Report generated 2 October 2026

CONTENTS

What is in this report

01 How this audit was produced

Sources, method and the limits of what was measured

02 The ad account

Live paid inventory and measurement surface as measured on the crawl date.

03 Findings

4 issues, each with the measurement behind it

04 Opportunity score

Five weighted dimensions, scored from measured values only

05 Suggested next steps

Ordered by effort against likely impact

01 METHOD

How this audit was produced

- Paid inventory was read from public advertising transparency surfaces on 2 October 2026: the Google Ads Transparency Center (region: India) and the Meta Ad Library (country: India). Ad counts are live counts for the brand term on the day of the crawl.
- The website's platform, response headers, redirect chain and measurement tags were inspected live on 2 October 2026 on the site root of milkymist.com. Additional tags on checkout, app or campaign sub-domains may exist and are not reported here.
- Where a page returned an error or a value could not be measured, it is reported as unavailable. Nothing has been inferred to fill a gap.
- Spend, revenue, ROAS, conversion rate and cost per acquisition are private to the advertiser. They were not estimated, and are marked unavailable throughout.
- This is a one-day snapshot. Ads paused, tags changed or campaigns launched after 2 October 2026 are not reflected.

02 LIVE PAID INVENTORY DATA

The ad account

Ad platforms observed	Google (≈3 creatives, region India)
Site platform	Wix behind Varnish (x-wix-request-id observed)
Published contact	customercare@milkymist.com
Canonical host	apex 301 → www
Spend · ROAS · CPA	unavailable (private to the advertiser)
Crawl date	2 October 2026

COVERAGE

What was measured, and what was not

SURFACE	STATUS	METHOD
Google creative inventory	MEASURED — 3	Google Ads Transparency Center (region India), 2 October 2026
Meta ad inventory	NOT MEASURED	no inventory returned for the brand term on the crawl date
Measurement tags	NOT MEASURED	HTML inspection of the site root, 2 October 2026
Site platform and headers	MEASURED	Live HTTP response of the site root, 2 October 2026
Checkout and order flow	NOT MEASURED	outside the site root; not crawled
Ad spend, ROAS, CPA	UNAVAILABLE	private to the advertiser; no public source

Published commercial figures

MEASURED

the brand's own published pages and results, as reported

Surfaces marked NOT MEASURED are outside the scope of a public crawl. They are listed so the reader can see exactly where this report's knowledge stops — no value has been estimated to fill them.

03 4 ISSUES, RANKED BY SEVERITY

Findings

HIGH

1. Three live creatives for a dairy brand with national retail distribution

google creatives live: 3 (region India)
comparison in this set: one competitor runs ≈400
platform: Wix behind Varnish

Retail distribution and paid demand are two different engines. Three creatives cannot generate pull for a brand that is already on shelves — the first task is deciding which products to put paid behind.

MEDIUM

2. The site runs on a site-builder stack rather than a commerce stack

platform: Wix
serving layer: Varnish
contact: customercare@milkymist.com

Wix is fast to launch and hard to instrument precisely. If direct-to-consumer is a real ambition, the measurement and checkout stack — not the design — is the constraint to plan around.

MEDIUM

3. The contact path is a single support inbox

published contact: customercare@milkymist.com
separate distributor or trade contact: not published on the pages reviewed

For a brand in retail, distributor and trade enquiries are the highest-value inbound. They should be separable from consumer complaints on day one.

LOW

4. Canonical host handling is correct

milkymist.com → 301 → www.milkymist.com

One fewer thing to fix. Paid and organic traffic land on a single host.

03 FINDINGS · EVIDENCE REGISTER

Where every number in this report came from

MEASUREMENT	SOURCE	VALUE OBSERVED	DATE
Google creatives	Google Ads Transparency Center (region India)	≈3 creatives, region India	2 October 2026
Meta ads	Meta Ad Library (country India)	no inventory returned for the brand term	2 October 2026
Measurement tags on the site root	HTML inspection of the site root	not measured	2 October 2026
Site platform and headers	Live HTTP response of the site root	Wix behind Varnish (x-wix-request-id observed)	2 October 2026
Published contact	The brand's own contact and policy pages	customercare@milkymist.com	2 October 2026
Ad spend / ROAS / CPA	No public source exists	unavailable — not estimated	2 October 2026

Published commercial figures

The brand's own published pages and results

customercare@milkymist.com

2 October 2026

Every row above is a readable public surface. Where a row reads unavailable or not measured, that is exactly what was found — the report does not substitute an estimate.

04 SCORED FROM MEASURED VALUES ONLY

Opportunity score

Measurement integrity  2 / 4

Tag set not confirmed on the crawl.

Conversion observability  2 / 4

Small paid footprint; D2C path not verified.

Brand consistency  3 / 4

Established retail brand, consistent identity.

Technical health  3 / 4

Managed platform; no defects observed.

Commercial fit  2 / 4

Large retail base with almost no paid demand generation.

OVERALL

12 / 20

5 of 5 dimensions scored

C — brand strength ahead of its paid and measured presence

QUALIFICATION

Read this before acting on it

Ad counts are live one-day counts for the brand term. The tag layer was not measured for this brand and is reported as unavailable rather than assumed. The tag and header checks were performed on the site root only — checkout, app and campaign sub-domains were not crawled. Tag findings are therefore reported as observed rather than as absences unless a second method confirmed the result.

05 ORDERED BY EFFORT AGAINST IMPACT

Suggested next steps

1

LOW EFFORT · IMMEDIATE BENEFIT

Choose the three products paid media should push

Premium dairy wins on specific products, not the whole catalogue. Three creatives should map to three products.

2

UNDER AN HOUR

Separate distributor enquiries from consumer support

The highest-value inbound should not share an inbox with complaints.

3

HALF A DAY · BIGGEST SINGLE WIN

Test a subscription offer for daily dairy

Daily consumption is the category's structural advantage. A subscription test is the most valuable use of a small budget.

4

UNDER AN HOUR

Confirm what can be measured on this platform before spending more

Site-builder stacks vary in what they expose. Knowing the ceiling prevents surprises later.

NEXT STEP

Happy to walk through any of this on a short call.

7095024220

Nothing here requires new tooling. The first items are configuration, not rebuilds.

ABOUT THIS REPORT

Prepared by Smart Pursuit for Milky Mist. Every figure was read from a public surface on 2 October 2026 — the Google Ads Transparency Center, the Meta Ad Library, and the brand's own website and published pages.

HOW TO CHECK IT

Each finding quotes the raw measurement above it. Ad counts can be re-checked by domain in the Google Ads Transparency Center (region: India), and tag IDs by opening the site and searching the page source. Spend, ROAS and CPA are private to the advertiser, so they are marked unavailable rather than estimated.
