01 METHOD

Dated public-evidence snapshot checked 06 October 2026. Meta evidence is cited by individual Library ID and advertiser/page ID; the selected cards are not an account-wide count. Public ad counts and rendered variants can change daily; recheck before relying on them. Meta search-type parameters can be ignored by the interface, so keyword results are not treated as page or advertiser proof. Bengaluru relevance is based only on explicit creative or first-party material; no audience targeting is inferred.

Contacts and offer details are taken from the brand's own website, help or corporate pages and remain routing contacts unless a buyer role is explicitly published. No private account, booking, order or analytics records were accessed. Spend, ROAS, CPA, conversion outcomes and event firing are marked unavailable or not measured. A public ad card or URL alone does not prove that tracking events fire.

02 THE AD ACCOUNT

Brand / website	Boba Bhairi · https://www.bobabhai.com/
Local context	The selected Meta card is shown under Boba Bhairi and links to a Google Maps search for 'boba bhairi near me'. The official Bangalore page lists Bengaluru outlets and publishes care@bobabhai.com . The map CTA is not an order, store visit or conversion measurement.
Selected Meta records	ID 27272445052456789 (started 2026-07-24). Active on 06 Oct 2026; selected records only.
Google Ads	CHECKED — no domain-query results (not proof of no activity): The India-region bobabhai.com any-time query displayed zero results on 06 Oct 2026. Zero results in one public domain query do not prove that Boba Bhairi does not advertise on Google or that no ads exist.
Published contact	care@bobabhai.com · Published customer-care route; no paid-media buyer is identified. Crawled from Boba Bhairi's own Bangalore page on 06 Oct 2026: https://www.bobabhai.com/bangalore lists Bengaluru stores and publishes care@bobabhai.com and +91-79756 73970. This is a customer-care route, not a confirmed paid-media contact.
Public-evidence fit	18 / 20 · 9.0 / 10 · High public-signal fit. Public-evidence-fit triage only: direct paid signal, explicit Bengaluru context, visibility of the public CTA, first-party source coverage and suitability of the published contact route. Not an effectiveness, conversion, revenue, spend, ROI, forecast or sales-probability score.

AD LIBRARY	Selected Library IDs and page identities establish the visible record and copy only; no account-wide inventory or audience targeting is inferred.
GOOGLE	The India-region bobabhai.com any-time query displayed zero results on 06 Oct 2026. Zero results in one public domain query do not prove that Boba Bhairi does not advertise on Google or that no ads exist.

03 FINDINGS

NOTE	01 The selected Maps CTA is not a measured store visit or order
source_ids: S1 observed: Meta Library ID 27272445052456789; Boba Bhairi; Active and Sponsored on 06 Oct 2026; started 24 Jul 2026. The visible See details route is a generic Google Maps search; the video did not play in the capture. checked: 06 OCT 2026	

The public record supports the card, advertiser label and visible CTA only. The selected video content, map interactions, store visits, orders and conversion outcomes were not measured.

NEXT CHECK · Re-open the direct card and search destination before reusing the observation; if authorized, agree how map actions, store visits and completed orders would be defined and reconciled.

NOTE	02 Bengaluru outlets and customer-care email are first-party; the inbox is not a buyer identity
source_ids: S1, S2 observed: The brand's Bangalore page lists Bengaluru outlets and publishes care@bobabhai.com. checked: 06 OCT 2026	

This confirms local brand context and a routing contact; it does not show who manages paid media or where the ad was targeted.

NEXT CHECK · Recheck outlet listings and ask the published care route to forward the source-linked note to the paid-media measurement owner.

NOTE	03 The Google domain query returned zero results in this capture
source_ids: S3 observed: The India-region bobabhai.com any-time query displayed zero results on 06 Oct 2026. checked: 06 OCT 2026	

A zero-result domain query is not evidence that no Google ads exist or that no activity occurred.

NEXT CHECK · If revisited, open an individual creative and verify advertiser, visible brand content, destination and status/last-shown before attributing it.

Reconciliation	Keep platform, analytics and CRM/order data side by side until event definitions and windows are comparable; do not add incompatible totals.

05 NEXT STEPS

Suggested effort labels are planning aids only. First re-open the dated public sources; then use internal account/CRM/order records only if the company chooses to share them.

LOW EFFORT	Route the question Use care@bobabhai.com as a routing contact only; ask for the paid-media measurement owner. The published source does not identify this inbox as a buyer.
UNDER AN HOUR	Re-open the selected card Recheck Library ID(s) 27272445052456789; the selected records showed start date(s) 2026-07-24. Confirm today's status, page identity, copy, CTA and any currently exposed destination before reusing the observation.

HALF A DAY	Reconcile only with authorized private records If revisited, open an individual creative and verify advertiser, visible brand content, destination and status/last-shown before attributing it. If access is authorized, align the event definition, date window, timezone, Library ID and the corresponding booking/order or CRM record. Do not infer an outcome from the public ad card.
