01 METHOD

Dated public-evidence snapshot checked 04 October 2026. Meta evidence is cited by individual Library ID and advertiser/page ID; the selected cards are not an account-wide count. Meta search-type parameters can be ignored by the interface, so keyword results are not treated as page or advertiser proof. Bengaluru relevance is based only on explicit creative or first-party material; no audience targeting is inferred.

Contacts and offer details are taken from the brand's own website, help or corporate pages and remain routing contacts unless a buyer role is explicitly published. No private account, booking, order or analytics records were accessed. Spend, ROAS, CPA, conversion outcomes and event firing are marked unavailable or not measured. A public ad card or URL alone does not prove that tracking events fire.

02 THE AD ACCOUNT

Brand / website	Aubree · aubree.in
Local context	Aubree's own contact page describes delivery within 3 hours across Bangalore and free delivery above 1,499. The page also offers a sales-team contact form. These are brand-published statements captured 04 Oct 2026, not independently tested delivery promises.
Selected Meta records	ID 1818186182646048 (started 2026-09-18). Active on 04 Oct 2026; selected records only.
Google Ads	NOT MEASURED: No Google Ads Transparency result is reported for this lead in this batch. This is not a zero-ad finding.
Published contact	connect@aubree.in · Official contact-page email; the page also says its form reaches the sales team. No paid-media buyer was identified. Crawled from Aubree's own contact page on 04 Oct 2026: https://aubree.in/contact-us (Mail Us: connect@aubree.in; contact form described as reaching the sales team; Bengaluru address and delivery terms are published there).
Public-evidence fit	17 / 20 · 8.5 / 10 · Good public-signal fit. Triage of public paid, local, CTA, first-party and contact-route evidence only; not an effectiveness or revenue score.

COVERAGE · each line is dated 04 OCT 2026

Surface	Status	Method / boundary
Meta paid activity	MEASURED — selected direct ad record active on capture date	Direct advertiser-page/card URL with page ID 202087063277813 and Library ID 1818186182646048; one selected creative, not an account-wide count.
Google Ads	NOT MEASURED	No Google advertiser/domain scan reported for this lead; do not read as zero.
First-party contact and local service copy	MEASURED — page content	Aubree contact page lists connect@aubree.in, a Shivaji Nagar address, Bangalore delivery within 3 hours, and free delivery above 1,499.
Site tags and event firing	NOT MEASURED	No rendered-browser or tag-manager/event test was performed; no tag is described as absent.
Spend, ROAS, CPA and conversions	UNAVAILABLE — private to advertiser	No public account or analytics data; no estimate substituted.
Ad destination to order match	NOT MEASURED	Destination URL was not exposed in the captured card; the official contact page is not assumed to be the campaign landing page.

EVIDENCE BOUNDARIES

AD LIBRARY	Selected Library IDs and page identities establish the visible record and copy only; no account-wide inventory or audience targeting is inferred.
GOOGLE	No Google Ads Transparency result is reported for this lead in this batch. This is not a zero-ad finding.
LOCAL	City relevance comes from the selected creative or first-party material; it does not establish geographic targeting.
PRIVATE DATA	Spend, ROAS, CPA, conversion outcomes and event firing are unavailable/not measured unless a source explicitly establishes them.

03 FINDINGS

MEDIUM	01 The live creative names Bengaluru and a specific eggless cake
source_ids: S1 observed: Meta Ad Library ID 1818186182646048 was marked Active and showed start date 18 Sep 2026; copy begins 'Bangalore, meet your new blueberry obsession' and lists '100% Eggless.' checked: 04 OCT 2026	

The public creative gives a clear product-and-city message. The library card proves the visible ad record only; it does not reveal spend, audience, orders or conversion quality.

NEXT CHECK · Compare the creative's actual destination and order record inside the account before drawing performance conclusions.

NOTE	02 The official site publishes local delivery conditions that can be checked against the campaign path
source_ids: S2 observed: The contact page states 'Delivery within 3hrs across Bangalore' and 'Free delivery above 1499.00.' checked: 04 OCT 2026	

These terms are brand-published. The captured ad card did not expose a landing URL, so this audit does not claim that the ad lands on that page or that the delivery promise was tested.

NEXT CHECK · Confirm that the selected product page and checkout display the same terms and preserve campaign source fields.

NOTE	03 The published email is a contact route, not a confirmed paid-media owner
source_ids: S2 observed: The official contact page lists connect@aubree.in and describes its form as reaching the sales team. checked: 04 OCT 2026	

A public route is available, but no individual's role or media-buying responsibility is published.

NEXT CHECK · Ask the recipient to route the note to the person responsible for paid-media measurement if needed.

04 OPPORTUNITY SCORE

Dimension	Score	Basis
Direct paid signal	4 / 4	A page-resolved active Meta record and exact Library ID were verified.
Bengaluru relevance	4 / 4	The creative says 'Bangalore' and the contact page publishes Bangalore-wide delivery copy and a Bengaluru address.
Public CTA visibility	2 / 4	The card labels a 'Learn more' CTA, but its destination was not exposed in the captured result.
First-party source coverage	4 / 4	The official contact page supplies local service, address and sales-contact context.
Contact-route relevance	3 / 4	The page describes a sales-team form, but the listed email is not identified as a paid-media buyer.

SCORING KEY

Direct paid signal	A page-resolved active public ad record; not spend or outcome.
Bengaluru relevance	Explicit local creative or first-party context; not audience targeting.
Public CTA visibility	A visible public next step or destination; not a conversion.
First-party coverage	Breadth of official product, store, contact or corporate evidence reviewed.
Contact-route relevance	How suitable the published route is for a referral request; no buyer identity is inferred.

ACCOUNT-SIDE VALIDATION CHECKLIST

Outcome definition	Name the event or business outcome, its counting rule and any deduplication rule before comparing systems.
Time window	Use the same date range, timezone and attribution window across any records being reconciled.
Path mapping	Trace the selected Library ID through the visible click route to the brand's own booking, enquiry or order record where applicable.
Reconciliation	Keep platform, analytics and CRM/order data side by side until event definitions and windows are comparable; do not add incompatible totals.

05 NEXT STEPS

Suggested effort labels are planning aids only. First re-open the dated public sources; then use internal account/CRM/order records only if the company chooses to share them.

LOW EFFORT	Route the question Use connect@aubree.in as a routing contact only; ask for the paid-media measurement owner. The published source does not identify this inbox as a buyer.
UNDER AN HOUR	Re-open the selected card Recheck Library ID(s) 1818186182646048; the selected records showed start date(s) 2026-09-18. Confirm today's status, page identity, copy, CTA and any currently exposed destination before reusing the observation.
UNDER AN HOUR	Complete the finding-specific public check Compare the creative's actual destination and order record inside the account before drawing performance conclusions. Confirm that the selected product page and checkout display the same terms and preserve campaign source fields.

HALF A DAY

Reconcile only with authorized private records

Ask the recipient to route the note to the person responsible for paid-media measurement if needed. If access is authorized, align the event definition, date window, timezone, Library ID and the corresponding booking/order or CRM record. Do not infer an outcome from the public ad card.

IF AN ACCOUNT-SIDE REVIEW IS AUTHORIZED

EVENT	Which completed customer action is the agreed outcome: order, booking, enquiry, store visit or another defined event?
IDENTITY	Which ad/campaign identifier or approved source field links the selected Library ID to the internal record?
WINDOW	What date range, timezone, attribution window and counting/deduplication rule apply?
SYSTEM	Which account, analytics, CRM, booking or order system is the source of record, and who can verify it?

OUTREACH CHECK BEFORE SENDING

DATE	Re-open each cited Library ID and update the status/date if the public card has changed.
CLAIM	Use only the cited copy or first-party terms; do not infer audience geography, tracking events or private outcomes.
ROUTE	Use the published first-party email as a routing contact and ask for the right owner if needed.

BEFORE CONCLUDING · Recheck active status and dated copy; do not infer audience targeting from a city name, URL tag or keyword result; treat unmeasured private outcomes as unavailable; treat a published inbox as a route, not proof of the media owner.

Happy to walk through any of this on a short call.
