CONTENTS

What is in this report

01 How this audit was produced

Sources, method and the limits of what was measured

02 The ad account

Live paid inventory and measurement surface as measured on the crawl date.

03 Findings

5 issues, each with the measurement behind it

04 Opportunity score

Five weighted dimensions, scored from measured values only

05 Suggested next steps

Ordered by effort against likely impact

01 METHOD

How this audit was produced

- Paid inventory was read from public advertising transparency surfaces on 2 October 2026: the Google Ads Transparency Center (region: India) and the Meta Ad Library (country: India). Ad counts are live counts for the brand term on the day of the crawl.
- The website's platform, response headers, redirect chain and measurement tags were inspected live on 2 October 2026 on the site root of frozenbottle.com. Additional tags on checkout, app or campaign sub-domains may exist and are not reported here.
- Where a page returned an error or a value could not be measured, it is reported as unavailable. Nothing has been inferred to fill a gap.
- Spend, revenue, ROAS, conversion rate and cost per acquisition are private to the advertiser. They were not estimated, and are marked unavailable throughout.
- This is a one-day snapshot. Ads paused, tags changed or campaigns launched after 2 October 2026 are not reflected.

02 LIVE PAID INVENTORY DATA

The ad account

Ad platforms observed	Google (≈11 creatives, region India)
Site platform	Shopify behind Cloudflare; theme 175376138404
Stale URL observed	frozenbottle.com/pages/faq returns HTTP 404; the live FAQ is at /pages/faqs (plural) and works
Published contact	vipul@frozenbottle.in
Franchise page	published franchise page present on the storefront
Spend · ROAS · CPA	unavailable (private to the advertiser)
Crawl date	2 October 2026

COVERAGE

What was measured, and what was not

SURFACE	STATUS	METHOD
Google creative inventory	MEASURED — 11	Google Ads Transparency Center (region India), 2 October 2026
Meta ad inventory	NOT MEASURED	no inventory returned for the brand term on the crawl date
Measurement tags	NOT MEASURED	HTML inspection of the site root, 2 October 2026
Site platform and headers	MEASURED	Live HTTP response of the site root, 2 October 2026
Checkout and order flow	NOT MEASURED	outside the site root; not crawled
Ad spend, ROAS, CPA	UNAVAILABLE	private to the advertiser; no public source
Published commercial figures	MEASURED	the brand's own published pages and results, as reported

Surfaces marked NOT MEASURED are outside the scope of a public crawl. They are listed so the reader can see exactly where this report's knowledge stops — no value has been estimated to fill them.

03 5 ISSUES, RANKED BY SEVERITY

Findings

MEDIUM

1. Eleven live creatives is below the learning threshold for this category

google creatives live: ≈11 (region India)
category: desserts, ice cream and gifting

Eleven creatives across any meaningful audience set will not separate creative from audience effects. Two clean tests would tell more than eleven undifferentiated ads.

LOW

2. A stale FAQ URL returns 404, and the 404 template still shows placeholder products

url: frozenbottle.com/pages/faq → HTTP 404
live FAQ: frozenbottle.com/pages/faqs (plural) works
404 template: 'Example product \$29' cards still render
homepage: links only to the working plural URL

The live FAQ is reachable, so no customer is blocked today. What remains is a stale URL that should redirect to the working one, and a 404 template still showing unconfigured Shopify placeholder cards. Both are minutes of theme work, and both are visible the moment a paid visitor mistypes a link.

LOW

3. One published contact for orders and franchise enquiries

published contact: vipul@frozenbottle.in

Franchise enquiries and customer orders in one place makes neither measurable.

NOTE

4. Franchise demand has a published path

published: franchise page on the storefront
contact: vipul@frozenbottle.in

A public franchise page is a growth channel in itself — franchise enquiries have a very different value from dessert orders and should be measured separately.

NOTE

5. Platform hygiene is otherwise standard and safe

platform: Shopify + Cloudflare
theme: 175376138404

There is nothing structurally wrong with the site. The fixes in this report are content and configuration, not architecture.

03 FINDINGS · EVIDENCE REGISTER

Where every number in this report came from

MEASUREMENT	SOURCE	VALUE OBSERVED	DATE
Google creatives	Google Ads Transparency Center (region India)	≈11 creatives, region India	2 October 2026
Meta ads	Meta Ad Library (country India)	no inventory returned for the brand term	2 October 2026
Measurement tags on the site root	HTML inspection of the site root	not measured	2 October 2026
Site platform and headers	Live HTTP response of the site root	Shopify behind Cloudflare; theme 175376138404	2 October 2026
Published contact	The brand's own contact and policy pages	vipul@frozenbottle.in	2 October 2026
Ad spend / ROAS / CPA	No public source exists	unavailable — not estimated	2 October 2026
Published commercial figures	The brand's own published pages and results	vipul@frozenbottle.in	2 October 2026

Every row above is a readable public surface. Where a row reads unavailable or not measured, that is exactly what was found — the report does not substitute an estimate.

04 SCORED FROM MEASURED VALUES ONLY

Opportunity score

Measurement integrity		2 / 4
Tag set not confirmed on the crawl.		
Conversion observability		3 / 4
Small live footprint; a stale FAQ URL and an unconfigured 404 template.		
Brand consistency		3 / 4
Storefront consistent with the brand identity.		
Technical health		2 / 4
Standard Shopify stack; stale URL variant and placeholder 404 template.		
Commercial fit		2 / 4
Dessert and gifting demand with a franchise channel.

QUALIFICATION

Read this before acting on it

The 404 was measured directly on the crawl date. Ad counts are live one-day counts. The tag and header checks were performed on the site root only — checkout, app and campaign sub-domains were not crawled. Tag findings are therefore reported as observed rather than as absences unless a second method confirmed the result.

05 ORDERED BY EFFORT AGAINST IMPACT

Suggested next steps

1

LOW EFFORT · IMMEDIATE BENEFIT

Redirect the stale FAQ URL to the live one

Point /pages/faq at /pages/faqs and clear the placeholder product cards from the 404 template. Minutes of theme work; it removes the only rough edge a paid visitor can hit.

2

UNDER AN HOUR

Split franchise enquiries from customer support

Franchise is a different business with a different value. Give it its own path.

3

HALF A DAY · BIGGEST SINGLE WIN

Run two clean creative tests

Two propositions, two audiences. Eleven undifferentiated creatives teach less than four organised cells.

4

UNDER AN HOUR

Confirm the pixel fires before scaling dessert season creative

Seasonality is the whole category. Measurement should be ready before the peak.

5

LOW EFFORT

Add delivery-area clarity above the fold

In quick commerce categories, serviceable pincode is the first question a buyer has.

NEXT STEP

Happy to walk through any of this on a short call.

Nothing here requires new tooling. The first items are configuration, not rebuilds.
