01 METHOD

Dated public-evidence snapshot checked 04 October 2026. Meta evidence is cited by individual Library ID and advertiser/page ID; the selected cards are not an account-wide count. Public ad counts and rendered variants can change daily; recheck before relying on them. Meta search-type parameters can be ignored by the interface, so keyword results are not treated as page or advertiser proof. Bengaluru relevance is based only on explicit creative or first-party material; no audience targeting is inferred.

Contacts and offer details are taken from the brand's own website, help or corporate pages and remain routing contacts unless a buyer role is explicitly published. No private account, booking, order or analytics records were accessed. Spend, ROAS, CPA, conversion outcomes and event firing are marked unavailable or not measured. A public ad card or URL alone does not prove that tracking events fire.

03 FINDINGS

NOTE	01 The individual active card names Sarjapur and points to a WhatsApp send URL
source_ids: S1 observed: Library ID 1443992777603201; The Cuisine Story page ID 430188154064409; Active and Sponsored on 04 Oct 2026; started 30 Sep 2026; copy names Sarjapur, Bangalore and validity through 15 Oct; Order Now points to api.whatsapp.com/send without a recipient. Surrounding page header says unpublished/deleted. checked: 04 OCT 2026	

The individual card details establish a public creative and visible click route only. The printed offer date is not a separately checked live offer, and the route does not establish a reservation/order or event.

NEXT CHECK · Re-open the current card and its WhatsApp destination; confirm the recipient and current offer terms, then map any authorized booking/order event to the selected ID.

NOTE	02 The first-party homepage publishes outlet routes and a general email
source_ids: S2 observed: The official homepage lists Kaggadasapura and Sarjapur Road Bengaluru outlets, order links, cuisinestory.info@gmail.com and cuisinestory.sarjapura@gmail.com. checked: 04 OCT 2026	

This confirms first-party local context and contact provenance, not the ad's audience geography or who manages paid media.

NEXT CHECK · Ask the published general contact to route the note to the owner of paid-media measurement if appropriate.

NOTE	03 The Google domain query returned no result in this capture
source_ids: S3 observed: India-region domain view for thecuisinestory.com returned zero results on 04 Oct 2026. checked: 04 OCT 2026	

A zero-result view does not prove that the brand is not advertising on Google.

NEXT CHECK · If revisited, open an individual creative and confirm advertiser identity, brand tie, destination and last-shown/status fields.

Public CTA visibility	A visible public next step or destination; not a conversion.
First-party coverage	Breadth of official product, store, contact or corporate evidence reviewed.
Contact-route relevance	How suitable the published route is for a referral request; no buyer identity is inferred.

ACCOUNT-SIDE VALIDATION CHECKLIST

Outcome definition	Name the event or business outcome, its counting rule and any deduplication rule before comparing systems.
Time window	Use the same date range, timezone and attribution window across any records being reconciled.
Path mapping	Trace the selected Library ID through the visible click route to the brand's own booking, enquiry or order record where applicable.
Reconciliation	Keep platform, analytics and CRM/order data side by side until event definitions and windows are comparable; do not add incompatible totals.

05 NEXT STEPS

Suggested effort labels are planning aids only. First re-open the dated public sources; then use internal account/CRM/order records only if the company chooses to share them.

Ask the published general contact to route the note to the owner of paid-media measurement if appropriate.

HALF A DAY	Reconcile only with authorized private records If revisited, open an individual creative and confirm advertiser identity, brand tie, destination and last-shown/status fields. If access is authorized, align the event definition, date window, timezone, Library ID and the corresponding booking/order or CRM record. Do not infer an outcome from the public ad card.
