01 METHOD

Dated public-evidence snapshot checked 04 October 2026. Meta evidence is cited by individual Library ID and advertiser/page ID; the selected cards are not an account-wide count. Public counts and rendered variants can change after capture; recheck before relying on them. Meta search-type parameters can be ignored by the interface, so keyword results are not treated as page or advertiser proof. Bengaluru relevance is based only on explicit creative or first-party material; no audience targeting is inferred.

Contacts and offer details are taken from the brand's own website, help or corporate pages and remain routing contacts unless a buyer role is explicitly published. No private account, booking, order or analytics records were accessed. Spend, ROAS, CPA, conversion outcomes and event firing are marked unavailable or not measured. A public ad card or URL alone does not prove that tracking events fire.

03 FINDINGS

NOTE	01 The active Dine@99 card's Maps short link did not resolve in the static check
source_ids: S1, S5 observed: Meta Library ID 2110584583181157; page Chaayos (376971899046755); Sponsored and Active on 04 Oct 2026; started 18 Sep; Dine@99 copy links to a Maps short URL that returned Dynamic Link Not Found. checked: 04 OCT 2026	

The active sponsored record is visible, but the short URL does not establish a local destination, store visit or order result.

NEXT CHECK · Re-open the ad and link in a normal browser; confirm the current destination and intended action before referring to a location.

NOTE	02 The first-party store locator lists Bengaluru locations and a general contact route
source_ids: S2, S3 observed: The store-locator page includes Bengaluru outlet records and publishes letstalk@chaayos.com; it also displayed 109 total locator results across all areas. checked: 04 OCT 2026	

This supports Bengaluru presence and a published contact route only; the total is not a Bengaluru count and the selected ad's audience is unknown.

NEXT CHECK · Recheck the locator for a current Bengaluru outlet and ask the general route to direct the note to the paid-media measurement owner.

NOTE	03 A zero-result Google query is not evidence of no advertising
source_ids: S4 observed: The India-region domain query displayed 0 results for chaayos.com on 04 Oct 2026. checked: 04 OCT 2026	

No conclusion about the absence of Google advertising is drawn from this domain view.

NEXT CHECK · If revisited, search by verified advertiser and inspect individual creative details rather than relying on a zero-result domain view.

Recheck the locator for a current Bengaluru outlet and ask the general route to direct the note to the paid-media measurement owner.

HALF A DAY

Reconcile only with authorized private records

If revisited, search by verified advertiser and inspect individual creative details rather than relying on a zero-result domain view. If access is authorized, align the event definition, date window, timezone, Library ID and the corresponding booking/order or CRM record. Do not infer an outcome from the public ad card.
