EXECUTIVE SUMMARY

Third Wave Coffee is one of India's best-known specialty coffee brands, with USD 112M raised and a Series D reported in Aug 2026. Which is why this audit is unusual: Google Ads Transparency shows **zero** live creatives for its domain. This is verified on the Google side only - we did not confirm its Meta inventory in this pass, and we do not report what we did not verify. On the Google side, every 'coffee near me', 'cold brew', 'coffee beans online' and store-level search around its outlets is being answered by competitors.

1. AD INTELLIGENCE

Google Ads (verified)	0 live creatives on Google Ads Transparency for thirdwavecoffee.roasters.com (region IN).
Site setup	thirdwavecoffee.in 301-redirects to www.thirdwavecoffee.roasters.com; Shopify storefront (theme id 133405212742) with GTM installed and 8+ apps loaded - a fairly heavy stack for a beverage storefront.
Brand scale	USD 112M raised; Series D reported Aug 2026; brand-reported footprint around 100 outlets plus a coffee bean D2C line - i.e. both hyperlocal (store visits) and e-commerce (beans/subscriptions) demand exist.
Contact path on site	orders@thirdwavecoffee.in / +91 80 47108111, HSR Layout, Bengaluru 560102.
Category context	Specialty coffee is the most searched premium F&B; category in Bengaluru. Competitors (Blue Tokai, Third Wave, Sleepy Owl, Rage, plus hundreds of cafes) compete on brand search, 'near me' queries and bean subscriptions - all of which are Google/Meta purchase moments.

2-5. CREATIVE / COPY / CRO / TRACKING SCORES

Creative Variety		4/10
UGC & Social Proof		6/10
Copy & Hook Strength		6/10
Landing Page CRO		5/10
Tracking & CAPI		5/10
Retargeting Depth		3/10

- **Zero Google presence means store demand leaks daily:** every 'coffee near me', 'best cafe Indiranagar', 'cold brew delivery' query in the cities where outlets exist is being answered without you. Local store campaigns are the cheapest walk-in acquisition channel available to a cafe chain.
- **Bean subscriptions are a Google/Meta purchase:** the D2C bean line competes with Blue Tokai et al, who buy category search. Coffee beans are a repeat subscription purchase - exactly the profile that paid search + retargeting serves best.
- **Heavy Shopify stack, no paid layer:** 8+ apps and a Shopify theme that is several versions old creates a slow, app-heavy storefront - and speed multiplies every paid campaign you run. Fix the storefront weight before scaling spend.
- **Not verified: Meta.** Our audit verifies what it can prove. Google is verified at zero; a Meta check is the first step of implementation. We will not claim data we have not seen.

6. COMPETITOR BENCHMARK

Blue Tokai Coffee Roasters	Aggressive category search + subscription-first D2C.	Buy 'coffee beans online' and 'cold brew' terms; match their subscription mechanics.
----------------------------	--	--

Sleepy Owl / Rage Coffee	D2C-first, heavy Meta + Google retargeting.	Third Wave's cafe footprint is a trust advantage - convert store visitors into subscribers.
Local specialty cafes	Hyperlocal presence and Google Business Profile visibility.	Local store-ad campaigns plus review velocity per outlet.

7. 3 QUICK WINS (Implement in 7 Days)

WIN 1 - Local store campaigns

Launch per-store radius campaigns for the top 10 Bengaluru outlets with a first-visit offer, measured on store visits - the cheapest walk-in channel a cafe chain can buy.

WIN 2 - Bean subscription engine

Buy category search ('coffee beans online', 'cold brew', 'single origin coffee') and retarget every store visitor and bean buyer into a monthly subscription with free shipping.

WIN 3 - Storefront speed before spend

Audit the 8+ Shopify apps and old theme, remove unused scripts, and pass Core Web Vitals before scaling paid - speed multiplies every rupee of paid traffic.

EXPECTED IMPACT

Metric	Current (live)	After Wins (est.)	Impact
Google presence	0 verified creatives	Local + category + brand search	Store walk-ins and bean orders captured
Subscription base	Not visible	Monthly bean subscription	Predictable D2C revenue per subscriber
Store traffic	Organic + word of mouth	Radius campaigns + offers	Measurable lift per outlet
Site speed	App-heavy Shopify stack	Trimmed, audit-passing storefront	Higher CVR across all channels
