EXECUTIVE SUMMARY

Chai Point (Mountain Trail Foods Pvt Ltd) is running 56 live Google creatives - a healthy footprint for an omnichannel chai brand with 150+ stores across 19 cities and 900,000+ cups a day. The company also operates FICO, an investor-funded single-store model with strong published economics, and serves 8,100+ workplaces through its Brewing Bots. Two clear leaks: the B2B workplace side has no dedicated paid funnel, and the retail side lacks a store-radius local campaign to compete with app-first rivals.

1. AD INTELLIGENCE

Google Ads (verified)	56 live creatives; advertiser Mountain Trail Foods Pvt Ltd.
Brand system on site	Brand blue #18289c with orange accent #ff6c22; GA4 property G-EN77D2S0YH installed; modern site with 150+ store locator, FAQs, bulk-order and events pages.
What the brand says	150+ stores in 19 cities; 900K+ cups a day; 8,100+ workplaces; 150+ Brewing Bots; 1,200-person team. Brewing Bots brew real tea leaves per cup vs premix vending - a strong B2B differentiator.
FICO (franchise-investor model)	Public pages describe an investor model at INR 22-25L with 14-15% returns - meaning store-level economics are already published and socialised; store growth is a marketing-dependent engine.
Category context	FY25 revenue INR 208.05 Cr with a INR 40.86 Cr loss and INR 14.5 Cr cash; an angel round reported around Apr 2026. Efficiency per store and per rupee of ad spend is the live board conversation.

2-5. CREATIVE / COPY / CRO / TRACKING SCORES

Creative Variety		6/10
UGC & Social Proof		5/10
Copy & Hook Strength		6/10
Landing Page CRO		5/10
Tracking & CAPI		6/10
Retargeting Depth		4/10

- **The B2B goldmine has no funnel:** 8,100+ workplaces, 150+ Brewing Bots, and a genuine product difference (real tea leaves vs premix) - yet there is no paid campaign targeting office admin / HR / facility managers with a 'book a demo' path. This is the highest-LTV line in the business and it is running on organic reach.

- **No store-radius campaigns:** 150+ stores and no visible local ad structure per store. With app-first competitors buying hyperlocal inventory, each store should have its own radius campaign measured on walk-ins.

- **Store economics need marketing support:** with published FICO returns of 14-15% depending on store performance and FY25 showing a loss, store-level demand generation (local ads + review velocity + first-order offers) directly protects the franchise story.

- **Retail retargeting missing:** chai is a daily habit - the highest-frequency category in F&B.; A missed retargeting structure (first order, then subscription/bulk) leaves the cheapest repeat revenue on the table.

6. COMPETITOR BENCHMARK

Blue Tokai / Third Wave (premium cafes)	Strong owned-brand cafe experience and loyalty.	Chai Point's scale + Brewing Bot tech is unique - lead with it.
Local chai chains & tapris	Price and proximity; impulse purchase.	Own the '100% real tea leaves, no premix' quality story in ads.

Coffee vending incumbents (Nescafe, Chaayos workplace)	Deep B2B sales teams.	Run paid to create inbound demo requests; sales closes faster.

7. 3 QUICK WINS (Implement in 7 Days)

WIN 1 - B2B workplace funnel

Build a 'Book a Brewing Bot demo' landing page: cups/day calculator, workplace photos, install timeline, client logos - then run Google search for 'office tea vending machine', LinkedIn for admin/HR titles, and retarget every visitor with two case-study ads.

WIN 2 - Store-radius local campaigns

Give the top 25 Bengaluru stores each a geo-radius campaign (3-5 km) with store-specific creatives, first-order offer, and per-store measurement - then scale the winners.

WIN 3 - Habit retargeting

Chai is daily. Retarget every customer with a 3-step flow: first order -> bundle/subscription -> gifting. Add WhatsApp opt-in at checkout for the highest-frequency channel in F&B.;

EXPECTED IMPACT

Metric	Current (live)	After Wins (est.)	Impact
Workplace leads	Organic only	Paid B2B funnel + retargeting	Inbound pipeline per city
Store walk-ins	No local ad structure	Radius campaigns on top 25 stores	Measurable lift per store
Repeat orders	No visible retargeting flow	3-step habit flow + WhatsApp	Higher frequency, lower CAC
Franchise story	Economics published	Proven local demand generation	Easier FICO investor acquisition
