01 METHOD

Dated public-evidence snapshot checked 04 October 2026. Meta evidence is cited by individual Library ID and advertiser/page ID; the selected cards are not an account-wide count. Public counts and rendered variants can change after capture; recheck before relying on them. Meta search-type parameters can be ignored by the interface, so keyword results are not treated as page or advertiser proof. Bengaluru relevance is based only on explicit creative or first-party material; no audience targeting is inferred.

Contacts and offer details are taken from the brand's own website, help or corporate pages and remain routing contacts unless a buyer role is explicitly published. No private account, booking, order or analytics records were accessed. Spend, ROAS, CPA, conversion outcomes and event firing are marked unavailable or not measured. A public ad card or URL alone does not prove that tracking events fire.

02 THE AD ACCOUNT

03 FINDINGS

NOTE	01 The active card exposes a Maps short link whose final place is unconfirmed
source_ids: S1, S5 observed: Meta Library ID 1130453286074164 is labelled The Belgian Waffle Co. (page ID 937113036310326), Sponsored and Active on 04 Oct 2026, started 01 Oct 2026. The Maps short link resolved in the static check to Pan Bazaar, Guwahati. checked: 04 OCT 2026	

The page-resolved card proves a sponsored placement on the named page. Its short-link destination is not verified as a brand store and is not a Bengaluru signal.

NEXT CHECK · Re-open the card and Maps link in a normal browser; verify the final business/place before describing the offer or city.

NOTE	02 Bengaluru location evidence is first-party indexed content, not a reachable live listing
source_ids: S2, S3 observed: The official indexed Karnataka/Bengaluru page showed outlet snippets, but direct fetch returned 404; the interactive locator did not render city results in the static capture. The About Us page publishes marketing@bloomberg.in. checked: 04 OCT 2026	

Retain Bengaluru relevance as a caveated first-party index signal, not a fully re-opened live store listing and not ad targeting.

NEXT CHECK · Re-open the official store locator and confirm at least one current Bengaluru location before sending the local-context line.

NOTE	03 Google domain results do not establish current Belgian Waffle activity
source_ids: S4 observed: The India-domain view displayed about 500 any-time results under verified Shrey Yogesh Aggarwal; the opened preview was blocked and no brand relationship was established. checked: 04 OCT 2026	

Any-time and mixed-advertiser results are not current brand-ad counts. No Google activity is asserted.

NEXT CHECK · If revisited, verify an individual creative, named advertiser, brand-specific destination and last-shown/status fields.

Path mapping	Trace the selected Library ID through the visible click route to the brand's own booking, enquiry or order record where applicable.

Reconcile only with authorized private records

If revisited, verify an individual creative, named advertiser, brand-specific destination and last-shown/status fields. If access is authorized, align the event definition, date window, timezone, Library ID and the corresponding booking/order or CRM record. Do not infer an outcome from the public ad card.
