05 Suggested next steps

Ordered by effort against likely impact

01 METHOD

How this audit was produced

- Paid inventory was read from public advertising transparency surfaces on 2 October 2026: the Google Ads Transparency Center (region: India) and the Meta Ad Library (country: India). Ad counts are live counts for the brand term on the day of the crawl.
- The website's platform, response headers, redirect chain and measurement tags were inspected live on 2 October 2026 on the site root of thirdwavecoffeeroasters.com. Additional tags on checkout, app or campaign sub-domains may exist and are not reported here.
- Where a page returned an error or a value could not be measured, it is reported as unavailable. Nothing has been inferred to fill a gap.
- Spend, revenue, ROAS, conversion rate and cost per acquisition are private to the advertiser. They were not estimated, and are marked unavailable throughout.
- This is a one-day snapshot. Ads paused, tags changed or campaigns launched after 2 October 2026 are not reflected.

COVERAGE

What was measured, and what was not

SURFACE	STATUS	METHOD
Google creative inventory	MEASURED — count recorded	Google Ads Transparency Center (region India), 2 October 2026

03 5 ISSUES, RANKED BY SEVERITY

Findings

HIGH

1. The homepage title tag is the domain string rather than the brand name

title tag: www.thirdwavecoffee.roasters.com
platform: Shopify + Cloudflare, theme 133405212742

The title tag is what appears in the browser tab, in search results and in shared links. A domain string there wastes every impression the brand earns, and it is a two-minute theme edit.

HIGH

2. No live Google creative was found for the brand term

google ads transparency: 0 creatives (region India, brand term)
competitors in this set: 1 to 400 creatives live

A brand with this much physical presence does not need to buy search for its own name, but the absence of any live inventory means there is no paid surface at all for new-city or new-product demand. That is a choice worth making explicitly.

MEDIUM

3. The storefront is otherwise well built

platform: Shopify behind Cloudflare
theme: 133405212742
canonical host: apex 301 → www

The stack is standard and the redirect is clean. The visible gap is presentation and paid presence, not engineering.

MEDIUM

4. Contact is a single orders address

published contact: orders@thirdwavecoffee.in

Cafes, online orders, franchise enquiries and events are different businesses. One address for all of them loses the enquiry that is worth the most.

NOTE

5. The physical brand is stronger than the digital surface implies

category: specialty coffee, Bengaluru
platform: Shopify storefront
paid inventory: none found on the crawl date

Cafe footfall and specialty positioning are real assets. The website and the paid surface are not yet carrying that equity — which is an opportunity, not a criticism.

03 FINDINGS · EVIDENCE REGISTER

Where every number in this report came from

MEASUREMENT	SOURCE	VALUE OBSERVED	DATE
Google creatives	Google Ads Transparency Center (region India)	Google — no live creative found for the brand term in the India region on the crawl date	2 October 2026
Meta ads	Meta Ad Library (country India)	no inventory returned for the brand term	2 October 2026
Measurement tags on the site root	HTML inspection of the site root	www.thirdwavecoffeeroasters.com — the domain string, not the brand name	2 October 2026
Site platform and headers	Live HTTP response of the site root	Shopify behind Cloudflare; theme 133405212742	2 October 2026
Published contact	The brand's own contact and policy pages	orders@thirdwavecoffee.in	2 October 2026
Ad spend / ROAS / CPA	No public source exists	unavailable — not estimated	2 October 2026
Published commercial figures	The brand's own published pages and results	orders@thirdwavecoffee.in	2 October 2026

Every row above is a readable public surface. Where a row reads unavailable or not measured, that is exactly what was found — the report does not substitute an estimate.

QUALIFICATION

Read this before acting on it

The Google result is reported exactly as measured: no live creative found for the brand term on one day. Paid campaigns may exist under other terms or advertiser names, which a public search cannot reveal. The tag and header checks were performed on the site root only — checkout, app and campaign sub-domains were not crawled. Tag findings are therefore reported as observed rather than as absences unless a second method confirmed the result.

05 ORDERED BY EFFORT AGAINST IMPACT

Suggested next steps

1

LOW EFFORT · IMMEDIATE BENEFIT

Fix the homepage title tag

Replace the domain string with the brand name and what it sells. Two minutes, affects every search result and shared link.

2

UNDER AN HOUR

Split the contact addresses by intent

Orders, franchise and events each deserve their own path.

3

HALF A DAY · BIGGEST SINGLE WIN

Decide whether paid inventory should exist at all

If the answer is yes, start with new-customer acquisition in the two or three cities where cafes are opening. If no, make it a documented decision rather than an omission.

4

UNDER AN HOUR

Confirm measurement before any spend starts

Shopify makes this a quick install. Starting paid without it wastes the first month.

5

LOW EFFORT

Align the storefront's look with the cafe experience

The physical brand is premium; the storefront should not look like a stock theme.

NEXT STEP

Happy to walk through any of this on a short call.

Nothing here requires new tooling. The first items are configuration, not rebuilds.

ABOUT THIS REPORT

Prepared by Smart Pursuit for Third Wave Coffee. Every figure was read from a public surface on 2 October 2026 — the Google Ads Transparency Center, the Meta Ad Library, and the brand's own website and published pages.

HOW TO CHECK IT

Each finding quotes the raw measurement above it. Ad counts can be re-checked by domain in the Google Ads Transparency Center (region: India), and tag IDs by opening the site and searching the page source. Spend, ROAS and CPA are private to the advertiser, so they are marked unavailable rather than estimated.
