01 METHOD

Dated public-evidence snapshot checked 04 October 2026. Meta evidence is cited by individual Library ID and advertiser/page ID; the selected cards are not an account-wide count. Meta search-type parameters can be ignored by the interface, so keyword results are not treated as page or advertiser proof. Bengaluru relevance is based only on explicit creative or first-party material; no audience targeting is inferred.

Contacts and offer details are taken from the brand's own website, help or corporate pages and remain routing contacts unless a buyer role is explicitly published. No private account, booking, order or analytics records were accessed. Spend, ROAS, CPA, conversion outcomes and event firing are marked unavailable or not measured. A public ad card or URL alone does not prove that tracking events fire.

03 FINDINGS

MEDIUM**01 The selected active ad exposes a layered Order Now click path**

source_ids: S1
observed: Meta ID 1376996287487142 was Active on 04 Oct and started 08 Sep 2026. The card says 'Celebrating 30 years of your every family...' and shows an MFilterIt redirect that contains a DoubleClick trackclk URL and Smart.link destination; a campaign parameter reads Bangalore_Anthem_Video_8Sept_Click.
checked: 04 OCT 2026

The visible URL structure is a useful QA starting point, but it does not prove that consent, click IDs, analytics events or order attribution work end to end.

NEXT CHECK · With account access, follow the route in a test environment and confirm redirect continuity, landing destination, campaign parameters and the order event.

NOTE**02 The Bangalore campaign label is not audience-targeting evidence**

source_ids: S1
observed: Bangalore_Anthem_Video_8Sept_Click appears in the captured URL parameters; the ad copy itself celebrates 30 years of family at McDonald's.
checked: 04 OCT 2026

A URL label can describe a creative or internal campaign name; no audience geography is inferred.

NEXT CHECK · Confirm targeting and delivery geography in the advertiser account if the market question matters.

NOTE**03 The published corporate route is communications, not a verified media buyer**

source_ids: S2
observed: The HRPL reach-us page labels corpcomm@mcdonaldsindia.com as Media Contact and lists info@mcdonaldsindia.com for corporate offers.
checked: 04 OCT 2026

Both are official brand routes, but neither page names the person responsible for paid-media measurement.

NEXT CHECK · Ask the published contact to route the message to the relevant digital marketing or analytics owner.
