Report generated 3 October 2026

CONTENTS

What is in this report

01	How this audit was produced Sources, method and the limits of what was measured
02	The ad account Live paid inventory and measurement surface as measured on the crawl date.
03	Findings 5 issues, each with the measurement behind it
04	Opportunity score Five weighted dimensions, scored from measured values only
05	Suggested next steps Ordered by effort against likely impact

01 METHOD

How this audit was produced

- Paid inventory was read from public advertising transparency surfaces on 3 October 2026: the Google Ads Transparency Center (region: India) and the Meta Ad Library (country: India). Ad counts are live counts for the brand term on the day of the crawl.
- The website's platform, response headers, redirect chain and measurement tags were inspected live on 3 October 2026 on the site root of pureandsure.in. Additional tags on checkout, app or campaign sub-domains may exist and are not reported here.
- Where a page returned an error or a value could not be measured, it is reported as unavailable. Nothing has been inferred to fill a gap.
- Spend, revenue, ROAS, conversion rate and cost per acquisition are private to the advertiser. They were not estimated, and are marked unavailable throughout.
- This is a one-day snapshot. Ads paused, tags changed or campaigns launched after 3 October 2026 are not reflected.

02 LIVE PAID INVENTORY DATA

The ad account

Google creatives live	37 creatives live on 3 October 2026 under Phalada Organic Consumer Products Private Limited (identity verified by Google), including Shopping and video
Ad platforms observed	Google (Ads Transparency Center, region India) · Meta (Ad Library, country India)
Google creative inventory	37 creatives live on 3 October 2026 under Phalada Organic Consumer Products Private Limited (identity verified by Google), including Shopping and video
Meta ads	NOT MEASURED — the keyword search for the brand term returns ~37,000 unrelated results (both words are generic), so no brand-specific inventory is reported here; the storefront does carry Meta pixel 903483430574351, initialised in the page source on 3 October 2026
Measurement tags	GA4 G-VGC836EHVF · Google Tag Manager GTM-KP8NPFKZ · Google Ads AW-16785598661 · Meta pixel 903483430574351 (fbq init, visible in the page source)
Site platform	Shopify; Cloudflare in front; HSTS present
Published contact	info@pureandsure.in (contact and shipping-policy pages) · care@pureandsure.in (cart and collection pages) · 1800 121 0369
Published address	Phalada Organic Consumer Products Pvt Ltd, 92/5, Kannalli Village, Seegehalli, Magadi Main Road, Bangalore 560091 (footer of the cart and collection pages)
Published offer	Free shipping on orders above ₹500 (site banner, 3 October 2026)
Broken paths observed	/pages/contact-us → 404 · /pages/about-us → 404 · /pages/store-locator → 404 · /pages/bulk-enquiry → 404 · /pages/corporate-gifting → 404 · (/pages/contact works)

Bengaluru relevance	the brand's published address is in Bangalore 560091 (Magadi Main Road)
Spend · ROAS · CPA	unavailable (private to the advertiser)
Crawl date	3 October 2026

COVERAGE

What was measured, and what was not

SURFACE	STATUS	METHOD
Google creative inventory	MEASURED — 37	Google Ads Transparency Center (region India), 3 October 2026
Meta ad inventory	NOT MEASURED	Meta Ad Library (country India), 3 October 2026
Measurement tags	MEASURED — GA4 G-VGC836EHVF · Google Tag Manager GTM-KP8NPFKZ · Google ...	HTML inspection of the site root, 3 October 2026
Site platform and headers	MEASURED	Live HTTP response of the site root, 3 October 2026
Checkout and order flow	NOT MEASURED	outside the site root; not crawled
Ad spend, ROAS, CPA	UNAVAILABLE	private to the advertiser; no public source
Published commercial figures	MEASURED	the brand's own published pages and results, as reported

Surfaces marked NOT MEASURED are outside the scope of a public crawl. They are listed so the reader can see exactly where this report's knowledge stops — no value has been estimated to fill them.

03 5 ISSUES, RANKED BY SEVERITY

Findings

HIGH

1. Automatic feed tagging is overwriting your campaign reporting

PLA landing URL captured in the ad archive (verbatim):
https://pureandsure.in/products/organic-desi-ghee-500ml?variant=47115633492123&country;=IN¤cy;=INR&utm;_medium=product_sync&utm;_source=google&utm;_content=sag_organic&utm;_campaign=sag_organic
campaign parameter observed: utm_campaign=sag_organic

Google's automatic feed tagging is writing 'sag_organic' into the campaign field of every Shopping click. In GA4, that traffic will be filed as an 'organic' campaign — which means your paid Shopping investment is indistinguishable from search traffic in reports, and any channel comparison built on those reports is wrong. It is a five-minute change in the feed's tracking settings, and it is the difference between trusting your own dashboard and not.

MEDIUM

2. Meta is unmeasurable by brand term, and the pixel is the only clue

meta search 'Pure and Sure' (country India, active): ~37,000 results, first page entirely unrelated advertisers
storefront: Meta pixel present; GA4 G-VGC836EHVF; GTM-KP8NPFKZ; Ads AW-16785598661
conclusion: no brand-specific Meta count could be read on 3 October 2026

It is honestly not possible to say from outside how much Meta inventory Pure & Sure runs, because the brand name is made of two generic words. Rather than guess, this audit marks it not measured. What can be said: the pixel is installed, so if Meta campaigns are running, the audiences exist. A clean read needs the account's own figures.

MEDIUM

3. Conventional paths are dead in a way that suggests a platform rebuild

```
GET https://pureandsure.in/pages/contact-us → 404
GET https://pureandsure.in/pages/about-us → 404
GET https://pureandsure.in/pages/contact → 200 (works)
GET https://pureandsure.in/pages/store-locator → 404
(3 October 2026)
```

The pattern — 'contact' works, 'contact-us' does not — is what happens when a Shopify theme is replaced and the old handles are never redirected. Redirects are cheap insurance: they also recover any paid or organic traffic that was pointed at the old URLs.

LOW

4. Two published support addresses on the same site

```
address 1: info@pureandsure.in (contact and shipping-policy pages)
address 2: care@pureandsure.in (cart and collection pages)
toll-free: 1800 121 0369
```

Two addresses is fine if someone owns both. It is a problem if a customer writes to one and waits. Standard practice: one canonical address on every page, with the second as an alias that forwards into the same inbox.

NOTE

5. The catalogue is being led by a new product, and the feed carries it well

```
site banner: 'Introducing Low GI Sonamasuri Rice — Buy Now'
site banner: '100% Organic Foods Delivered Directly' and 'Free Shipping on orders above ₹500'
PLA sample: 'Organic Ghee | Premium A...' landing on a product page with a variant parameter
```

Low-GI rice, organic ghee and a ₹500 free-shipping threshold is a coherent, premium-led catalogue, and the Shopping feed is picking products up cleanly. The measurement fix above is what will let the team see which of these products actually earns the spend.

03 FINDINGS · EVIDENCE REGISTER

Where every number in this report came from

MEASUREMENT	SOURCE	VALUE OBSERVED	DATE
Google creatives	Google Ads Transparency Center (region India)	37 creatives live on 3 October 2026 under Phalada Organic Consumer Products Private Limited (identity verified by Google), including Shopping and video	3 October 2026
Meta ads	Meta Ad Library (country India)	NOT MEASURED — the keyword search for the brand term returns ~37,000 unrelated results (both words are generic), so no brand-specific inventory is reported here; the storefront does carry Meta pixel 903483430574351, initialised in the page source on 3 October 2026	3 October 2026
Measurement tags on the site root	HTML inspection of the site root	GA4 G-VGC836EHVF · Google Tag Manager GTM-KP8NPFKZ · Google Ads AW-16785598661 · Meta pixel 903483430574351 (fbq init, visible in the page source)	3 October 2026
Site platform and headers	Live HTTP response of the site root	Shopify; Cloudflare in front; HSTS present	3 October 2026
Published contact	The brand's own contact and policy pages	info@pureandsure.in (contact and shipping-policy pages) · care@pureandsure.in (cart and collection pages) · 1800 121 0369	3 October 2026
Ad spend / ROAS / CPA	No public source exists	unavailable — not estimated	3 October 2026
Published commercial figures	The brand's own published pages and results	info@pureandsure.in (contact and shipping-policy pages) · care@pureandsure.in (cart and collection pages) · 1800 121 0369	3 October 2026

Every row above is a readable public surface. Where a row reads unavailable or not measured, that is exactly what was found — the report does not substitute an estimate.

04 SCORED FROM MEASURED VALUES ONLY

Opportunity score

Measurement integrity

3 / 4

GA4, GTM, Ads tag and Meta pixel all present;
feed tagging corrupts campaign data.

Conversion observability

3 / 4

Shopify storefront and pixel in place; Meta spend
not publicly readable.

Brand consistency

4 / 4

Organic, premium-led positioning carried
consistently.

Technical health

3 / 4

Several dead paths but a working contact page;
HSTS present.

Commercial fit

3 / 4

Established organic FMCG brand with an active
Google account.

OVERALL

16 / 20

5 of 5 dimensions scored

B — a healthy stack with one reporting setting that quietly invalidates channel comparisons

QUALIFICATION

Read this before acting on it

Public surfaces only; Meta is explicitly marked not measured rather than estimated, because the brand term returns unrelated inventory. Spend, ROAS and conversion rates are not scored. The 37-creative count is a one-day snapshot.

05 ORDERED BY EFFORT AGAINST IMPACT

Suggested next steps

1

LOW EFFORT · IMMEDIATE BENEFIT

Turn off 'sag_organic' auto-tagging in the feed

It takes minutes and it is currently filing paid Shopping clicks as organic traffic in your analytics.

2

UNDER AN HOUR

Redirect the old page handles

contact-us, about-us and store-locator should all point somewhere useful instead of returning 404.

3

HALF A DAY · BIGGEST SINGLE WIN

Get a clean Meta read and decide the channel question

Pull the last 90 days of Meta spend and results from the account, and compare it with the Google figures you can already see. Then decide whether Meta deserves more than the pixel.

NEXT STEP

Happy to walk through any of this on a short call.

7095024220

Nothing here requires new tooling. The first items are configuration, not rebuilds.

ABOUT THIS REPORT

Prepared by Smart Pursuit for Pure & Sure. Every figure was read from a public surface on 3 October 2026 — the Google Ads Transparency Center, the Meta Ad Library, and the brand's own website and published pages.

HOW TO CHECK IT

Each finding quotes the raw measurement above it. Ad counts can be re-checked by domain in the Google Ads Transparency Center (region: India), and tag IDs by opening the site and searching the page source. Spend, ROAS and CPA are private to the advertiser, so they are marked unavailable rather than estimated.
