~400

Google creatives live

24-36 hrs

Farm to doorstep

APEDA

Certified organic

INR 550 Cr

FY26 target

EXECUTIVE SUMMARY

Akshayakalpa Farms & Foods Pvt Ltd runs the largest paid ad inventory we found in this category - roughly 400 live Google creatives. The product story is world-class: APEDA-certified organic, milk chilled to 4C at farm level, 24-36 hours from milking to doorstep versus an industry norm of 72-96 hours, automated no-hand-touch milking, and a farmer-entrepreneurship model seeded in Nov 2010. Business momentum is strong - reported around INR 45-46 Cr monthly revenue with an FY26 target of INR 550 Cr, backed by a reported INR 350 Cr raise. The leaks are on the receiving side of that spend: the site, the contact paths, and the measurement layer that turns ~400 creatives into a learning system.

1. AD INTELLIGENCE

Google Ads (verified)	~400 live creatives under Akshayakalpa Farms and Foods Pvt Ltd - the largest inventory in this audit set (Licious follows at ~300).
What the brand publishes	India's first certified organic dairy (brand claim); APEDA organic + Jaivik Bharat certified; farms at Tiptur (near Bengaluru), Shadnagar (Hyderabad), Pooriyambakkam (Chennai).
Freshness claim (strongest asset)	Milk chilled to 4C at farm level, moved in continuous cold chain, packed without human touch - 24-36 hours to doorstep vs 72-96 hours industry practice.
Live site defect captured	akshayakalpa.org footer markup contains template placeholder text: '0123.456.789 - 2 Queen Street, California, USA' - a visible artifact a paid visitor can land on today.
Contact paths published	Only support@akshayakalpa.org and +91-9535388122 are published. There is no separate distributor/partner, bulk or gifting enquiry path on the site.
Momentum (reported)	Around INR 45-46 Cr/month revenue; FY26 target INR 550 Cr; reported INR 350 Cr raise with ABC Impact / Temasek participation; also distributed via BB Daily and SUPR Daily.

2-5. CREATIVE / COPY / CRO / TRACKING SCORES

Creative Variety		7/10
UGC & Social Proof		6/10
Copy & Hook Strength		7/10
Landing Page CRO		4/10
Tracking & CAPI		5/10
Retargeting Depth		5/10

- **~400 creatives is a scale problem, not a scale win:** at this volume, spend thins out across assets and audiences unless there is a disciplined creative-testing system. Most brands running 400 creatives cannot name the top 10 performers - and if they cannot, the other 390 are paying for the lesson.

- **The site undermines the story:** a farm-to-door premium brand cannot have template placeholder text ('0123.456.789 - 2 Queen Street, California, USA') sitting in the footer of the pages its paid traffic lands on. It is a small fix with a direct trust cost while it is live.

- **No B2B path:** organic dairy has natural B2B lines - cafes, hotels, cloud kitchens, corporate pantry, gifting. The only published contact is a support line. Distributors, HoReCa buyers and corporate gifting leads have nowhere to go, so that demand never enters the funnel.

- **Freshness claim needs to be the landing hero:** '24-36 hours vs 72-96 hours industry' is the single most persuasive fact the brand owns. It belongs on the hero of every paid landing page, not buried in an FAQ answer.

- Own the search term 'organic milk near me': with ~400 creatives and an app + website + quick-commerce mix, the measurement layer must connect store-level demand to spend. Without clean CAPI/Enhanced Conversions, half of the signal is invisible and budget decisions are guesses.

6. COMPETITOR BENCHMARK

Amul / Nandini / Heritage (conventional dairy majors)	Distribution ubiquity and price trust.	Compete on certified organic + antibiotic-free proof; never on price.
Country Delight (subscription-first dairy)	Subscription mechanics and app retention delivering weekly orders.	Akshayakalpa's story is stronger - wrap it in a subscription + retention system.
Other organic dairy brands	Premium positioning, smaller scale.	Win with certification proof, farm visits, and 24-36 hour freshness evidence.

7. 3 QUICK WINS (Implement in 7 Days)

WIN 1 - Fix the funnel before feeding it more spend

Remove placeholder/template artifacts, publish a real Bengaluru contact block, and rebuild the three highest-spend landing pages around the 24-36 hour freshness proof with subscription as the primary CTA.

WIN 2 - Creative system: know your top 10

Instrument all ~400 creatives, rank by CPA, kill the bottom third, and rebuild around 3 repeatable formats (proof film, farmer story, offer card) refreshed weekly from one shoot day. Same budget, sharper inventory.

WIN 3 - Open the B2B and gifting lines

Add enquiry paths for HoReCa / corporate pantry / gifting with a simple form, case study and price-on-request flow - and run a small always-on campaign against them. This is demand you are currently refusing.

EXPECTED IMPACT

Metric	Current (live)	After Wins (est.)	Impact
Creative inventory	~400 creatives, unknown ranking	Ranked: top 10 known, bottom third cut	Same spend, better unit economics
Landing trust	Placeholder footer live	Clean, proof-led pages	Higher conversion, protected premium
B2B / gifting demand	No enquiry path published	Form + case study + always-on campaign	New revenue line, low incremental spend
Measurement	Multi-channel, partially blind	Clean CAPI + Enhanced Conversions	Decisions backed by full signal

AUDIT BASIS - LIVE DATA CHECKED ON 02 OCT 2026

- Google Ads Transparency (region IN): ~400 live creatives; advertiser Akshayakalpa Farms and Foods Pvt Ltd.
- akshayakalpa.org (FAQ, company, privacy policy, contact pages): 4C farm chilling, 24-36 hr delivery claim, APEDA + Jaivik Bharat certification, farm locations, support@akshayakalpa.org / +91-9535388122, and live footer placeholder text.
- Reported figures: ~INR 45-46 Cr/month revenue, FY26 target INR 550 Cr, reported INR 350 Cr raise (ABC Impact / Temasek); distribution via BB Daily and SUPR Daily.
- Note on contact: brand publishes no marketing/partner address; support@akshayakalpa.org is the only official email on their own properties.

READY TO PLUG THESE LEAKS?

Smart Pursuit will run a **14-day performance sprint** for Akshayakalpa Organic: Creative refresh, CRO rebuild of top landing pages, CAPI + retargeting setup. We work on a **performance-fee model** tied to conversion-cost reduction.
