01 METHOD

Dated public-evidence snapshot checked 04 October 2026. Meta evidence is cited by individual Library ID and advertiser/page ID; the selected cards are not an account-wide count. Meta search-type parameters can be ignored by the interface, so keyword results are not treated as page or advertiser proof. Bengaluru relevance is based only on explicit creative or first-party material; no audience targeting is inferred.

Contacts and offer details are taken from the brand's own website, help or corporate pages and remain routing contacts unless a buyer role is explicitly published. No private account, booking, order or analytics records were accessed. Spend, ROAS, CPA, conversion outcomes and event firing are marked unavailable or not measured. A public ad card or URL alone does not prove that tracking events fire.

03 FINDINGS

MEDIUM	01 The public page shows a regional story and a separate direct shopping route
source_ids: S1, S2 observed: ID 3845959365570323, active from 15 Sep 2026, says 'Every North Karnataka home has a pudi recipe it treasures.' A separate active MTR spices card, ID 1031401109942215, started 30 Sep and links to the Orkla India MTR spices category. checked: 04 OCT 2026	

The two public records show distinct creative and shopping routes; the public evidence does not link a regional impression to a retailer sale or establish campaign targeting.
NEXT CHECK · Compare campaign source, product/category destination and first-party or retailer order signals inside the relevant reporting systems.

NOTE	02 The official company contact page identifies the Bengaluru corporate office and a media route
source_ids: S3 observed: The MTR contact page names Orkla India Limited (MTR Division), an Ejipura, Bengaluru corporate office, feedback@mtrfoods.com and mediacell@orklaindia.com for media enquiries. checked: 04 OCT 2026	

The media inbox is a published corporate route, not evidence that the recipient buys media or owns acquisition reporting.
NEXT CHECK · Ask the recipient to route the question to the digital commerce or paid-media owner.

NOTE	03 Private performance and event data were not available publicly
source_ids: S1, S2 observed: Meta cards expose creative, dates and a destination on one selected ad; no spend, ROAS, CPA or retail conversion values appear in the cited public pages. checked: 04 OCT 2026
