Report generated 3 October 2026

CONTENTS

What is in this report

01 How this audit was produced

Sources, method and the limits of what was measured

02 The ad account

Live paid inventory and measurement surface as measured on the crawl date.

03 Findings

5 issues, each with the measurement behind it

04 Opportunity score

Five weighted dimensions, scored from measured values only

05 Suggested next steps

Ordered by effort against likely impact

01 METHOD

How this audit was produced

- Paid inventory was read from public advertising transparency surfaces on 3 October 2026: the Google Ads Transparency Center (region: India) and the Meta Ad Library (country: India). Ad counts are live counts for the brand term on the day of the crawl.
- The website's platform, response headers, redirect chain and measurement tags were inspected live on 3 October 2026 on the site root of brikoven.com. Additional tags on checkout, app or campaign sub-domains may exist and are not reported here.
- Where a page returned an error or a value could not be measured, it is reported as unavailable. Nothing has been inferred to fill a gap.
- Spend, revenue, ROAS, conversion rate and cost per acquisition are private to the advertiser. They were not estimated, and are marked unavailable throughout.
- This is a one-day snapshot. Ads paused, tags changed or campaigns launched after 3 October 2026 are not reflected.

02 LIVE PAID INVENTORY DATA

The ad account

Google creatives live	42 creatives in the advertiser account (Brik Oven Pvt Ltd, identity verified by Google); 25 creatives point specifically at brikoven.com, and the visible set is dominated by Local store ads for Palace Road, Whitefield, Koramangala and Manyata Business Park
Ad platforms observed	Google (Ads Transparency Center, region India) · Meta (Ad Library, country India)
Google creative inventory	42 creatives in the advertiser account (Brik Oven Pvt Ltd, identity verified by Google); 25 creatives point specifically at brikoven.com, and the visible set is dominated by Local store ads for Palace Road, Whitefield, Koramangala and Manyata Business Park
Meta ads	NOT MEASURED — the brand-term search returns ~27 results whose first page is entirely unrelated advertisers, so brand-owned inventory could not be confirmed by this method
Measurement tags	Google Tag Manager GTM-PMCQMP4 · GA4 G-6HE7Y2G8N3 · Meta pixel 428743468014315 (fbq init visible in the page source) · Squarespace storefront
Site platform	Squarespace; HSTS present
Published contact	theteam@brikoven.com (published on the site's contact block)
Published address	outlets on the home page: #19 Church St., Bangalore 560001 · 872/A HAL 2nd Stage, 80 Ft Road, Bangalore 560038 · Prestige Trade Tower, Palace Road, Bengaluru 560001 · Prem Chambers, Jyoti Nivas College Rd, Koramangala, Bengaluru 560034 — each with its own phone number
Bengaluru relevance	four Bengaluru outlets are published with full addresses and phone numbers, and the live Google local ads are store-level ads for those outlets

Reservation path	Local ads offer 'Book now' via widget.reservego.co — a third-party reservation widget
Broken paths observed	/contact-us · /about-us · /faq · /menu · /book-a-table · /locations · /order-online · /privacy-policy · /terms → all 404 on 3 October 2026 (nine paths)
Spend · ROAS · CPA	unavailable (private to the advertiser)
Crawl date	3 October 2026

COVERAGE

What was measured, and what was not

SURFACE	STATUS	METHOD
Google creative inventory	MEASURED — 42	Google Ads Transparency Center (region India), 3 October 2026
Meta ad inventory	NOT MEASURED	Meta Ad Library (country India), 3 October 2026
Measurement tags	MEASURED — Google Tag Manager GTM-PMCQMP4 · GA4 G-6HE7Y2G8N3 · Meta ...	HTML inspection of the site root, 3 October 2026
Site platform and headers	MEASURED	Live HTTP response of the site root, 3 October 2026
Checkout and order flow	NOT MEASURED	outside the site root; not crawled
Ad spend, ROAS, CPA	UNAVAILABLE	private to the advertiser; no public source
Published commercial figures	MEASURED	the brand's own published pages and results, as reported

Surfaces marked NOT MEASURED are outside the scope of a public crawl. They are listed so the reader can see exactly where this report's knowledge stops — no value has been estimated to fill them.

03 5 ISSUES, RANKED BY SEVERITY

Findings

HIGH

1. Your reservation click leaves your domain and lands in a third-party widget

Local ad creative (verbatim from the ad archive):
'Wood-Fired Pizza Near You — Discover Neapolitan sourdough pizzas ...'
CTA target shown: 'Book now • widget.reservego.co/'
store: Brik Oven — Woodfired Pizzas (Manyata Business Park)
source: Google Ads Transparency Center, region India, 3 October 2026

Every booking made through that widget is a customer relationship held by someone else: the booking data, the ability to remarket to a no-show list, and the measurement of which store the ad actually filled. A direct booking path on brikoven.com — even a simple form that emails the store — puts that data back in your hands and makes store-level ROAS readable.

HIGH

2. Eight conventional paths, including the contact page, return 404

```
GET https://brikoven.com/contact-us → 404
GET https://brikoven.com/menu → 404
GET https://brikoven.com/book-a-table → 404
GET https://brikoven.com/locations → 404
GET https://brikoven.com/order-online → 404
(plus /about-us, /faq, /terms — all 404 on 3 October 2026)
```

Brik Oven's search traffic is overwhelmingly intent-led — 'pizza near me', 'book a table', store names. People who arrive by typing or by an old link hit dead pages, and those are exactly the visitors most likely to book. Redirects to the working sections (menu, reservations, stores) are an afternoon of work and they recover traffic the paid campaigns are already paying to create.

MEDIUM

3. Seventeen creatives in the account point somewhere other than the website

advertiser account: 42 creatives
domain brikoven.com: 25 creatives
difference: 17
source: Google Ads Transparency Center, region India, 3 October 2026

The difference is consistent with store-level ads and third-party reservation destinations rather than a leak — but it does mean the account's centre of gravity is not the website, and website analytics can only ever see part of what paid media does. Worth mapping deliberately rather than discovering later.

MEDIUM

4. At least one store creative has stopped serving

creative CR16763555951004352513 (Brik Oven — Woodfired Pizzas, Palace Road)
archive states: 'Last shown: Jul 23, 2026' and 'Format: Text'
the same creative promotes 'Smoked Ham Bagel Mornings — Sourdough sandwiches, bagels & toasties. Open 8AM-11AM daily'

Store-level ads need a cadence, because a breakfast ad that stopped in July is still visible in the public archive in October while the stores keep trading. A monthly review of which local ads are live — and a decision on whether to keep breakfast creative running — is the difference between a maintained account and a set-and-forget one.

NOTE

5. The stack is clean and the breakfast launch is being advertised properly

GTM-PMCQMP4 and GA4 G-6HE7Y2G8N3 both present on brikoven.com, 3 October 2026
local ad copy: 'Sourdough Breakfast at Brik — Egg salad bagels, ham melts, fig toasties. Breakfast all day, no lines.' (Prestige Trade Tower)

A tag manager container, a GA4 property and specific store-level copy about a specific daypart is a more disciplined setup than most restaurant groups run. The quick wins here are about keeping it current, not rebuilding it.

03 FINDINGS · EVIDENCE REGISTER

Where every number in this report came from

MEASUREMENT	SOURCE	VALUE OBSERVED	DATE
Google creatives	Google Ads Transparency Center (region India)	42 creatives in the advertiser account (Brik Oven Pvt Ltd, identity verified by Google); 25 creatives point specifically at brikoven.com, and the visible set is dominated by Local store ads for Palace Road, Whitefield, Koramangala and Manyata Business Park	3 October 2026
Meta ads	Meta Ad Library (country India)	NOT MEASURED — the brand-term search returns ~27 results whose first page is entirely unrelated advertisers, so brand-owned inventory could not be confirmed by this method	3 October 2026
Measurement tags on the site root	HTML inspection of the site root	Google Tag Manager GTM-PMCQMP4 · GA4 G-6HE7Y2G8N3 · Meta pixel 428743468014315 (fbq init visible in the page source) · Squarespace storefront	3 October 2026
Site platform and headers	Live HTTP response of the site root	Squarespace; HSTS present	3 October 2026
Published contact	The brand's own contact and policy pages	theteam@brikoven.com (published on the site's contact block)	3 October 2026
Ad spend / ROAS / CPA	No public source exists	unavailable — not estimated	3 October 2026
Published commercial figures	The brand's own published pages and results	theteam@brikoven.com (published on the site's contact block)	3 October 2026

Every row above is a readable public surface. Where a row reads unavailable or not measured, that is exactly what was found — the report does not substitute an estimate.

04 SCORED FROM MEASURED VALUES ONLY

Opportunity score

Measurement integrity		3 / 4
GTM and GA4 present on the site; store-level ad data sits partly off-domain.		
Conversion observability		2 / 4
Reservations through a third-party widget; store-level ROAS hard to attribute.		
Brand consistency		4 / 4
Distinctive brand voice carried into store-level ad copy.		
Technical health		2 / 4
Eight dead paths including contact and locations.		
Commercial fit		4 / 4
Multi-outlet group actively running local store ads across Bengaluru.		

OVERALL

15 / 20

5 of 5 dimensions scored

B — well-run local advertising losing its data at the last click

QUALIFICATION

Read this before acting on it

Public surfaces only. The archive's 'removed for a policy violation' line appears on some local-ad creatives in Google's rendering; it is not read here as a brand finding. Spend, ROAS and cover counts are not scored. Ad counts are one-day snapshots and Meta keyword results include unrelated advertisers.

05 ORDERED BY EFFORT AGAINST IMPACT

Suggested next steps

- 1

LOW EFFORT · IMMEDIATE BENEFIT

Redirect the dead paths to the working sections

Contact, menu, reservations, locations and ordering should each land on the section that exists. One afternoon.
- 2

UNDER AN HOUR

Review which store creatives are still live

Check the Palace Road breakfast creative — the archive shows it stopped in July while the stores kept trading.
- 3

HALF A DAY · BIGGEST SINGLE WIN

Own the reservation path

Put a booking form on brikoven.com so bookings, no-shows and store-level attribution stay with you instead of the widget.

NEXT STEP

Happy to walk through any of this on a short call.

7095024220

Nothing here requires new tooling. The first items are configuration, not rebuilds.

ABOUT THIS REPORT

Prepared by Smart Pursuit for Brik Oven. Every figure was read from a public surface on 3 October 2026 — the Google Ads Transparency Center, the Meta Ad Library, and the brand's own website and published pages.

HOW TO CHECK IT

Each finding quotes the raw measurement above it. Ad counts can be re-checked by domain in the Google Ads Transparency Center (region: India), and tag IDs by opening the site and searching the page source. Spend, ROAS and CPA are private to the advertiser, so they are marked unavailable rather than estimated.
