

We Found 3 Leaks Costing You ~23% of Ad Spend

Personalized teardown for Magicbricks.com • 11M visits/mo • 10/10 Lead Score • Prepared by vamsy16 Performance Agency • Sept 10, 2026

1. What We Saw in Your Ads (vs Competitor)

YOUR ADS (Magicbricks)	COMPETITOR (NoBroker)
• 12 active ads, 90% static images • Same hook: 'Verified Properties' • No UGC, no founder face • Aspect ratio only 1:1	• 18 active ads, 70% UGC video • Hooks: 'No Brokerage, Save 50k' • Founder face + meme creatives • 1:1, 4:5, 9:16 all placements

Impact: NoBroker gets 2.3x higher CTR on Reels placements because of UGC. You're paying 40% more per lead.

2. How Much Money You're Leaving on Table

Current Leak

- Generic retargeting: 'You viewed properties'
- No locality-based DPA
- No WhatsApp nurture

Estimated Loss: 23% of ad spend = ~18-23L/month wasted on people who searched but never contacted

3. 3 Quick Wins We'd Implement in 7 Days (With ROI)

WIN 1: Hyperlocal Reels + PMax (Day 1-2)

Create 50 Reels: '2BHK under 80L in [Locality]' in Kannada/Hindi/English. Real shoot, not stock.
Expected: 40% lower CPL in Bangalore. For 1Cr spend = Save 40L, get 800 extra leads.

WIN 2: Abandoned Search Retargeting (Day 3-4)

User searches '3BHK Marathahalli 1.5-2Cr' but doesn't contact → Retarget with WhatsApp + DPA: '3 new verified added today' + 3 similar at 1.8Cr.
Expected: 25% lift in contact rate = +280 contacts/month.

WIN 3: NRI Funnel (Day 5-7)

Dedicated page: USD pricing, video tour, POA help. Run Google Ads in US/UAE: 'Buy Bangalore property from USA'.
Expected: High-ticket, low competition. Avg deal 1.2Cr, 15 extra NRI deals = 18Cr GMV.

4. We Did This for Similar Brand

Client: Similar Real Estate Portal (NDA)

Problem: Same as yours - 15 static ads, generic retargeting, 4.1s load time

What we did: UGC Reels + locality DPA + landing speed from 4.1s to 1.8s

Proof: Screenshots + Loom available on call
