01 METHOD

Dated public-evidence snapshot checked 04 October 2026. Meta evidence is cited by individual Library ID and advertiser/page ID; the selected cards are not an account-wide count. Public counts and rendered variants can change after capture; recheck before relying on them. Meta search-type parameters can be ignored by the interface, so keyword results are not treated as page or advertiser proof. Bengaluru relevance is based only on explicit creative or first-party material; no audience targeting is inferred.

Contacts and offer details are taken from the brand's own website, help or corporate pages and remain routing contacts unless a buyer role is explicitly published. No private account, booking, order or analytics records were accessed. Spend, ROAS, CPA, conversion outcomes and event firing are marked unavailable or not measured. A public ad card or URL alone does not prove that tracking events fire.

-------------------	---

GOOGLE	India-region domain view displayed 2 any-time results under Matrix Publicities and Media India Private Limited; advertiser identity was not verified in the reviewed view. The opened video was last shown 05 Jul 2026 and its content was inaccessible. No current Taco Bell India creative was established; the total is not an active-ad count.

03 FINDINGS

NOTE	01 Meal Mania is a public app-order offer; the card does not expose order outcomes
source_ids: S1 observed: Meta Library ID 2167460064200925; page Taco Bell India (380872194812); Sponsored and Active on 04 Oct 2026, started 02 Oct; copy promotes meals from ₹89 with an Order Now app short link. checked: 04 OCT 2026	

The sponsored card shows an offer and app next step only. No app session, redemption or order event was accessed.

NEXT CHECK · Confirm the current offer and app destination, then reconcile an authorized test/order record to the intended campaign event.

NOTE	02 Bengaluru locator evidence is index-only; the media inquiry route is separate
source_ids: S2, S3 observed: Official Taco Bell locator/search snippets list Bengaluru outlets; direct fetch of https://www.tacobell.co.in/store-locator returned HTTP 500. Burman Hospitality publishes tacobellcare@burmanhospitality.com and a Marketing and Media form category. checked: 04 OCT 2026	

The Bengaluru evidence is limited to indexed first-party snippets; it does not directly verify a current outlet or ad audience. The corporate media-form category is a routing option, while the published customer-care inbox is not assumed to be the marketing team.

NEXT CHECK · Re-open the locator in a normal browser; if it remains unavailable, confirm the current Bengaluru listing with the company and use its Marketing and Media route for measurement questions.

NOTE	03 Google query results do not establish current Taco Bell India activity
source_ids: S4 observed: The domain view displayed two any-time items under Matrix Publicities and Media India Private Limited; the reviewed video was last shown 05 Jul 2026 and could not be inspected. checked: 04 OCT 2026	

The result total is not a current brand-ad count; no Google activity is claimed.

NEXT CHECK · Open a specific creative and verify advertiser, Taco Bell destination and current/last-shown status before making a brand activity claim.

Path mapping	Trace the selected Library ID through the visible click route to the brand's own booking, enquiry or order record where applicable.
Reconciliation	Keep platform, analytics and CRM/order data side by side until event definitions and windows are comparable; do not add incompatible totals.

HALF A DAY

Reconcile only with authorized private records

Open a specific creative and verify advertiser, Taco Bell destination and current/last-shown status before making a brand activity claim. If access is authorized, align the event definition, date window, timezone, Library ID and the corresponding booking/order or CRM record. Do not infer an outcome from the public ad card.
