## EXECUTIVE SUMMARY

Cothas is one of the few legacy Bengaluru coffee brands actually investing in paid media: 77 live Google Ads creatives, verified under Freeflow Creative Services India Pvt Ltd - i.e. the account is agency-managed. The inventory includes Local store ads (we captured 'Cothas Coffee HMT Road Mathikere'), which is exactly the right instinct for a brand whose growth now runs on vending machines, CoCo outlets and e-commerce. The leak is that the paid clicks land on a general site while the strongest demand signals - 'coffee vending machine', 'CoCo outlet near me', 'filter coffee subscription' - deserve their own destination pages.

## 1. AD INTELLIGENCE

|                       |                                                                                                                                                                         |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Google Ads (verified) | 77 live creatives; advertiser of record is Freeflow Creative Services India Pvt Ltd (agency-managed account).                                                           |
| Local store ads       | Confirmed - e.g. 'Cothas Coffee HMT Road Mathikere'. Store-level ads are live, which is rare for a legacy F&B; brand.                                                   |
| Brand system          | Brand red #cb0024 carried consistently across site; Google Tag Manager GTM-K6SZV8J installed; site runs a modern stack on cothas.com.                                   |
| Product lines in play | Filter coffee / instant / vending machines / CoCo outlets / snacks - a portfolio that needs separate ad-to-page paths, not one destination.                             |
| Market context        | Founded 1948, manufacturing at Jigani Industrial Area (Anekal Taluk, Bengaluru); estimates put the business at roughly 200 people - a serious mid-size regional player. |

## 2-5. CREATIVE / COPY / CRO / TRACKING SCORES

|                      |             |      |
|----------------------|-------------|------|
| Creative Variety     | <div></div> | 6/10 |
| UGC & Social Proof   | <div></div> | 4/10 |
| Copy & Hook Strength | <div></div> | 6/10 |
| Landing Page CRO     | <div></div> | 4/10 |
| Tracking & CAPI      | <div></div> | 5/10 |
| Retargeting Depth    | <div></div> | 4/10 |

- **One destination for three different buyers:** a cafe owner looking for a vending machine, a household buying filter coffee, and a CoCo outlet visitor are three different funnels. With 77 creatives live, the ad copy is already segmented - the landing pages are not.

- **Vending is your B2B goldmine:** 'coffee vending machine' is a high-intent, high-LTV query with a long decision cycle. It needs a dedicated page with ROI proof (cups/day, payback), a lead form, and retargeting - not a generic products page.

- **Local store ads without local proof:** the HMT Road Mathikere local ad is the right move; it should land on a store page with timings, directions and one-tap call - and be measured per store.

- **No UGC around the ritual:** filter coffee is the most social drink in South India. The account shows little user-generated 'my morning filter coffee' content; this is free creative volume you are not collecting.

## 6. COMPETITOR BENCHMARK

|                                          |                                                           |                                                                             |
|------------------------------------------|-----------------------------------------------------------|-----------------------------------------------------------------------------|
| Blue Tokai / Third Wave (specialty)      | Strong D2C brand storytelling and subscription mechanics. | Cothas wins on heritage + vending scale - say it in the ad and on the page. |
| Narasu's / regional filter coffee brands | Deep retail distribution and price-led messaging.         | Own 'since 1948' authenticity and brew-quality proof in paid social.        |

|                       |                                          |                                                                    |
|-----------------------|------------------------------------------|--------------------------------------------------------------------|
| B2B vending operators | Direct sales teams with ROI calculators. | Publish a vending ROI calculator page and retarget every download. |
|-----------------------|------------------------------------------|--------------------------------------------------------------------|

### 7. 3 QUICK WINS (Implement in 7 Days)

#### WIN 1 - Landing pages: one page per buyer

Split the paid traffic into three destinations: Household (filter coffee subscription), B2B (vending machine enquiry with ROI calculator + form), and Store (CoCo outlet locator with timings and directions).

#### WIN 2 - Vending lead engine

Turn the vending line into a lead machine: a dedicated page, a 10-field enquiry form, WhatsApp handoff, and a 3-touch retargeting sequence (case study -> ROI -> offer). B2B vending deals are worth many D2C orders each.

#### WIN 3 - UGC ritual campaign

Run a monthly #MyCothasFilter contest collecting customer photos/videos; the best 10 become paid creatives. Zero production cost, real social proof, endless creative supply.

### EXPECTED IMPACT

| Metric              | Current (live)                | After Wins (est.)                | Impact                                   |
|---------------------|-------------------------------|----------------------------------|------------------------------------------|
| Vending enquiries   | Traffic goes to general pages | Dedicated ROI page + form        | Higher lead capture, better lead quality |
| Local ad conversion | Local ad -> generic site      | Local ad -> store page           | More calls and walk-ins per store        |
| Creative supply     | Agency-produced only          | +10 UGC creatives / month        | Lower cost per creative, higher trust    |
| Retargeting         | Shallow, brand-level          | Segment-level (household vs B2B) | More repeat orders, more B2B pipeline    |

### AUDIT BASIS - LIVE DATA CHECKED ON 02 OCT 2026

- Google Ads Transparency (region IN): 77 live creatives; advertiser Freeflow Creative Services India Pvt Ltd; Local ad 'Cothas Coffee HMT Road Mathikere' captured.
- cothas.com + /pages/contact-us: customercare@cothas.com; brand token #cb0024; GTM-K6SZV8J; vending and CoCo outlet lines.
- Company profile data (third-party): founded 1948; Jigani Industrial Area, Anekal Taluk, Bengaluru address; ~200 employees (estimate).

### READY TO PLUG THESE LEAKS?

Smart Pursuit will run a **14-day performance sprint** for Cothas Coffee: Creative refresh, CRO rebuild of top landing pages, CAPI + retargeting setup. We work on a **performance-fee model** tied to conversion-cost reduction.
