	Live HTTP response of the site root	Shopify; Cloudflare in front; HSTS present	3 October 2026
Published contact	The brand's own contact and policy pages	care@eatbetterco.com (contact-us and refund-policy pages) · connect@gottaeatbetter.com (privacy and shipping-policy pages) · +91 9829188706	3 October 2026
Ad spend / ROAS / CPA	No public source exists	unavailable — not estimated	3 October 2026
Published commercial figures	The brand's own published pages and results	care@eatbetterco.com (contact-us and refund-policy pages) · connect@gottaeatbetter.com (privacy and shipping-policy pages) · +91 9829188706	3 October 2026

Every row above is a readable public surface. Where a row reads unavailable or not measured, that is exactly what was found — the report does not substitute an estimate.

04 SCORED FROM MEASURED VALUES ONLY

Opportunity score

Measurement integrity

3 / 4

GA4 and Google Ads tags confirmed; no GTM container observed.

Conversion observability

3 / 4

Shopify with published shipping and COD terms; Meta not readable publicly.

Brand consistency

3 / 4

Strong credential, but two email domains in one funnel.

Technical health

2 / 4

Five dead paths; contact page live; HSTS present.

Commercial fit

4 / 4

Feed-driven D2C snack brand with a TV credential and clear feed upside.

OVERALL

15 / 20

5 of 5 dimensions scored

B — a feed-first account where small feed decisions do large amounts of work

QUALIFICATION

Read this before acting on it

Public surfaces only; Meta is marked not measured rather than estimated, because the brand term returns unrelated inventory. Spend, ROAS and COD share are not scored — no public source exists. Ad counts are one-day snapshots.

05 ORDERED BY EFFORT AGAINST IMPACT

Suggested next steps

1

LOW EFFORT · IMMEDIATE BENEFIT

Clean the sub-10% discounts out of the feed

A 1% badge is worse than no badge. Either remove the discount display at that level or reprice so the badge means something.

2

UNDER AN HOUR

Put one support address on every page

Align the policy pages to care@eatbetterco.com and set the other address to forward.

3

HALF A DAY · BIGGEST SINGLE WIN

Put the Shark Tank credential and the ■500 threshold into the ad copy

Two lines of copy testable against the current product-led creative, aimed at both trust and average order value.

NEXT STEP

Happy to walk through any of this on a short call.

7095024220

Nothing here requires new tooling. The first items are configuration, not rebuilds.

ABOUT THIS REPORT

Prepared by Smart Pursuit for Eat Better Co. Every figure was read from a public surface on 3 October 2026 — the Google Ads Transparency Center, the Meta Ad Library, and the brand's own website and published pages.

HOW TO CHECK IT

Each finding quotes the raw measurement above it. Ad counts can be re-checked by domain in the Google Ads Transparency Center (region: India), and tag IDs by opening the site and searching the page source. Spend, ROAS and CPA are private to the advertiser, so they are marked unavailable rather than estimated.
